Description & Comments
(What is it, any issues found, is there a financial impact to current/next FY, does this contract vary from previous FY, etc.)

Summary

To amend the Pinellas County Land Development Code (LDC), chapters 138 and 166 of the Pinellas County Land Development Code; providing for and amending the regulation of trees and landscaping; amending provisions related to nuisance species and invasive species; amending plant material specifications; amending non-residential and multi-family landscaping standards; amending the approved species list; providing for severability; providing and amending definitions; providing for inclusion in the Land Development Code; providing for scrivener's errors; and providing an effective date.

The Local Planning Agency (LPA) has reviewed the amendments and have found them to be consistent with the Pinellas County Comprehensive Plan and has recommended approval.

The ordinance updates will result in reduced costs associated with tree placements requirements and required landscaping. Will also reduce mitigation fees associated with the payment-in-lieu option to the Tree Bank Fund.

Fiscal Impact

General Fund: The proposed ordinance is projected to impact the General Fund, with a 10% increase in "Tree Only" permits generating approximately \$3,090 in additional revenue.

Tree Bank Fund: The ordinance's revised mitigation methodology is projected to reduce Tree Bank Fund contributions by about 60%, from an estimated \$300,000 to \$120,000. The current Tree Bank Fund balance is \$3.8M.

This is for the Second Public Hearing and no changes since the First Public Hearing.
