The Sustainability and Resiliency Program, in County Administration, is recommending the approval of the grant application to the Florida Department of Economic Opportunity. This grant application will provide funding for the development countywide flood mitigation action plan.

Public Works is seeking the grant funding in the amount between \$800,000 - \$900,000 to be expended over a multi-year period, as the total awarded amount will added to the Public Works budget in the coming fiscal years. The Sustainability and Resiliency Program Coordinator, Hank Hodde, will serve as the project manager for the grant. There is no match requirement, but existing project funding may be identified in the application to indicate leveraged funds. The grant is on a reimbursement basis.

Authority for the Director of Public Works to sign this grant application is granted under the County Administrator's delegation of authority dated March 28, 2016.
