I am for term limits for county commissioners. I think this will force diversity as far as opinions and spark new ideas to get things done in this county that are severely lacking. There is a sense from long time commissioners on this board that you rule over your constituents instead of working for us as evidenced by the Covid protocols that you put in place that hurt so many local small businesses and who are still facing the consequences of your actions. It has been proven now that those measures were in fact harmful and did not work. With that said, an audit of the 2020 election should be conducted immediately as there have been so many irregularities and discrepancies discovered through canvassing efforts in our county. I also encourage you to look into the work of Seth Keshel who has gone state by state and in most states, county by county, looking at voter registration trends compared to actual votes in the election. He has discovered many irregularities especially in the Tampa Bay area. I encourage you to look into his work:
