That process is a synergistic approach within our community- a process of not looking out but looking within our great community. Sergio believes in the ethos of what we are becoming rather than what we are simply doing. This method of leadership and entrepreneurial approach continues to serve Sergio well as he has used his services of Architecture to help build bridges with clients such as Freedom Bank, Modern Tampa Bay Homes, Centennial Bank, Atlas-Novell and Station House Co-Work achieve their entrepreneurial goals. Sergio does this not alone but by bringing others in his community in where they best can serve and grow themselves. Serving on the Pinellas Economic Development Council will certainly help continue Sergio's spirited effort in the economic development of Pinellas County and the community at large.
