

Current "Inventory" - Sunshine Puppies, Largo, Saturday, 28 October 2023

OBSERVATIONS:

 Aja Nikiya · 2d · 

Went by Sunshine Puppies today to gather some videos and photos. There are a few pups that need medical attention. Some eating their own feces. They have a small bed to lay on but otherwise their little feet are on metal bars all day. I'll be making a video but here are some photos you are welcome to share. I'm absolutely heartbroken after walking around that store, I haven't gone inside in a few years. We've got to keep fighting.
