Description & Comments

(What is it, any issues found, is there a financial impact to current/next FY, does this contract vary from previous FY, etc.)

This is for approval for the award of bid to EOLA Power, LLC for Traffic Uninterrupted Power Supply, batteries, traffic, and solar flashers. The contract is effective for a 12-month period for \$253,945.60 and provides for the purchase of UPS batteries used for backup power at signalized traffic intersections and solar flasher locations during outages and prevents power disruptions for continuous control of traffic flow. These batteries and traffic solar flashers will be used for all County signal locations, including locations within municipal boundaries where the County maintains the signals.

The \$253,945.60 is consistent and is included in the FY24 Adopted budget and FY25 Request within the County Transportation Trust Fund's Traffic Signal Program.
