19. **PROCUREMENT POLICY FOR RECYCLED MATERIALS:**
Pinellas County wishes to encourage its proposer to use recycled products in fulfilling contractual obligations to the County and that such a policy will serve as a model for other public entities and private sector companies.

When awarding a purchase of five thousand dollars (\$5,000) or less, or recommending a purchase in excess of five thousand dollars (\$5,000) for products, materials, or services, the Director of Purchasing may allow a preference to a responsive proposer who certifies that their product or material contains the greatest percentage of postconsumer material. If they are submitting a proposal on paper products they must certify that their materials and/or products contain at least the content recommended by the EPA guidelines.

On all proposals over fifty thousand dollars (\$50,000), or as required by law, the Director of Purchasing shall require vendors to specify which products have recycled materials, what percentage or amount is postconsumer material, and to provide certification of the percentages of recycled materials used in the manufacture of goods and commodities procured by the County.

SECTION A – GENERAL CONDITIONS

Price preference is not the preferred practice the County wishes to employ in meeting the goals of this resolution. If a price preference is deemed to serve the best interest of the County and further supports the purchase of recycled materials, the Director of Purchasing will make a recommendation that a price preference be allowed up to an amount not to exceed 10% above the lowest complying proposal received.

DEFINITIONS:

Recovered Materials: Materials that have recycling potential, can be recycled, and have been diverted or removed from the solid waste stream for sale, use or reuse, by separation, collection, or processing.

Recycled Materials: Materials that contain recovered materials. This term may include internally generated scrap that is commonly used in industrial or manufacturing processes, waste or scrap purchased from another manufacturer and used in the same or a closely related product.

Postconsumer Materials: Materials which have been used by a business or a consumer and have served their intended end use, and have been separated or diverted from the solid waste stream for the purpose of recycling, such as; newspaper, aluminum, glass containers, plastic containers, office paper, corrugated boxes, pallets or other items which can be used in the remanufacturing process.

20. **ADDITIONAL REQUIREMENTS:**

The County reserves the right to request additional services from the Contractor if provided in the Services Agreement.

Additional or modified terms and conditions in the Services Agreement may be necessary depending on the responses to the RFP, including any exceptions stated by the Proposer as required by Section A, paragraph 1(c) of this RFP. However, the County objects to and shall not be bound by any additional or modified terms and conditions that are in conflict with the terms and conditions in the Services Agreement, or are not acceptable to, or have been declared to be non-negotiable by the County, as determined in its sole discretion.

22. **INTEGRITY OF REQUEST FOR PROPOSAL (RFP) DOCUMENTS:**

Instructions for Providing Files in PDF Format to Pinellas County Government

Why does Pinellas County Government want all the documents as PDF files?

Answer- It's much more efficient to go paperless, and PDF is a universal file format that fits perfectly into government workflow processes.

How do I convert my files to PDF format?

Answer- If you have a program such as Adobe Acrobat, creating a PDF of any file is a simple print function. Rather than printing to a traditional printer, the file converts to a PDF format copy of your original. Any program (such as Word, PowerPoint, Excel, etc.) can be converted this way by simply selecting the print command and choosing PDF as the printer.

SECTION B – SPECIAL CONDITIONS**Should I scan everything and save as PDF?**

Answer- Not unless you are scanning with OCR (optical character recognition). Scanning will create unnecessarily large files because a scan is just a picture of a page rather than actual page text. Furthermore, the result of scanning is that your pages will not look nearly as “clean” or professional as simply using the print to PDF method from the program from which the file originates. Additionally, since scan pages are pictures of text, not really text, they may not be considered accessible* under Federal ADA guidelines (*unless the scans are OCR.)

SECTION C – LIMITATION ON LIABILITY, INDEMNIFICATION, AND INSURANCE REQUIREMENTS

1. **LIMITATIONS ON LIABILITY.** By submitting a Proposal, the Proposer acknowledges and agrees that the services will be provided without any limitation on Proposer's liability. The County objects to and shall not be bound by any term or provision that purports to limit the Proposer's liability to any specified amount in the performance of the services. Proposer shall state any exceptions to this provision in its response, including specifying the proposed limits of liability in the stated exception to be included in the Services Agreement. Proposer is deemed to have accepted and agreed to provide the services without any limitation on Proposer's liability that Proposer does not take exception to in its response. Notwithstanding any exceptions by Proposer, the County reserves the right to declare its prohibition on any limitation on Proposer's liability as non-negotiable, to disqualify any Proposal that includes exceptions to this prohibition on any limitation on Proposer's liability, and to proceed with another responsive, responsible proposal, as determined by the County in its sole discretion.
2. **INDEMNIFICATION.** By submitting a Proposal, the Proposer acknowledges and agrees to be bound by and subject to the County's indemnification provisions as set out in the Services Agreement. The County objects to and shall not be bound by any term or provision that purports to modify or amend the Proposer's indemnification obligations in the Services Agreement, or requires the County to indemnify and/or hold the Proposer harmless in any way related to the services. Proposer shall state any exceptions to this provision in the response, including specifying the proposed revisions to the Services Agreement indemnification provisions, or the proposed indemnification from the County to the Proposer to be included in the Services Agreement. Proposer is deemed to have accepted and agreed to provide the services subject to the Services Agreement indemnification provisions that Proposer does not take exception to in its response. Notwithstanding any exceptions by Proposer, the County reserves the right to declare its indemnification requirements as non-negotiable, to disqualify any Proposal that includes exceptions to this paragraph, and to proceed with another responsive, responsible proposal, as determined by the County in its sole discretion.
3. **INSURANCE:**
 - a) Proposal submittals should include, the Proposers current Certificate(s) of Insurance in accordance with the insurance requirements listed below. If Proposer does not currently meet insurance requirements, proposer/bidder/quoter shall also include verification from their broker or agent that any required insurance not provided at that time of submittal will be in place within 10 days after award recommendation.
 - b) Within 10 days of **contract award** and prior to commencement of work, Proposer shall email certificate that is compliant with the insurance requirements to InsuranceCerts@Pinellascounty.org. If certificate received with proposal was a compliant certificate no further action may be necessary. It is imperative that proposer include the unique identifier, which will be supplied by the County's Purchasing Department. The Certificate(s) of Insurance shall be signed by authorized representatives of the insurance companies shown on the Certificate(s). **A copy of the endorsement(s) referenced in paragraph 3.(d) for Additional Insured shall be attached to the certificate(s) referenced in this paragraph.**
 - c) No work shall commence at any project site unless and until the required Certificate(s) of Insurance are received and approved by the County. Approval by the County of any Certificate(s) of Insurance does not constitute verification by the County that the insurance requirements have been satisfied or that the insurance policy shown on the Certificate(s) of Insurance is in compliance with the requirements of the Agreement. County reserves the right to require a certified copy of the entire insurance policy, including endorsement(s), at any time during the RFP and/or contract period.
 - d) All policies providing liability coverage(s), other than professional liability and workers compensation policies, obtained by the Proposer and any subcontractors to meet the requirements of the Agreement shall be endorsed to include Pinellas County Board of County Commissioners as an Additional Insured.
 - e) If any insurance provided pursuant to the Agreement expires prior to the completion of the Work, renewal Certificate(s) of Insurance and endorsement(s) shall be furnished by the Proposer to the County at least thirty (30) days prior to the expiration date.

SECTION C – LIMITATION ON LIABILITY, INDEMNIFICATION, AND INSURANCE REQUIREMENTS

- (1) Proposer shall also notify County within twenty-four (24) hours after receipt, of any notices of expiration, cancellation, nonrenewal or adverse material change in coverage received by said Proposer from its insurer. Notice shall be given by certified mail to: **Pinellas County Risk Management 400 South Fort Harrison Ave Clearwater FL 33756**; be sure to include your organization's unique identifier, which will be provided upon notice of award. Nothing contained herein shall absolve Proposer of this requirement to provide notice.
 - (2) Should the Proposer, at any time, not maintain the insurance coverages required herein, the County may terminate the Agreement, or at its sole discretion may purchase such coverages necessary for the protection of the County and charge the Proposer for such purchase or offset the cost against amounts due to proposer for services completed. The County shall be under no obligation to purchase such insurance, nor shall it be responsible for the coverages purchased or the insurance company or companies used. The decision of the County to purchase such insurance shall in no way be construed to be a waiver of any of its rights under the Agreement.
- f) The County reserves the right, but not the duty, to review and request a copy of the Contractor's most recent annual report or audited financial statement when a self-insured retention (SIR) or deductible exceeds \$50,000.
- g) If subcontracting is allowed under this RFP, the Prime Proposer shall obtain and maintain, at all times during its performance of the Agreement, insurance of the types and in the amounts set forth; and require any subcontractors to obtain and maintain, at all times during its performance of the Agreement, insurance limits as it may apply to the portion of the Work performed by the subcontractor; *but in no event will the insurance limits be less than \$500,000 for Workers' Compensation/Employers' Liability, and \$1,000,000 for General Liability and Auto Liability if required below.*
- (1) All subcontracts between Proposer and its subcontractors shall be in writing and may be subject to the County's prior written approval. Further, all subcontracts shall (1) require each subcontractor to be bound to Proposer to the same extent Proposer is bound to the County by the terms of the Contract Documents, as those terms may apply to the portion of the Work to be performed by the subcontractor; (2) provide for the assignment of the subcontracts from Proposer to the County at the election of Owner upon termination of the Contract; (3) provide that County will be an additional indemnified party of the subcontract; (4) provide that the County will be an additional insured on all insurance policies required to be provided by the subcontractor except workers compensation and professional liability; (5) provide waiver of subrogation in favor of the County and other insurance terms and/or conditions as outlined below; (6) assign all warranties directly to the County; and (7) identify the County as an intended third-party beneficiary of the subcontract. Proposer shall make available to each proposed subcontractor, prior to the execution of the subcontract, copies of the Contract Documents to which the subcontractor will be bound by this Section C and identify to the subcontractor any terms and conditions of the proposed subcontract which may be at variance with the Contract Documents.
- h) Each insurance policy and/or certificate shall include the following terms and/or conditions:
- (1) The Named Insured on the Certificate of Insurance and insurance policy must match the entity's name that responded to the solicitation and/or is signing the agreement with the County. If Proposer is a Joint Venture per Section A. titled Joint Venture of this RFP, Certificate of Insurance and Named Insured must show Joint Venture Legal Entity name and the Joint Venture must comply with the requirements of Section C with regard to limits, terms and conditions, including completed operations coverage.
 - (2) Companies issuing the insurance policy, or policies, shall have no recourse against County for payment of premiums or assessments for any deductibles which all are at the sole responsibility and risk of Contractor.
 - (3) The term "County" or "Pinellas County" shall include all Authorities, Boards, Bureaus, Commissions, Divisions, Departments and Constitutional offices of County and individual members, employees thereof in their official capacities, and/or while acting on behalf of Pinellas County.
 - (4) The policy clause "Other Insurance" shall not apply to any insurance coverage currently held by County or any such future coverage, or to County's Self-Insured Retentions of whatever nature.
 - (5) All policies shall be written on a primary, non-contributory basis.

SECTION C – LIMITATION ON LIABILITY, INDEMNIFICATION, AND INSURANCE REQUIREMENTS

- (6) Any Certificate(s) of Insurance evidencing coverage provided by a leasing company for either workers compensation or commercial general liability shall have a list of covered employees certified by the leasing company attached to the Certificate(s) of Insurance. The County shall have the right, but not the obligation to determine that the Proposer is only using employees named on such list to perform work for the County. Should employees not named be utilized by Proposer, the County, at its option may stop work without penalty to the County until proof of coverage or removal of the employee by the contractor occurs, or alternatively find the Proposer to be in default and take such other protective measures as necessary.
- (7) Insurance policies, other than Professional Liability, shall include waivers of subrogation in favor of Pinellas County from both the Proposer and subcontractor(s).
- i) The minimum insurance requirements and limits for this Agreement, which shall remain in effect throughout its duration and for two (2) years beyond final acceptance for projects with a Completed Operations exposure, are as follows:

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. The IRS has created a page on IRS.gov for information about Form W-9, at www.irs.gov/w9. Information about any future developments affecting Form W-9 (such as legislation enacted after we release it) will be posted on that page.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, payments made to you in settlement of payment card and third party network transactions, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the

withholding tax on foreign partners' share of effectively connected income, and

4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct.

Note. If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

The County Administrator or his or her designee shall be the final arbiter in resolving the issue before it becomes a legal matter. The County Administrator or his or her designee will issue their decision in writing.
- E. Pinellas County Dispute Resolution Procedures shall not be subject to Chapter 120 of the Florida Statutes. **Projects to Consider for Appropriations
FY18 Legislative Session**

Department	Amount	Summary of Proposal
Public Works	\$300,000	<p>Pilot Project to install Solar-Powered Traffic Signals: This request is for funding to utilize the latest battery, solar and traffic signal equipment to develop a new power outage resilient traffic signal installation. The intent would be to reduce the power dependency from the power grid while significantly extending the operation life of a traffic signal in power outage situations.</p> <p>During Hurricane Irma over half of the traffic signals in Pinellas County were without power for as many as 5 days after the storm passed through. This funding would be used to cooperatively work with Florida Department of Transportation (FDOT), Federal Highway Administration (FHWA) and Department of Energy (DOE), as well as private partner technology companies to investigate the develop a traffic signal that could continuously operate during long duration power outages for much extended times than current Uninterruptable Power Supplies (UPS) can provide.</p> <p>New battery technology, solar power and traffic signal equipment have made dramatic improvements in energy output and reduced power consumption. Combining these technologies in the safest and most efficient arrangement could provide far longer operational times without power and also reduce daily power consumption of the standard traffic signal. We are requesting \$300,000 to purchase and install up to 5 traffic signals with the newest technology as a test bed for this important project.</p>
Public Works	\$3,000,000	<p>Lake Seminole Dredging Project: This project will consist of dredging the problematic, organic sediments that contribute to water quality violations, dewatering the material, disposal of the dredged material, and site restoration. The project is shovel ready (designed, permitted, bid, and contracted). This project has been approved by the Pinellas County Board of County Commissioners, the Southwest Florida Water Management District, the Florida Department of Environmental Protection (Reasonable Assurance Plan), the City of Seminole, and garners strong support from the community at large. We have held public meetings. Project is adopted in the County's Capital Improvement Program and an executed cooperative agreement with SWFWMD. We have supporting correspondence from the City of Seminole.</p>
Public Works	\$250,000	<p>Bee Branch Channel Erosion Control: The purpose of the project is to address severe erosion occurring in a segment of Bee Branch, a natural waterway in north Pinellas County. The erosion is contributing to the discharge of sediments downstream to lower portions of the creek, reducing flow capacity and increasing flood risk, and ultimately to the Sutherland Bayou estuary where it impacts mangroves and water quality. The erosion is also causing trees to fall into the creek, impeding conveyance and threatening adjacent properties and residential structures due to loss of soil. Pinellas has established an Erosion Control Capital Improvement Program to address such issues.</p>
Public Works	\$200,000	<p>Flood Protection Forecast Model: The purpose of this project is to develop a predictive hydrologic model and GIS interface that will harness existing watershed data and models and hydrologic forecasts to predict and map flood extents and depth in a near real time window. Pinellas County has invested significant financial resources in developing models of its watersheds that show flood levels and spacial extent over land uses. This information is critical in identifying flood zones, approving floor elevations for new development and support of the Community Rating System under FEMA. There's a need to leverage the models and add a GIS interface that allows for input and display of impending weather events to predict and guide response to rainfall/flood events as they develop. The results will be used to mobilize resources, alert the public, operate facilities and thereby eliminate damages and provide greater safety to our citizens. This is part of our Stormwater/Flood Protection programs.</p>
Utilities	\$2,400,000	<p>Wastewater/Stormwater Inflow and Infiltration Study: The purpose of the Pinellas County Inflow and Infiltration Study is to identify specific areas of the County sanitary sewer system that are high contributors to rain derived inflow and infiltration. This is achieved through monitoring the flows in the sewers before, during, and after rain events with flow meters. Specifically identifying the areas of high inflow and infiltration will help target where Capital Improvement dollars should be spent to reduce sewer overflows during heavy rain events</p>

**Projects to Consider for Appropriations
FY18 Legislative Session**

Department	Amount	Summary of Proposal
Utilities	\$885,000	<p>Emergency Back-Up Power for Sanitary Sewer Pumping Stations to Prevent Sewer Overflows: The Pinellas County Utilities Department is actively investigating and pursuing new stationary generators to be installed at additional critical pump stations for both North and South County service areas (12 locations). Currently the Pinellas County sewer system has a total of 300 pump stations in the north and South County combined. Only 30 of those stations are equipped with stationary generators. Installation of additional generators at the sites below will provide continuity of sewer service for customers as well as protect the public health and environment through reducing the amount of spilled sewage during power outages as a result of emergency storm events and hurricanes.</p>
Utilities	\$450,000	<p>Force Main Sampling Equipment to Improve Sanitary Sewage Collection Process: The South Cross Bayou Water Reclamation Facility (SCBWRF) treats sanitary sewage collected from (4) different and independent collection system basins located in southern Pinellas County. There have been occurrences of monitored parameters exceeding the allowable limits in the influent ('hits'). Most recently these have included lead and copper, and other unknown compounds that have caused upsets in the treatment process. Although the County's IPP group is notified there is no effective mechanism in-place that can quickly help identify the source(s) of these 'hits'. This equipment will help track those sources and potentially prevent them from causing a negative effect on the quality of the treatment process, reclaimed water and surface water discharge.</p>
Utilities	\$250,000	<p>Drinking Water Facility Security Equipment: Project includes installing additional pan and zoom cameras at drinking water facilities to cover blank areas. Install video cameras and recorders at locations from several angles of view. Provide gate control from the Keller SCADA room to open and close and view facility gates remotely. Install new perimeter fencing at all locations including gates and gate controllers. The drinking water treatment plant and the water boosting facilities are located from east of Tarpon Springs, south to Ft. Desoto. There are several gaps in the surveillance systems of these facilities. These gaps leave areas unviewed or unprotected.</p> <p>CUSTOMER BENEFITS</p> <ul style="list-style-type: none"> • Protect from terrorism, vandalism, mischief, accidental entry • Protect the integrity of the buildings, pumping equipment, and chemical processes
