### **Raising and leveling Swail and Low Areas**

- Client will mark and cap heads in the areas
- Sod cut and remove old turf off-site
- Reverse till soil to break up compaction layer improving drainage percolation in soil
- Supply and Install sand to raise the swail and low areas
- Mix sand with existing soil using a reverse tine tiller to create an even soil profile
- Laser-grade areas using a dual receiver laser guided system to correct slopes for improved surface drainage
- Supply and install certified celebration Bermuda grass rolls
- Roll new sod with a 3 ton double drum roller
- Cleanup to pre renovation

**TOTAL \$ 19,500.00**
