The Honorable Karen Williams Seel
Chair
Pinellas County Board of County Commissioners
315 Court Street
Clearwater, FL 33756

Dear Chair Seel,

On behalf of the City of Largo, I am writing to urge the Pinellas County Board of County Commissioners to adopt the proposed Yellow Dot Program in Pinellas County. The program, which gives first responders vital health information about automobile crash victims, has likely already saved lives in several other states across the country as well as counties in Florida. Any program that improves accident survival rates for automobile drivers and passengers is especially important in densely populated county like Pinellas County. We, the Largo City Commission, are fully supportive of the adoption and implementation of the Yellow Dot Program.

Should you have any questions regarding the City's support or interest in the program, please do not hesitate to reach out.

Sincerely,

Woody Brown
Mayor
CITY OF LARGO
