Topic Allowing Florists to Re-Open
BCC Agenda Date 4-16-2020
Your Stand on the Issue Undecided

Comments
Mother's Day is 1 of 2 holidays that make or break Florists for their entire year. They can operate just as restaurants with no contact delivery and curb side pick up. The months during off season are often break even months for people in this business even without a pandemic. Please allow florists to re-open that last week in April to amp up and ready themselves for Mother's Day, and conduct business according to CDC guidelines. This is a holiday that we need to order fresh stems and materials for in advance, and we can not wait to see if stay at home orders for non essentials will be extended before ordering products. Yet, we as florists do not want to order supplies and materials if the order is extended and then we are out several thousands of dollars for products we can not sell. While it may not be essential, Flowers for Mother's Day and/or birthday/anniversaries can do a lot to lift others up during otherwise very downtrodden times.

Topic Business closure

BCC Agenda Date 4-16-2020

Your Stand on the Issue

Comments I am the owner for a business called Game On Movies & Games. We are located at 7500 Ulmerton Rd #14. We have been closed under the guidelines for non-essential businesses. However, I have a second hand dealers license for the purpose of buying used movies, games and electronics from individuals. Much like a pawn store. Those stores are still open and operating. I feel my business should fall under the same guideline as the Pawn dealers since I am licensed as a dealer by the state of Florida. Please advise

Topic Food Establishments being Essential

BCC Agenda Date 4-16-2020

Your Stand on the Issue

Comments Your CBD Oldsmar operating at 4022 Tampa Rd. Suite 8, Oldsmar 34677 is a permitted Food Establishment with Issued Food Entity Number 390510. According to guidance from Governor Ron DeSantis' Executive Order and Guidance on the Florida Department of Agriculture and Consumer Services Website, Food is essential and we have customers that rely on our hemp products for nutrition. SB 921 which just passed the Florida Legislature clarifies that hemp extract is food. Despite the fact that the our products are classified as food by law, the Pinellas County Police came to shut our business down erroneously.

Subject: Health Food Stores

Please help reopen Health Food and Nutrition stores our health is of utmost importance right now, not a few weeks from now. It is unfathomable to me why these stores are designated as Non-Essential. Health is critical, especially at this time. I believe this must be a mistake, or the decision was made by someone who does not use Health or Nutrition stores and doesn't understand the role they play nor their importance. This should not be a controversial or questionable issue, Garden Centers of the big home improvement stores might be debatable, but taking care of one's health is not. By shutting down these stores, you are denying the people who work at being healthy to stay that way. You also deny one more local small business to survive. Please retake a look at this and get our health stores back up and running. Most are small and could limit the number of customers if that is a consideration.

Thank you for your consideration,

Sandy
