Description & Comments

(What is it, any issues found, is there a financial impact to current/next FY, does this contract vary from previous FY, etc.)

Amendment to Florida Department of Environmental Protection (FDEP) Standard Grant Agreement 23PI1 for the Long Key-Upham 9th Nourishment, 004487A. This amendment extends the agreement expiration from 12/31/25 to 12/31/26. Additionally, this amendment changes the Grant Work Plan and Budget Detail.

While the total grant award of \$1,325,000.00, the eligible project tasks have changed from USACE Multiphase and Monitoring to Construction and Monitoring. This change was necessary to allow the County to obtain reimbursement for Long Key/Upham beach nourishment. The original agreement identified USACE Multiphase (design and construction services led by United States Army Corps of Engineers (USACE)), however, USACE is no longer leading design and construction efforts or contributing to the cost sharing for this project. The 50/50 cost share between State and County remains the same for eligible costs.

Long Key-Upham 9th Nourishment project, 004487A, is budgeted in the Proposed FY26-FY31 Capital Improvement Plan and funded by Tourist Development Tax (TDT) and State grant funding with FDEP.
