

2024-2025 Annual Action Plan

Pinellas County Consortium
July 30, 2024

Executive Summary

AP-05 Executive Summary - 91.200(c), 91.220(b)

1. Introduction

The 2020-2024 Consolidated Plan (5-Year Plan) is a five-year planning document required by HUD that identifies the County's housing and community development priority needs and establishes corresponding goals to address those needs. The Annual Action Plan identifies the specific actions, activities, and federal and non-federal resources that will be used to address the housing and community development goals and priority needs identified in the 5-Year Plan.

Annually, Pinellas County receives federal grant allocations from the U.S. Department of Housing and Urban Development (HUD) for three federal Community Planning and Development entitlement grants:

- Community Development Block Grant (CDBG)
- HOME Investment Partnerships Program (HOME)
- Emergency Solutions Grant Program (ESG)

The 2024-2025 Annual Action Plan (Action Plan) is Pinellas County's application to HUD for CDBG, HOME and ESG funding for Program Year 2024-2025, the fifth and final year of the 2020-2024 5-Year Plan, covering the period October 1, 2024, to September 30, 2025 (PY 24-25). The PY 24-25 Action Plan identifies the specific activities the County will undertake during the program year using these federally funded grants and non-federal resources. Additional non-federal recourses include state and local funding that will be used to support, match, or leverage the federal grants targeting the preservation and production of affordable housing. These include Florida's State Housing Initiatives Partnership (SHIP) Program funding and Pinellas County's Housing Trust Fund (HTF) Program funding.

In Pinellas County there are five entitlement jurisdictions that receive annual allocations of some or all of the above federal grants. For CDBG, Pinellas County's funding is used throughout the unincorporated areas of the County and within the incorporated municipal boundaries of members of the urban county. County CDBG funds are not used within the municipal boundaries of the cities of Clearwater, Largo, Pinellas Park, and St. Petersburg, which receive CDBG funding for the benefit of their residents. For ESG, the County's funding is used countywide, except within the municipal boundaries of the City of St. Peterburg, which receives ESG funding for the benefit of St. Petersburg residents. For HOME, the County's funding is used countywide, except within the municipal boundaries of the cities of Clearwater and St. Petersburg, which each receive HOME funding for the benefit of city residents.

Pinellas County is the lead entity for the Pinellas County Consortium for HOME funding, of which the City of Largo is a participating jurisdiction. As the lead entity, Pinellas County assumes overall responsibility for HOME compliance and requirements.

2. Summarize the objectives and outcomes identified in the Plan

HUD's Outcome Performance Measurement System identifies three possible objectives and outcomes for each activity carried out with CDBG funding. The three objectives that capture the range of community impact that occur as a result of CDBG funded activities are: (1) creating suitable living environments, (2) providing decent housing, and (3) creating economic opportunities. The three outcomes that capture the expected result or type of change expected to be achieved are: (1) availability/accessibility, (2) affordability, and (3) sustainability.

The 5-Year Plan identifies 13 goals, with outcomes, that guide funding decisions over the course of the five-year term to address identified needs. The goals to be addressed in the PY 24-25 Action Plan are:

- Public Facility Improvements – Assist 773 persons by funding the acquisition, design/engineering and/or construction/rehabilitation of facilities that benefit low- and moderate-income, homeless, and/or special needs populations. Objective: Creating suitable living environments; Outcome: Availability/Accessibility.
- Public Services – Assist 13,715 persons by funding operating expenses of public services that benefit low- and moderate-income, homeless, and/or special needs populations. Objective: Creating suitable living environments; Outcome: Availability/Accessibility.
- Elimination of Slum and Blight – Eliminate or prevent slum and blight by funding demolition and clearance of 2 deteriorated housing units in blighted areas or on a spot basis. Objective: Creating suitable living environments; Outcome: Sustainability.
- Code Enforcement – Assist 8,901 housing units by funding salaries and overhead costs directly related to the enforcement of local codes in deteriorating or deteriorated Target Areas. Objective: Creating suitable living environments; Outcome: Sustainability.
- Neighborhood Improvements – Assist 13,970 persons by funding public facility improvements, physical improvements, and comprehensive neighborhood planning activities benefitting low- and moderate-income residents of Target Areas. Objective: Creating suitable living environments; Outcome: Availability/Accessibility and Sustainability.
- Preservation of Housing – Assist 50 households by funding the acquisition and/or rehabilitation/preservation of housing affordable to low- and moderate-income residents. Objective: Providing decent housing; Outcome: Affordability.
- Production of Housing – Assist 31 households by funding the acquisition, development, and/or construction of new housing units affordable to low- and moderate-income residents. Objective: Providing decent housing; Outcome: Affordability.
- Homeownership Opportunities – Assist 25 households by funding direct assistance to prospective low- and moderate-income homebuyers for down payment and closing cost assistance, and assist 350 households by funding credit counseling, and/or homeownership education/training. Objective: Providing decent housing; Outcome: Affordability.
- Rental Assistance – Assist 15 households with ESG funding by providing rental assistance and security/utility deposits for income eligible individuals/households at-risk of or already experiencing homelessness.
- Emergency/Disaster Response – Provide assistance prior to, during and after a community emergency and/or disaster event to prepare for and/or mitigate loss, protect during an event, and aid with recovery.
- Administration – General planning and administration costs associated with administering Federal CDBG, HOME, and ESG funds; State SHIP funds; and other local funding sources, including but not limited to HTF.

A summary of the goals and objectives are shown in Table AP-20 – Annual Goals and Objectives.

The County has established strategies to address each goal and specific target outcomes to measure progress over the five years. These strategies address how the County will tackle issues related to affordable housing, public housing, homelessness, housing rehabilitation/lead-based paint mitigation, anti-poverty, and program monitoring.

Additionally, the County has identified seven (7) geographic areas for implementation. These areas include two general areas, Pinellas County overall (countywide) and the Urban County, and five (5) specific target areas: Tarpon Springs, High Point, Greater Ridgecrest, Central Lealman, and East Lealman. These target areas have been identified by Pinellas County as at-risk communities, having higher concentrations of low-and moderate-income populations, poverty-level households, and minority racial and ethnic groups than other areas of Pinellas County. These areas also have more risk factors for Fair Housing issues.

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

Over the past four years, Pinellas County has continued to work towards meeting the goals and addressing needs identified in the 5-Year Plan. At the end of PY 22-23, the third complete year of the 5-Year Plan, the County accomplished the following outcomes:

| Goal Name | 5-Year Goal | Outcomes (2 Years) | Beneficiary Type Assisted | Goal/Outcome Indicator |
|--------------------------------|-------------|--------------------|---------------------------|---|
| Code Enforcement | 20,000 | 24,810 | Household Housing Unit | Housing Code Enforcement/Foreclosed Property Care |

| Public Services | 0 | 56 | Persons | Homeless Persons-Overnight Shelter |
| Rental Assistance | 75 | 97 | Persons | Homelessness Prevention |

In the previous 5-Year Plan, the County re-evaluated and reduced the expected goals for the five-year cycle due to the continued reduction in resources for affordable housing. The County will re-evaluate goals during preparation of the upcoming 5-Year Plan beginning in late summer of 2024, and adjust expected goals as needed. Affordable housing continues to be one of the high priority goals identified in the 5-Year Plan and will continue to be addressed in the Annual Action Plans and Pinellas County will continue to utilize CDBG, HOME and ESG funds, as well as SHIP and HTF funds, to meet the needs identified. The County continues working towards the identified five-year goals set for each objective. Based on current year projects, the County is on track to meet the identified goals.

4. Summary of Citizen Participation Process and consultation process

Summary from citizen participation section of plan.

As part of the planning process, the County conducted two public meetings to assess the needs and priorities of the community. Prior to preparation of the Action Plan, Pinellas County conducted the first required public hearing on January 10, 2024, to solicit input on the priorities and needs in the County. Participants were asked to provide input on community needs and how funds should be allocated to programs and projects related to housing, homelessness, special needs, and community development. The public hearing also served as an opportunity for the County to provide an overview of existing programs and to summarize the County's accomplishments in meeting identified goals over the past year. The County conducted the required second public hearing on July 30, 2024, to allow residents and stakeholders the opportunity to ask questions and to provide an additional opportunity for residents and stakeholders to comment on the Action Plan.

The citizen participation process also includes consultation with housing providers, housing authorities, health and social services providers, and the Continuum of Care (CoC) for the County's homeless population. The Consortium consulted these entities throughout the preceding year concerning ongoing topics of mutual interest and during the preparation of the 5-Year Plan. Consultation occurred via email invitation and correspondence, online surveys, public meetings, public hearings, focus group consultation and webinars. In some cases, specific reports and plans of the agencies were referenced or utilized in the preparation of the Action Plan.

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen participation section of the Con Plan.

The County provided residents and stakeholders the following three opportunities to ask questions and provide input and comments during the development of the Action Plan:

- 1st Public Hearing - the Needs Assessment and Past Performance Review public hearing was held on January 10, 2024. A summary of the performance and needs public hearing and comments received are included in Attachment A - Citizen Participation.
- 30-Day Comment Period - the draft Action Plan was made available for review and public comment from March 31, 2024, through April 30, 2024. There were no comments received during the comment period.
- 2nd Public Hearing - the second public hearing was held on July 30, 2024. (An update on comments received will included after the public hearing before the final Action Plan is submitted to HUD.)

All comments received were considered in development of the Action Plan.

6. Summary of comments or views not accepted and the reasons for not accepting them

There were no comments received that were not considered in the development of the Action Plan.

7. Summary

Through the establishment of specific goals, outcomes, and target areas, the Pinellas County Consortium strives to address the priority needs of low- and moderate-income persons in a coordinated and strategic manner. Pinellas County's anticipated federal funding allocations from CDBG, HOME, and ESG will help to address many of the County's goals related to housing, homeless, and special needs, and community development; however, due to the significant lack of affordable housing in particular, the County must also supplement these funds with other State and local sources, such as SHIP, Penny IV, and HTF to fill funding gaps, which continue to widen. To

address needs related homeless, special needs and community development, the County is fortunate to have a network of public and private partners and local governments/municipal departments to support these goals through financial leveraging, coordination, and collaboration.

AP-10 Consultation - 91.100, 91.200(b), 91.215(l)

1. Introduction

Partnering with other local, public, and private entities is vital to addressing the identified priority needs related to affordable housing, homeless, special needs, and community development. Pinellas County's Citizen Participation Plan incorporates the goals, policies, and implementation strategies that the County will undertake to encourage and ensure adequate citizen participation in the development of the 5-Year Plan, the Annual Action Plan, any substantial amendments to the Plans, and the Consolidated Annual Performance and Evaluation Report (CAPER).

Citizen participation provides a means of involving the citizens of Pinellas County in an advisory capacity in all phases of HUD programs. Citizen participation in such efforts is essential if the activities to be undertaken are to be truly successful and responsive to the needs and concerns of the community. The Citizen Participation Plan provides for and encourages residents to explain their needs and voice their concerns. Emphasis is placed on persons of low- and moderate-income who are residents of low- and moderate-income areas in which funds are proposed to be used. However, at the same time, residents are reminded that their input is advisory and that final authority for decision-making rests with the Board of County Commissioners, who is responsible to both the citizens of Pinellas County and the Federal government.

The most recent update to the Citizens Participation Plan was approved by the Board of County Commissioners on May 19, 2020 (Resolution No. 20-45). The Citizen Participation Plan requires that public hearings be held to obtain citizen comments, that a period of not less than 30 days is allowed for citizen (public) comment, and that timely responses to citizen inquiries are provided.

Notices of public meetings, public hearings, and availability for viewing of the draft Annual Action Plan and proposed use of funds were advertised in four local newspapers [*Tampa Bay Times* (general circulation), *LaGaceta* (Spanish), *The Weekly Challenger* (African American communities), and *Tre Florida* (Vietnamese)], on the Community Development Division website at www.pinellas.gov/departament/community-development, and on the Pinellas County online Government Calendar website at www.pinellas.gov/events.

Two public hearings were conducted to determine the needs and priorities of the community. The public meetings provided an opportunity for citizens and interested parties to become knowledgeable about Pinellas County housing and community development programs and eligibility requirements. Participants were asked to provide input on how funds should be allocated to programs and projects related to housing, homelessness, special needs, and community development.

Provide a concise summary of the jurisdiction’s activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l)).

The public participation process included consultation with housing providers, housing authorities, health and social services providers, and the Continuum of Care (CoC) for the County’s homeless population. The Consortium consults entities throughout the preceding year concerning ongoing topics of mutual interest and during the preparation of the Action Plan. Consultation occurred via email, correspondence, and public meetings and hearings. In some cases, specific reports and/or plans of agencies were referenced or utilized in preparation of the Plan.

To broaden public participation, public notices were advertised in four newspapers [*Tampa Bay Times* (general); *LaGaceta* (Spanish); *The Weekly Challenger* (African American); *Tre Florida* (Vietnamese)], placed on the County's online Calendar, and on the County's Community Development webpage. Advisory emails/invitations were sent to all participating jurisdictions, public service providers (housing/homeless/health/social services), and other interested parties to advertise public meetings/hearings, and request comments on the Plan. Subrecipients were invited to attend public meetings in order to gather information on client needs. Attendees had opportunity to identify priority needs for housing, homeless, special needs, and community development.

Three public housing authorities are part of the Consortium - Pinellas County, Tarpon Springs, and Dunedin Housing Authorities. Pinellas County regularly consults with housing authorities and other non-profit/for-profit housing providers operating within County.

Pinellas County is a member of the Tampa Bay Healthcare Collaborative, which is comprised of government entities, nonprofit organizations, business and labor organizations, educational institutions, and healthcare professionals committed to working together to improve healthcare delivery systems for uninsured and underinsured County residents. The County participates in quarterly meetings/facilitates attendance of nonprofits and partners.

Similarly, the Health in All Policies (HiAP) Pinellas County Collaborative, which includes the governments of Pinellas County, the cities of Pinellas Park and St. Petersburg, the Florida Department of Health in Pinellas County, Forward Pinellas, and the Foundation for a Healthy St. Petersburg, also seeks to ensure that all residents in the County have equal opportunity to live a healthy life by considering the potential effect of local government policies/programs on vulnerable populations.

The County Human Services Department helps County residents obtain access to medical care and emergency financial assistance, connect to county judicial resources, optimize benefits for veterans and dependents, investigate consumer complaints, and helps those who are experiencing homelessness. Human Services actively networks with over 105 partner agencies, manages contract and grants, and is a key organization in County’s institutional delivery structure. Human Services publishes resource guides and oversees the Health Care for the Homeless (HCH) Co- Applicant Board, comprised of consumer/patient representatives, on behalf of the Board of County Commissioners (BCC).

At the direction of the Health and Human Services Coordinating Council, a Behavioral Health Summit was held during the last 5-years. Resulting initiatives included the Pinellas County Empowerment Team approved and funded by the BCC in May 2016, focusing on targeted services for high-need clients. In July 2018, the Pinellas Integrated Care Alliance was created to provide intensive case management. The County has pursued a range of grant opportunities for behavioral health services for homeless clients newly housed, Assisted Outpatient Services (AOT), expanded drug court and medication-assisted treatment, and other efforts to help mitigate

opioid impacts in the community. Local partners continue to review behavioral health efforts in conjunction with these initiatives.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

Pinellas County is a member of the Pinellas County Homeless Leadership Alliance, which serves as the lead agency for the Continuum of Care (CoC). The County's Human Services Department is the primary interface between Pinellas County and the Homeless Leadership Alliance. Staff of the Homeless Leadership Alliance, the County's Human Services Department, and the County's Community Development Division meet every other month to discuss the needs of the homeless population. Additionally, a representative of the Homeless Leadership Alliance is involved in the County's annual Notice of Funding Availability (NOFA) application cycle and participates in the review, ranking, and selection of projects funded by the County's CDBG program.

Consortium members and non-profit agencies also work closely with the Pinellas County Homeless Leadership Alliance, attend general meetings of the Board, and provide staff support for the Point-in-Time count. Every January, the Continuum of Care (CoC) conducts annual Point-in-Time surveys to determine the needs of homeless persons, particularly chronically homeless individuals and families, families with children, veterans, unaccompanied youth, and persons at risk of homelessness.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

Consortium member agencies have consulted with the CoC on a regular basis to determine how to allocate ESG funds in accordance with the CoC and the 5-Year Plan and review of applications for funding requests. The 10-Year Plan to End Homelessness in Pinellas County provides a strategic, countywide system to prevent and end homelessness in Pinellas County. Pinellas County consults regularly with the CoC on homeless matters including allocation of funds and development of performance standards, outcomes, and HMIS. County staff serve on various committees of the CoC, including the Executive Committee and Funders Council. County staff hold monthly coordination meetings with the Homeless Leadership Alliance.

ESG funds are awarded to agencies that provide case management, homeless prevention, street outreach, and emergency shelter and services to homeless persons.

The CoC is responsible for the administration and operation of the Homeless Management Information System (HMIS). Policies and procedures in place are consistently reviewed for necessary updates. ESG agencies awarded funds are required to enter client data into HMIS in accordance with HUD guidelines. Pinellas Homeless Management Information System (PHMIS) is the official HMIS system of record for Pinellas County. PHMIS is a locally administered, electronic case management system that stores longitudinal client-level data about the men, women, and children who have accessed homeless and other basic needs social service programs in Pinellas County. PHMIS is funded by Pinellas County through the Human Services Department, HUD, the Pinellas County Homeless Leadership Alliance, and the Juvenile Welfare Board and is administered/operated by the Homeless Leadership Alliance. The system is responsible for annual system-level accountability reports showing the progress to end homelessness such as the Annual Homeless Assessment Report (a report on the use of homeless housing), the Point-in-Time Count Report (a report on the one-day count of clients living in shelters

and on the street) and the Housing Inventory Chart (a report on the availability of homeless dedicated housing beds and units).

Consortium member agencies are part of the development and implementation of the Pinellas Coordinated Assessment process; ESG subcontractors will use the process for selecting families to enroll in their programs.

All ESG participant data is entered in PHMIS and the reports are used to track/report on ESG performance. Member agency staffs are part of the System Quality Improvement Committee working to set performance outcome goals and overseeing measurement and reports. The County can build upon the success of PHMIS to develop performance metrics and advanced reports that monitors and evaluates client-level and provider-level utilization and outcome.

The City of Tampa administers HOPWA funding for local jurisdictions. Both Pinellas County and the City of Tampa coordinates with the local CoC. As part of the citizen participation process, the County strives to receive input and participation from all interested agencies, groups, and organizations, including low-income persons and persons residing in local neighbor revitalization areas, local target areas and slum/blighted areas. The Pinellas County Health Department, public housing authorities, state government agencies, business and civic leaders are included in citizen participation outreach but have historically chosen not to participate or provide input into development of the Plan.

Narrative

The County partnered with the City of Largo for a joint public meeting with agencies serving the community. Residents were invited as well. Pinellas County, City of St. Petersburg, City of Clearwater, City of

Pinellas Park, JWB, HLA and various other agencies have been participating in monthly meetings to identify community needs and update on available financial resources to serve the community.

Representatives from each of the 18 municipalities located within the County who also cooperate with the County in the CDBG program, were invited to participate and to provide input on the needs within each of their communities.

The cities of Clearwater, Largo, Pinellas Park, and St. Petersburg are entitlement jurisdictions located within Pinellas County. When funding requests are made to the County for projects physically located within the geographic limits of these entitlement jurisdictions, the County coordinates closely with the respective jurisdiction to jointly fund projects that serve both City and County residents.

Effective implementation of the 5-Year Plan involves a variety of agencies both in the community and in the County. Pinellas County reviews and approves plans of the local housing authorities for consistency with the County's 5-Year Plan. Coordination and collaboration between agencies are important to ensuring that the needs in the community are addressed. The Pinellas County Consortium maintains an ongoing relationship with local housing authorities, affordable housing providers, and agencies providing services to low- and moderate-income populations and the homeless. Not all agencies were able to attend the public hearings but consult and discuss needs with County staff throughout the year as needed.

Consultation with Federal Communications Commission/National Telecommunication and Information Administration (NTIA)/Broadband USA for continued monitoring of broadband needs in the County, ensuring internet access, including sufficient competition between broadband service providers, for residents which is critical in supporting economic opportunity among low- and moderate-income households. Nearly the entire county is served by three or more fixed residential broadband providers at speeds slightly higher than the statewide percentage.

The County is committed to continuing its participation and coordination with federal, state, municipal and local agencies, as well as with the private and non-profit sectors, to serve the needs of low- and moderate- income and special needs individuals and families in the community. In particular, the County will continue to work in close coordination with County departments regarding infrastructure improvements and the provision of public facilities and services.

1. Summary of citizen participation process/Efforts made to broaden citizen participation. Summarize citizen participation process and how it impacted goal setting

The Consortium made every effort to broaden citizen participation. Public notices were advertised in four local newspapers [*Tampa Bay Times* (general circulation), *LaGaceta* (Spanish), *The Weekly Challenger* (African American communities), and *Tre Florida* (Vietnamese)], placed on Pinellas County's online Government Calendar, and on the County's Community Development Division webpage. In addition, advisory emails were sent to all participating jurisdictions; public service providers (e.g., housing, homeless, health, and social services); and other interested parties to advertise public meetings and public hearings, and to request comments on the Action Plan.

Public participation efforts were designed to identify strengths and needs, increase the community's knowledge, establish partnerships, and align resources, and allow for community buy-in and support of the Plan.

Pinellas County's 2020-2024 5-Year Plan is the result of an ongoing process of consultation and coordination to ensure that all residents have an opportunity to help shape a community vision for the County. Regularly, housing and community development needs are made known to County and City staff and housing and service providers through various means:

1. Administration of Affordable Housing Programs for Pinellas County;
2. Participation of County staff on committees of local agencies such as the Neighborhood Family Centers and the Housing Finance Authority of Pinellas County;
3. Technical assistance to agencies and other entities for the CDBG, HOME, and ESG programs;
4. Participation in public forums such as the Behavioral Health Summit at the direction of the Health and Human Services Coordinating Council, and neighborhood meetings with communities including Lealman and Ridgecrest;
5. Meetings with public housing authorities; and
6. Outreach to minorities, non-English speakers, and persons with disabilities: public hearings and meetings are the primary means by which individual citizens can provide input into the 5-Year Plan. Open meetings are held at the town level, city level, and countywide level. All such meetings are scheduled in advance and posted in the community. All meetings are held in handicapped accessible facilities with Spanish translation available if needed.

As part of the Citizen Participation process, Pinellas County held a Needs Assessment public hearing on January 10, 2024. Participating cities, partner agencies, and community organizations were encouraged to participate and provide input on how funds should be allocated to programs and projects related to housing, homelessness, special needs, and community development. The results of the input received during the public meetings help to identify the priority housing and community development needs for the next year.

Expected Resources

AP-15 Expected Resources - 91.420(b), 91.220(c)(1,2)

Introduction

In 2020, Pinellas County completed the 2020-24 5-Year Plan, a strategic planning document developed with input from community residents, local governments, nonprofits, and other interested groups, identifying the County's priority housing, homeless, special populations, and community development needs. The Annual Action Plan, submitted each of the five years of the 5-Year Plan, identifies specific projects and activities to be undertaken each year to address the needs identified in the 5-Year Plan and further the identified five-year priorities and strategies.

Federal CDBG, HOME and ESG funds are allocated annually to entitlement communities through HUD to carry out housing and community development activities to benefit low- and moderate-income households. The Annual Action Plan is the Pinellas County Consortium's annual application for HOME funds and Pinellas County's application for CDBG and ESG funds. The County will receive approximately \$4,502,689.00 in Federal formula grant funding, including program income. This fifth Annual Action Plan outlines how the County will target these Federal resources to address the County's housing and community development needs during the upcoming fiscal year from October 1, 2024, through September 30, 2025.

The Pinellas County Consortium, grantee of Federal HOME funding, consists of the jurisdictions of Pinellas County, acting in its capacity as an Urban County, and the City of Largo. The Urban County, grantee of Federal CDBG and ESG funding, consists of all unincorporated areas and nineteen municipalities participating in the County's program. The County is the lead entity for the Consortium. The City of Largo prepares and approves its own Action Plan for CDBG funding.

The Pinellas County Housing and Community Development Department implements the CDBG, HOME and ESG programs. The Community Development Division is the lead agency in development, coordination, submission, and implementation of Pinellas County's Annual Action Plan. The Pinellas County Board of County Commissioners is the entity responsible for approving the application of grant funds for various activities identified in the 5-Year Plan and Annual Action Plans.

Table 5 – Expected Resources

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

Pinellas County makes every reasonable effort to leverage financial support from other sources for projects receiving federal grant funds. CDBG program applicants must identify project funding from other sources as part of the competitive application process. As part of the project selection process, projects with other non-federal leverage funding receive additional points based on the amount of other non-federal funding contributed to the project. This process encourages applicants to structure project funding to include additional private, state, and local resources to leverage federal funds.

With HOME program funds, the Consortium uses HOME funds to provide down payment and closing cost assistance, leveraging private first mortgage funding. HOME program funds are also used in support of affordable housing development projects, leveraging other federal, state, local and private project funding. Leverage funds for affordable housing development are usually in the form of Low-Income Housing Tax Credits, Tax Exempt Bond Financing, State or local funding, and/or private developer contributions.

In addition to HOME funding, Pinellas County uses State Housing Initiatives Partnership (SHIP) funding to address affordable housing needs and meet identified affordable housing goals. The twenty-five percent (25%) match requirement for the HOME Program comes principally from SHIP dollars. These are local funds disbursed by the State from a State document stamp tax. HTF and Penny for Pinellas funds are also used to match HOME funds. SHIP, HTF, and Penny for Pinellas activities that are identified as HOME "look-alike" activities are tracked as HOME Match activities. Program income or recaptured funds from these match activities are designated as HOME funds and used for future HOME eligible activities.

Pinellas County will match ESG funds using County local general funds allocated to activities that are consistent with the following eligible ESG components: street outreach, emergency shelter, homelessness prevention, rapid re-housing, and homeless management information system.

If appropriate, describe publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

The County's Real Estate Management Department distributes a list of properties available for tax deed sale and prosperities escheating to the County government after seven years of non-payment of taxes. Community Development Division staff reviews the list of properties for suitability as affordable housing if sufficient funding exists for acquisition and/or maintenance/holding costs until the property is developed/rehabilitated.

Although publicly owned land is rarely available, the County may lease land to agencies that address County identified needs for providing public services to low- and moderate-income persons, including the homeless and special needs populations, and creating suitable living environments in the seven (7) geographic priority areas, which include five (5) local Target Areas (Tarpon Springs, Greater Ridgecrest, East Lealman, Central Lealman, and High Point) and two (2) general areas (Urban County, Countywide). Currently, the County leases land to three agencies that address these identified needs.

Discussion

As stated, the County utilizes SHIP, HTF, and Penny for Pinellas funds to meet the local 25% match requirement for the HOME Program. Cooperation between the programs enhances the program's effectiveness by affording more residents housing opportunities that would not be available to them otherwise. The State requires that

65% of the SHIP allocation be expended on home ownership activities and 75% be expended on construction activities.

Pinellas County will use up to 15% of its annual allocation, plus up to 15% of prior year program income to determine the resources available to fund public service activities for each fiscal year. For PY 24-25, the annual CDBG allocation is \$2,338,964 (15% - \$350,844.60). In May 2024, at the time of project selection/funding determinations and updated following final funding allocation notice, Pinellas County had received \$24,674.99 in program income for PY 23-24 (15%, or \$3,701.25). Based on the allocation and the anticipated prior year program income of \$30,000.00, Pinellas County will be able to fund up to \$355,344.60 in public service activities and remain in compliance with the public service cap. As detailed in AP-38, Project Summary, Pinellas County has identified four (4) public service activities that will receive a total of \$351,460.09 in CDBG funding.

Introduction

Pinellas County has identified the following programs as a result of the priority needs identified in the 5-Year Plan. The activities being recommended in each of the programs for initial funding have been evaluated for eligibility, readiness to proceed, leveraged funds, and capacity of the entity carrying out the activity. Additionally, should funds become available from unanticipated program income or activities coming in under budget, the County has identified alternate activities or may add additional activities to the identified priority programs.

Table 8 – Project Information

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

In making allocation recommendations, several factors were considered: activities must comply with CDBG national objectives; must address a priority identified in the Consolidated Strategic Plan; and must provide decent housing, a suitable living environment, or expand economic opportunities principally for low- and moderate-income persons. Pinellas County allocates investments geographically within its jurisdiction by utilizing a target area concept. Redevelopment and revitalization funds continue to be directed to the County’s targeted areas and provide support for redevelopment activities in cooperating cities. All areas are either principally low- and moderate-income as determined through the most up to date HUD provided Low- and Moderate-Income Summary Data or slum/blight

areas as designated by the local governments. This target area concept does not preclude the possibility that there will be projects selected that may operate countywide, or otherwise outside of one of the identified target areas.

Housing programs are available throughout the County, with a focus on areas with a concentration of older housing, as well as on special targeted areas. The Housing and Community Development Department encourages mixed-income developments.

The primary obstacle to meeting underserved needs is the limited resources available to address the identified priorities. The County is not able to fund all project proposals received during the application cycle. In addition, some of the obstacles to meeting underserved needs are as follows:

1. Lack of supply of affordable housing for extremely low-, low-, moderate- and middle-income families. Housing costs continue to rise. Pinellas County continue to experience increased rents and purchase prices. The median sales price of single-family homes in Pinellas County in February 2024 was \$452,000, is well outside the affordability range of a household with an income at the median family income. Average rents are not affordable, and households are barely able to afford rent making it difficult to afford necessities such as food, clothing, medical care, or transportation. According to the Florida Department of Commerce, 2022 Quarterly Census of Employment and Wages and the 2023 HUD Fair Market Rent for the Tampa-St. Petersburg-Clearwater MSA, for all occupations, at the median hourly wage of \$22.01, the maximum affordable rent is \$1,145, well below the 2023 HUD Fair Market Rent of \$1,659.
2. Local governmental policies, such as building codes, subdivision standards, and impact fees, are enacted to protect and further the general welfare of the public. However, a complex regulatory environment can have the unintended effect of creating barriers to housing affordability by increasing per unit costs associated with housing development.

Table 9 – Project Summary

AP-50 Geographic Distribution - 91.420, 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

Redevelopment and revitalization funds will continue to be directed to five (5) County targeted areas, in addition to Countywide and Urban County. Targeted areas consist of low- and moderate-income concentration areas (51% or more of the population in the designated area has incomes at or below 80% of Area Median Income) determined through HUD generated Low- and Moderate-Income Summary Data. The five (5) target areas are Central Lealman Target Area (65% Low/Mod), East Lealman Target Area (65% Low/Mod), High Point Target Area (57% Low/Mod), Greater Ridgecrest Target Area (55% Low/Mod), and Tarpon Springs Target Area (81% Low/Mod).

Due to system limitations, actual percentage of geographic distribution cannot be entered into the table. The final percentages for geographic distribution are: 68.2% Countywide; 24.9% Urban County; 2.0% Tarpon Springs TA; 4.2% Greater Ridgecrest TA; 0.0% High Point TA; 0.4% Central Lealman TA; and 0.4% East Lealman TA.

Some target areas are also areas of minority concentration. The Tarpon Springs Target Area has a predominately low- and moderate-income population (81%) with significant African American and Hispanic populations (33% and 26%, respectively). These populations are most concentrated in Census Tract 274.02, Block Group 1 (88% African American) and Block Group 5 (43% Hispanic) based on 2014-2018 ACS data.

The High Point Target Area has a low- and moderate-income population of 57%. The area is quite large, with an estimated population of approximately 10,000. According to 2014-2018 ACS data, the area is also relatively diverse, with higher concentrations of African American, Asian, and Hispanic populations (21%, 5%, and 27%, respectively), when compared to Pinellas County overall. The poverty rate in the High Point Target Area is 29% of individuals and 19% of households.

The Greater Ridgecrest Target Area has a low- and moderate-income population of 55%, as calculated based on the CDP boundary. The CDP boundary intersects portions of two Census Tracts: 252.07 (Block Group 2) and 253.07 (Block Groups 2 and 3). According to 2014-2018 ACS data, the area has higher concentrations of African American and Hispanic populations (32%, and 9%, respectively), when compared to Pinellas County overall. These concentrations are highest between 119th Street N and the Pinellas Trail (46% and 14%, respectively). The poverty rate in the Greater Ridgecrest Target Area is 22% of individuals and 20% of households, calculated for the combined block groups.

Additionally, funds will continue to be used to provide support for redevelopment activities in cooperating cities with slum/blight areas as designated by the local government.

Housing programs are available countywide, with the exception of homeownership opportunities programs that are available in the Urban County, with a focus on areas with a concentration of older housing, as well as on special targeted areas. The Department encourages mixed-income developments. For activities involving homeless or special needs, the emphasis continues to be cooperation with other entitlement communities in the County to ensure that those in need within all areas of the County are served (while ensuring that the project sponsor or sub-grantee is serving Urban County residents).

Table 10 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

The CDBG program requires that each CDBG-funded activity must either principally benefit low- and moderate-income persons, aid in the prevention or elimination of slums or blight or meet a community development need having a particular urgency. With respect to activities that benefit all the residents of a given area, at least 51% of the area's residents must be low- and moderate-income. Some CDBG assisted activities, such as parks, neighborhoods, facilities, community centers and streets, serve an identified geographic area. These activities generally meet the low- and moderate-income principal benefit requirement if 51% of the residents in the activity's service area are low- and moderate-income. However, some communities have fewer areas in which 51% of the residents are low- and moderate-income. For these grantees, the CDBG law authorizes an exception criterion in order for such grantees to be able to undertake area benefit activities. Pinellas County is designated as an "Exception Grantee" by HUD. In order for a Census Block Group to qualify as a low- and moderate-income area, a Block Group in the County must contain 50.00% or more low/mod population.

Pinellas County allocates investments geographically within its jurisdiction by utilizing a target area concept. Target areas are established by meeting at least one of the following criteria:

1. At least 50% of the households in the area must have incomes at 80% or less of the HUD Median Family Income (MFI) for the Tampa-St. Petersburg MSA, adjusted by household size, or
2. There must be a substantial number of deteriorating or dilapidated buildings or infrastructure needs throughout the area, or
3. Generally, the current conditions of a target area meet the slum and blight definition of a locally designated Community Redevelopment Area (CRA), as defined in the Florida Statutes, Chapter 163, Part III, the "Act".

The list of Pinellas County CRAs within the Consortium includes those in Dunedin, Gulfport, Largo, Lealman, Oldsmar, Safety Harbor and Tarpon Springs. Each CRA was established pursuant to the criteria established in F.S.; Chapter 163 with extensive analysis of existing conditions, studies completed utilizing census data, along with local databases such as comprehensive plans, redevelopment implementation plans, capital improvement plans, and consultations with City and County personnel. The Consortium will continue to allocate its housing funds throughout the Consortium. ESG funding will be allocated to projects located outside the City of St. Petersburg. Both the City of Largo and Pinellas County (Urban County) will allocate their CDBG funds within their respective low-income/redevelopment areas. They may also contribute to homeless and special needs projects outside the municipality boundaries.

Discussion

The Pinellas County Board of County Commissioners' strategic vision is to improve the quality of life for Pinellas County residents and aims to have local municipalities, engaged citizens, and the County working together to better align resources, to revitalize and redevelop communities, and protect our natural resources.

In order to achieve this vision, the County analyzed the factors that contribute to systemic poverty in an effort to determine the needs of the community. This analysis, titled Economic Impact of Poverty Report, highlights seven factors that contribute to the cycle of poverty and drive the costs for combating poverty. The data identified five at-risk communities within the County. The five communities include East Tarpon Springs, North Greenwood, Highpoint, Lealman Corridor, and South St. Petersburg. Three of the five communities include areas that are County targeted areas: Tarpon Springs, Highpoint, and the Lealman Corridor. All five communities suffer from the same seven factors: insufficient transportation, access to food, access to health care, poorer health, lower educational attainment, increased crime rates, higher unemployment, and inadequate and insufficient housing. In May 2012, the Board unanimously adopted the findings in the Economic Impact of Poverty Report, prioritized funding and services for the five at-risk zones, and instructed County Departments to begin to work with community partners to implement the Healthy Communities Initiative. The Economic Impact of Poverty Report is scheduled to be updated this fiscal year.

Affordable Housing

AP-55 Affordable Housing - 91.420, 91.220(g)

Introduction

Providing access to affordable housing for all residents continues to be a high priority for Pinellas County. Affordable housing will be provided through the use of Federal CDBG, HOME, ESG, State SHIP, local HTF, and Penny IV funds. Priorities include the acquisition, construction and/or rehabilitation of new and/or existing owner, rental, homeless and special needs housing, providing short-term rental assistance to homeless or at-risk individuals and households, and providing down payment and closing cost assistance for low- and moderate-income households.

Discussion

In 2024-25, providing affordable housing will specifically be addressed by:

- Providing down payment/closing cost assistance to 1 low- to moderate-income homebuyer using HOME funds. State SHIP funds will also be used to provide assistance to 24 additional households. Housing Counseling and Education will be supported with \$131,000 in SHIP funding and aims to assist 350 low- to moderate-income households.
- Preservation of the existing housing stock through acquisition and/or rehabilitation, preserving 9 units of owner or renter housing for low- to moderate-income households using HOME funds. State SHIP and local HTF and Penny IV funds will also be utilized to preserve 41 additional units.
- Production of new affordable housing through acquisition and/or rehabilitation, production of 5 units of new renter housing for low- to moderate-income households using HOME funds. State SHIP and local HTF funds will also be utilized to produce 26 additional units.
- Providing rental assistance and rapid rehousing to 15 low-income persons for homeless prevention and HMIS entry using ESG funds.

Approximately \$1.7 million in HOME funds will be used for single-family and multi-family residential acquisition, rehabilitation and construction, down-payment assistance, and purchase and rehabilitation for homebuyers. The State of Florida provides local entitlement jurisdictions with funds for housing under the State Housing Initiatives Partnership (SHIP) Program. The State requires that 65% of the allocation be expended on homeownership activities and 75% be expended on rehabilitation or construction activities. The anticipated SHIP funds available for FY24-25 is approximately \$5.3 million in allocation and program income. These funds will be used for homeowner rehabilitation activities, down payment assistance, rental rehabilitation and new construction, and housing services. Program income in the amount of \$250,000 generated through the Local HTF will be expended on single-family and multi-family residential acquisition, rehabilitation, and construction activities. Private funds available through local lending institutions will be leveraged by Federal funds. Down payment assistance programs will leverage private money from individuals and families saving for down payments and closing costs and will also leverage private lender's mortgage financing in the purchase of homes. In new construction projects, investor and private lending institutions' funds will be leveraged by Federal funds. Federal funds will also leverage the use of private homeowner and investor-owned funds to accomplish rehabilitation.

Federal housing funds leverage local resources such as donated homes and land, relief from certain impact fees and regulations, as well as encourage private investment from developers and lending institutions.

AP-60 Public Housing - 91.420, 91.220(h)

Introduction

Public Housing Authorities in Florida are created as independent organizations under Florida Statutes. Thus, the County interfaces with the local housing authorities on activities as requested by them, and the County has contributed toward safe and sound public housing, as well as the provision of recreational and other social accommodations. The County's policy, however, is not to substitute CDBG funds for funds that are available to the Housing Authority through other Federal programs.

Actions planned during the next year to address the needs to public housing

Although there are no new activities planned with public housing authorities for the 2024-25, the County will continue the partnership with the housing authorities while completing existing projects.

Pinellas County worked with the Pinellas County Housing Authority (PCHA) as they've created a master plan for redevelopment of the Rainbow Village site, located in the Greater Ridgecrest Area. The County has committed up to \$1M in CDBG, \$1.5M in HOME, \$860,000 in SHIP, and has approved Penny for Pinellas funding for Heritage Oaks, replacing 48 units at Rainbow Village with 80 new units of senior housing. Additionally, the County has committed \$1.7M in SHIP funds for Valor Preserve, for the construction of 64 new units of affordable housing that will implement veterans preference and will include 32-units set aside for households with special needs.

PCHA continues to provide supportive and youth services to the residents and voucher holders on our programs. Scholarship assistance is available to those who are enrolled at St. Petersburg College (SPC) for those striving to reach self-sufficiency. PCHA continues to maintain the property making the necessary repairs, etc. to ensure they are providing safe, sanitary, and decent housing.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

Each Family Self-Sufficiency Program (FSS) participant signs a Contract of Participation (COP) and creates a maximum five (5) year Individual Training and Service Plan (ITSP) that includes employment goals and identifies training or education needs. During the term of the COP, PCHA establishes an interest-bearing escrow account. The FSS escrow account offers the family the opportunity to save for the future. The amount of the escrow account reflects what would normally be an increase in the rent due to an increase in the family's earned income. As the participant earns more income and pays higher rent amounts, the escrow account increases. If the family meets its goals within five years and remains free of cash assistance for a period of one year, they will receive the funds in their escrow account.

Single Family Housing in the Ridgecrest Area: Renovation of the single-family homes donated by Pinellas County is underway. The end goal of this renovation project is to sell the home to a first-time homebuyer currently residing in public housing or participating in the HCV program.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

Housing Authority performance for all housing authorities in Pinellas County is checked through HUD's Public and Indian Housing Information Center (PIC). The Pinellas County Housing Authority, Clearwater Housing Authority, and St. Petersburg Housing Authority, identified as Combined Program Types, continue to be designated as High Performers. The Tarpon Springs Housing Authority and Dunedin Housing Authority identified as Low-Rent Program types are not assessed a designation. However, both housing authorities are active and identified in HUD's Public and Indian Housing Information Center.

Discussion

Housing authorities in Pinellas County are experiencing a loss of 100% HUD funded public housing and are moving towards affordable mixed-income new construction units, but still experiencing a net loss of units. In addition to the current funded projects and a potential joint project with the Pinellas County Housing Authority, funds may also

be utilized to provide additional resources for preservation of existing units or acquisition of new units through the on-going housing application process and funding will be based on financial feasibility. Ongoing communication with the Pinellas County Housing Authority, Dunedin Housing Authority and the Tarpon Springs Housing Authority will continue in order to identify opportunities to further address preservation of existing affordable housing units.

AP-65 Homeless and Other Special Needs Activities - 91.420, 91.220(i)

Introduction

In February 2012, the Pinellas County Coalition for the Homeless, Inc. and the Homeless Leadership Network merged into the Homeless Leadership Board. In January 2020, the HLB changed its name to the Homeless Leadership Alliance (HLA) of Pinellas and is a nonprofit 501(c)(3). The Homeless Leadership Alliance of Pinellas serves as the Pinellas Continuum of Care Lead Agency, Collaborative Applicant and HMIS Lead Agency. The HLA provides supplemental services, coordination, and funding management to carry out the policy goals of the Continuum of Care.

The mission of the Homeless Leadership Alliance is to provide leadership in the planning, development and alignment of community advocacy, resources and strategies to prevent, divert and end homelessness in Pinellas County.

The new Homeless Leadership Alliance was created by an Interlocal Agreement between Pinellas County; the cities of Clearwater, Largo, Pinellas Park, St. Petersburg, and Tarpon Springs; the School Board of Pinellas County; the Pinellas-Pasco Public Defender's Office; and the Juvenile Welfare Board/Children's Services Board. The HLA administers the Pinellas Homeless Management Information System (PHMIS). The Board is responsible for setting and implementing policies for the homeless services system; planning, implementing, and advocating for design and critical activities of the Pinellas system of services; monitoring and reporting on system and provider performance towards adopted goals/outcomes (including the 2-1-1); designing, tracking, and reporting outcomes to ensure effective use of resources to ensure homeless persons gain stable housing; performing lead agency responsibilities for Federal and State homeless funding; administering Federal, State, and local public and private funding for homeless services; providing strategic alignment of funding to best meet the needs; coordinating between Interlocal Agreement entities; and advocating for effective homeless/at-risk services at the Federal, State, and local levels.

The Homeless Leadership Alliance identified families/children and chronic homeless (individuals, families) as the top priorities for housing in the strategic plan and is redirecting resources to them. Major cities, Pinellas County, the Juvenile Welfare Board, and others are setting the same priorities and are working together to create more housing. The Homeless Leadership Alliance adopted strategies to stop individuals and families from becoming chronically homeless by getting them into permanent housing more quickly. The Homeless Leadership Alliance continues to work with other Florida CoCs to get the Florida Legislature to consistently fund the State Sadowski Housing Trust Fund for very low-income housing.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The HLA partners with the Juvenile Welfare Board's Children's Services Council and 2-1-1 Tampa Bay Cares on the Family Services Initiative (FSI) that works with families with needs. The goal of the Family Services Initiative is to prevent homelessness while working on longer term issues and to have one place for families to make initial contact

for help. FSI is publicized widely as the place for homeless and at-risk families to go for help. Homeless and at-risk families call 2-1-1 and are directed to specific triage staff for short assessment.

Additionally, outreach to the homeless is done by three full-time and two half-time Street Outreach Teams who cover major parts of the county five days a week. The Street Outreach Teams are the center of the Continuum of Care's efforts to find and engage street homeless, in place, since late 2006. Each Street Outreach Team is composed of one law enforcement officer and one case manager. Additionally, Street Outreach individuals focus on finding unaccompanied youth. The Veterans Administration funds Veterans Outreach persons.

All the outreach personnel meet bi-monthly to discuss problems, identify increases/decreases in specific populations, problem-solve, and meet with providers of emergency mats and beds. Law enforcement staff members train their police departments on working with street homeless persons. Once a street homeless individual or couple seeks assistance, they are encouraged to go to Safe Harbor, the County's emergency homeless shelter and jail diversion program designed to be a safe haven for the homeless, where they are assigned a case manager for assessment and referral to services, etc. Unaccompanied youth are referred to Family Resources and other youth programs to get them off the street. Street Outreach Teams also process individuals for entrance to Pinellas Hope, another homeless shelter operated by Catholic Charities.

Through the Human Services Department, Pinellas County provides approximately \$10 Million in local funding for programs that serve homeless populations. Funding is provided to supportive housing programs; inebriate receiving facilities; emergency shelters for beds and services for homeless individuals, families, youth, pregnant women, and victims of domestic violence; homeless street outreach for engagement and case management; healthcare for the homeless; and rapid re-housing and homeless diversion/prevention.

The County plans is providing \$26,968.09 in CDBG funds and \$16,831.91 in ESG funds to Metropolitan Ministries to fund operations of the Pinellas Brigade Street Outreach Program which provides immediate support (food, clothing, hygiene, etc.) and connection to homeless assistance programs and social services to people experiencing unsheltered homelessness.

Addressing the emergency shelter and transitional housing needs of homeless persons

Pinellas County one-year goals will support emergency shelter and transitional housing needs by providing a total of \$570,033 in CDBG funding to several nonprofits for public facility improvement projects. The County will provide \$375,360 to Community Actions Stops Abuse (CASA) for improvements at CASA's emergency shelter for survivors of domestic violence; \$140,500 to Homeless Empowerment Program (HEP) for improvements at HEP's Family Transition Program Shelter; and \$54,173 to WestCare Florida Gulf Coast for improvements at WestCare's Mustard Seed Transitional Housing facility.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

From FY15 through FY21, ESG funds were primarily used for homelessness prevention and rapid re-housing activities. Pinellas County allocates a minimum of 40% of ESG funds for homelessness activities, serving individuals and families through the Community Housing Assistance Program (CHAP).

Pinellas County Human Services Department coordinates with the Juvenile Welfare Board (JWB) Family Service Initiative, which provides a range of prevention assistance to families/children (may include very- short term shelter and case management to remain in/secure new housing). Pinellas County is providing homeless initiatives funding in support of emergency shelters and street outreach, funding health services for the homeless through the Mobile Medical Unit and Safe Harbor Clinic and funding to the Homeless Leadership Alliance. Additionally, the County has established and funds a Rapid-Re-Housing Program.

The Continuum of Care is exploring strategies and potential initiatives to shorten the period of time families are experiencing homelessness. The Pinellas County Human Services Department's Family Housing Assistance Program (FHAP) addresses the housing needs of homeless and families with children.

The Continuum of Care administers HMIS to formally monitor returns to homelessness from permanent housing programs (Rapid Re-Housing, Permanent Supportive Housing (PSH), Permanent Housing (PH)). This process will be the monitoring base of the System Quality Improvement Committee performance outcome monitoring/ evaluation system used to set goals and measure performance for the Continuum. HMIS staff meets monthly to review performance and identify a baseline for returns to homelessness from permanent housing. Continual monitoring/tracking of families/individuals who return to homelessness will evaluate the measures taken to reduce the chance of return. The most critical steps now for the Continuum to assist families/individuals are enrollment in cash/non-cash mainstream resources prior to exit and ongoing case management/contact with the person/family; this is in place for many PH/PSH programs but not for family rapid re-housing.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

Pinellas County one-year goals will support helping low-income individuals and families avoid homelessness by providing ESG funds for the Homelessness Prevention Program. The County will use a portion of its fiscal year 24-25 ESG funds to provide short-term rental assistance for families that are at risk of becoming homeless. Additional prevention activities include outreach (affordable housing and fair housing rights), pre-purchase and post-purchase counseling, housing services, and eviction/foreclosure prevention.

The County will continue to monitor the availability of additional Federal funds that may become available to address homeless and homeless prevention activities. Pinellas County will coordinate these activities with other jurisdictions within the County to ensure that eligible recipients are not moving needlessly in order to access the funding.

Pinellas County stakeholders including the Pinellas County Human Services Department, Pinellas County Sheriff's Office, Public Defender's Office, Juvenile Welfare Board and the communities mental and behavioral healthcare providers came together to initiate a behavioral health high-utilizer program. The program features an integrated systems approach to target high utilizers of Pinellas County's public Baker Act facility and the County jail. As a part of the program, a Treatment Team assesses each participant using LOCUS (Behavioral Health assessment) and SPDAT (Housing and Case Management assessment) and designs individual treatment plans that will include regular team engagement and counseling. Case Manager(s) link the participants to needed services as identified by the assessments and provide follow-up to ensure services were received. The program incorporates engagement, housing, and intensive treatment to stabilize participants and help them live independently or supported (e.g., permanent supportive housing) in the community. Participants are also linked to entitlements and benefits they

could potentially qualify for. The overarching benefits of the program are to end the costly cycle of recidivism in our jails, hospitals, and baker act facilities. It allows funds to be redirected to serve more residents with the most effective, less costly services of behavioral health prevention and early intervention.

Discussion

The Consortium is a member of the Pinellas County Homeless Leadership Alliance, formerly the Pinellas County Coalition for the Homeless, through the County's Human Services Department. The staffs of the Homeless Leadership Alliance, the County's Human Services Department and the Community Development Division meet every other month to coordinate on issues of mutual concern and benefit. The Pinellas County Homeless Leadership Alliance prepares and updates the County's Continuum of Care. The Homeless Leadership Network, now a part of the Homeless Leadership Alliance, made up of elected officials and community leaders, drafted Opening Doors of Opportunity: A 10-Year Plan to End Homelessness in Pinellas County, to establish the groundwork for guiding Pinellas County in their efforts to end homelessness. In June of 2015, Opening Doors was amended to reaffirm the strategies that continue to prove effective in preventing and ending homelessness. The 2015 Amendment encompasses much of the original Plan, but with some additions and clarifications that further strengthen its value as a living blueprint for action. The Consortium supports the Homeless Leadership Alliance and the priorities established in this plan match those of the Continuum of Care and the 10-Year Plan to End Homelessness.

The County, through the Human Services Department, also provides funding through its Homeless Initiatives Funding, for operating expenses and services for homeless shelters.

AP-75 Barriers to affordable housing -91.420, 91.220(j)

Introduction

Pinellas County continues to work to eliminate barriers that limit the preservation and/or production of affordable ownership and rental housing for residents in the County. Based on Needs Assessment data, Pinellas County has a shortage of both affordable ownership and rental housing. The current median purchase price of a single-family home in Pinellas County is \$452,000, which is not affordable to low- and moderate-income households. Rent prices remain high, out of the reach of low- and moderate-income residents. In 2023, data from the National Low- Income Housing Coalition, identified Florida has the eleventh highest housing wage in the country. In Pinellas County, it takes a household income of \$66,360 to afford a two-bedroom rental unit at Fair Market Value, \$1,659 per month. In Pinellas County, a rent affordable to a household at 30% AMI is \$671 and rent affordable to a household at 50% AMI is \$1,118, well below the Fair Market Rents.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

Several factors impede development of affordable housing in the County. Government review processes have prolonged development timelines resulting in increased per unit housing development costs. Impact fees, charged to defray the cost of constructing and maintaining water, sewer and transportation systems, can increase the costs of single and multifamily developments. Zoning and Land Use Codes can restrict unit density, impacting the supply of affordable housing. These policies, although enacted to protect general public welfare, hinder affordable housing development. Over the next year, Pinellas County will continue to focus on the preservation of existing housing and

production of new affordable units. Acquisition and rehabilitation of existing affordable units that are in the foreclosure process or in jeopardy of losing affordability subsidies will continue.

Barrier: Government Review Processes and Fees/Construction costs. To help ameliorate these barriers, the County will continue to support the established Affordable Housing Incentive Program to provide private sector builders and developers with regulatory and financial incentives to produce affordable housing.

Incentives include an expedited permitting process, impact and review fee waivers, allowance of increased density levels, reduction of parking and setback requirements, and use of an established process to consider, before adoption, proposed land development code changes that may have a significant impact on the cost of housing. These incentives are periodically reviewed in conjunction with the State of Florida statutory requirements of the State's SHIP Affordable Housing funds. An Affordable Housing Advisory Committee involved with the planning and implementation of affordable housing reviews established policies and procedures, ordinances, land development regulations and triennially submit a report to the State.

Barrier: Cost of Land. To help ameliorate these barriers, Pinellas County, through the Housing Finance Authority of Pinellas County, utilizes community land trusts to enable land costs to be diminished in the development equation, making the end product more affordable. Additionally, through the Affordable Housing Incentive Program, the County can donate publicly owned land to nonprofits to be used for affordable housing. Funding is used to purchase and assemble land that would be suitable for creation of affordable workforce housing and mixed-use developments. These properties are located anywhere in the County and remain under County ownership in the Community Land Trust Program. The land is leased to employers, residents and/or developers. Lease revenue, payments in lieu of taxes, or other similar means would be used to continually replenish the fund and perpetuate the assembly program.

Barrier: Tenant/Purchaser Issues. The County will continue its efforts to educate citizens about barriers that can be eliminated, such as poor credit. This will be done through staff educational efforts, as well as through agencies that provide credit counseling.

Discussion

Funding allocations for FY24-25 decreased for federal CDBG and HOME programs and State SHIP affordable housing funds. Along with the reduction of available funds to assist with affordable housing, the cost of housing in the County continues to rise with owner and rental housing rising to levels that are unaffordable to low- and moderate-income households. The most significant barrier continues to be the lack of financial resources available to address affordable housing needs in the County.

AP-85 Other Actions - 91.420, 91.220(k)

Introduction

Listed below are the actions planned to address obstacles to meeting underserved needs, foster and maintain affordable housing, reduce lead-based paint hazards, reduce the number of poverty-level families, develop institutional structure, and enhance coordination between public and private housing and social service agencies.

Actions planned to address obstacles to meeting underserved needs

The largest obstacle that Pinellas County faces is the lack of necessary funding for affordable housing. The County continues to lose affordable housing units as affordability requirements expire; however, the limited funding that is available restricts the ability to respond to preserving the units. There continues to be a need for affordable housing within the Consortium. The County will continue to work with non-profits to identify additional funding for purchase and purchase/rehabilitation of existing affordable units.

Pinellas County has very limited undeveloped land available to create additional affordable units within the Consortium. In 2007, the County authorized the Housing Finance Authority to utilize land trusts to help facilitate the long-term preservation of affordable housing projects in Pinellas County. Pinellas County dedicated \$15 Million of Penny for Pinellas revenue, known as Penny III, from a one-cent sales tax for providing affordable housing within the County. The County had an existing Interlocal Agreement with the Housing Finance Authority of Pinellas County for administration of the County's Community Housing Program. In June of 2015, the Interlocal Agreement was amended to include acquisition and land assembly.

Penny III funding is provided to acquire land suitable for creation of affordable workforce housing and mixed-use developments, to be held in a Land Trust and utilized for affordable housing. Developments selected for the funding could be located anywhere in the County; however, the land must remain under County ownership in the Community Land Trust Program. The land is leased to owners and/or developers. Lease revenue, payments in lieu of taxes, or other similar means is used to continually replenish the fund and perpetuate the assembly program. Over the past five years, Pinellas County and local municipalities have used investments, incentives, financial assistance, and regulatory tools to spur more affordability in the market, including \$13.6 million from the previous Penny for Pinellas sales tax.

Pinellas County committed \$80 Million of the Countywide Affordable Housing and Economic Development Capital Project Funds ("Penny IV Funds") to be utilized to support the development and preservation of affordable housing and to facilitate economic development and high-quality growth of the local economy through strategic investments in capital projects.

Penny IV Funds are provided through an extension of the Infrastructure Sales Surtax, a voter-approved 1.0% sales tax that is dedicated to infrastructure improvement projects in Pinellas County. The approved ballot language included "land acquisition for affordable housing" and "capital projects to support economic development" as permissible uses of funds. For FY24 the County anticipates utilizing Penny IV funding on affordable housing programs. All assisted units will benefit households at or below 80% of AMI, with forty percent (40%) of the assisted units benefitting households at or below 60% of AMI. To date, four projects have been recommended for conditional approval by the Board.

Actions planned to foster and maintain affordable housing

Fostering and maintaining affordable housing that may be lost from the assisted housing inventory is a high priority for the County. The County has established three priority programs that will address affordable housing needs in FY 24-25, the Housing Preservation, Housing Production, and Homeownership Promotion Programs. Specifically, the County will use CDBG, HOME, and other funding to:

- Provide down payment/closing cost assistance to 1 low- to moderate-income homebuyer using HOME funds. State SHIP funds will also be used to provide assistance to 24 additional households. Housing Counseling and Education will be supported with \$131,000 in SHIP funding and aims to assist 350 low- to

moderate-income households.

- Preserve the existing housing stock through acquisition and/or rehabilitation, preserving 9 units of owner or renter housing for low- to moderate-income households using HOME funds. State SHIP and local HTF and Penny IV funds will also be utilized to preserve 41 additional units.
- Produce new affordable housing through acquisition and/or rehabilitation, production of 5 units of new renter housing for low- to moderate-income households using HOME funds. State SHIP and local HTF funds will also be utilized to produce 26 additional units.
- Provide rental assistance and rapid rehousing to 15 low-income persons for homeless prevention and HMIS entry using ESG funds.

Actions planned to reduce lead-based paint hazards

The Florida Department of Health (DoH) is the primary agency for addressing lead poisoning in the County. Budgetary constraints have limited lead screening and case management activities; however, the DoH still responds to reported cases of lead poisoning as determined by local pediatricians and health care providers.

The DoH performs epidemiological investigations to assure appropriate follow-up care is initiated, to prevent new cases, and to gather data to target future interventions. For children identified with high blood lead levels, a lead assessment of the home is recommended. A specialist performs inspections and risk assessments at no charge for families with children having elevated Blood Lead Levels (BLL), family day care homes, and day care centers. DoH also works to identify lead-based paint hazards in the environment.

The DoH, using revenue from Lead Poisoning Prevention Screening and Education Act provided physicians with information on how to report lead poisoning cases to the DoH, including reporting forms and educational materials for their patients; visited seventeen locations performing blood lead screenings; provided lead poisoning information and educational materials to parents and children during outreach events; provided information and educational materials to the parents of children with elevated blood lead levels and offered these parents an environmental health investigation; provided information and educational literature to Healthy Start staff, community partners, and members of the public; and made media appearances on English and Spanish language local news channels.

The Community Development Division follows procedures as specified in applicable regulations and, specifically, those detailed in Title X of the Housing and Community Development Act of 1992. Staff provides all required notifications to owners and occupants and inspect for defective paint surfaces of pre- 1978 properties. Any defective paint conditions found are included in the scope of work and treatment provided to the defective areas. All Department policies and procedures meet the concepts and requirements of Title X. Staff members with architectural or Risk Assessor training/experience orders and reviews paint inspections, risk assessments and clearance testing of suspect properties done by licensed testing professionals. Utilization of trained and certified lead professionals assures that lead hazard control and abatement work is done safely and effectively.

In every program where Federal funds are expended on a housing unit, the County incorporates the current procedures for hazard reduction or LBP abatement guidelines as defined in 24 CFR Part 35. The purpose of the regulation is to protect young children from lead-based paint hazards in housing that is receiving assistance from the Federal government or is being acquired or disposed of by the government. All houses built prior to 1978, purchased by the County for housing rehabilitation and stabilization are subject to the Lead-Safe Housing Rule Checklist, and associated guidance to assure compliance with the Lead-Safe Housing Rule.

Recent budget difficulties have eliminated and limited some of the efforts to expand screening programs and environmental investigations. Early identification through blood lead screening, testing and case follow-up of lead poisoning reduces the risk that children will suffer permanent damage. Going forward, more public and private funding efforts will be necessary to expand lead-based programs and initiatives and reduce the burden of lead poisoning in Pinellas County.

Actions planned to reduce the number of poverty-level families

The County, to the extent allowed by the level of funding and economic conditions (housing market, job opportunity rate, health care systems, the willingness of the target populations to utilize the preferred assistance, etc.) acts to reduce the housing costs and fund services that could assist individuals to stabilize their lives and increase their job skills and marketability. By funding the maximum number of programs possible with the available resources, the County assists many agency programs that contribute to the reduction of the number of persons living below the poverty level.

The Pinellas County Board of County Commissioners' strategic vision is to improve the quality of life for Pinellas County residents and aims to have local municipalities, engaged citizens, and the County working together to better align resources, to revitalize and redevelop communities, and protect our natural resources.

The 2013 Economic Impact of Poverty Report highlighted seven factors that contribute to the cycle of poverty and drive the costs for combating poverty. The data identified five at-risk communities within the County. Three of the five communities include areas that are County targeted areas: Tarpon Springs, Highpoint, and the Lealman Corridor. All five communities suffer from the same seven factors: insufficient transportation, access to food, access to health care, poorer health, lower educational attainment, increased crime rates, higher unemployment, and inadequate and insufficient housing. The County will prioritize funding and services for the three target at-risk areas. The County plans to update the report in 2024.

Pinellas County committed \$80 Million of the Countywide Affordable Housing and Economic Development Capital Project Funds ("Penny IV Funds") to be utilized to support the development and preservation of affordable housing and to facilitate economic development and high-quality growth of the local economy through strategic investments in capital projects.

Penny IV Funds are provided through an extension of the Infrastructure Sales Surtax, a voter-approved 1.0% sales tax that is dedicated to infrastructure improvement projects in Pinellas County. The approved ballot language included "land acquisition for affordable housing" and "capital projects to support economic development" as permissible uses of funds. For FY24-25 the County will continue to utilize Penny funding for affordable housing programs. All assisted units will benefit households at or below 80% of AMI, with forty percent (40%) of the assisted units benefitting households at or below 60% of AMI.

Actions planned to develop institutional structure

Non-profit agencies receiving CDBG, HOME, and ESG funding will primarily carry out the activities established in the 5-Year Plan in conjunction with the Community Development Division. Community Development is charged with executing the County's housing and community development programs that are aligned with the 5-Year Plan. A host of other public and private organizations contribute to this effort through the provision of financial and organizational resources that are coordinated with the CDBG, HOME, and ESG funding for projects.

These include neighborhood associations, the Housing Finance Authority of Pinellas, the Homeless Leadership Alliance, the Pinellas Planning Council, the Metropolitan Planning Organization, Pinellas County Health Department, Pinellas County Sheriff's Office, the Shimberg Center for Affordable Housing, University of South Florida, the Office of Human Rights, the Pinellas County Departments of Planning, Justice and Consumer Services, Building, Development and Review Services, Economic Development, Public Works, Utilities and various other non-profit, faith-based and community-based service providers and advocates.

The Pinellas County Housing Authority (PCHA) and the Tarpon Springs Housing Authority develop and maintain public housing within the Consortium with a five-member board of commissioners governing each Authority. The County has no direct ability to exercise any oversight responsibility. Pinellas County and the Housing Authorities do work closely to address the housing needs of the community, such as providing financing for preservation of existing affordable housing units.

Actions planned to enhance coordination between public and private housing and social service agencies

Key agencies that are involved in the implementation of the Plan as well as additional resources that may be available are described below.

The HLA, the Administrative Forum, and the Low-Income Housing Committee works with funding agencies and community providers to develop a human service system that provides seamless, high-quality care based on the best use of available resources.

Public Sector

The Community Development Division of the Planning Department administers community development and affordable housing programs, including programs that assist target income residents and serves as lead agency for CDBG and ESG funds for the County and Urban County and HOME funds for the Pinellas County Consortium.

The County's Human Services Department operates the welfare programs for the County.

Pinellas County Health Department offers a variety of services and programs to residents such as childcare licensing, childhood lead poisoning, family planning, Florida KidCare, Healthy Start, HIV/AIDs programs, WIC, and women's health, among others.

Housing Finance Authority of Pinellas County assists families and individuals with homeownership opportunities and increasing the number of affordable rental units available to residents.

Forward Pinellas' Long-Range Transportation Plan serves as a guide for making decisions regarding the future of Pinellas County's transportation system through the year 2035.

Pinellas County and Tarpon Springs Housing Authorities administer Housing Choice (Section 8) Voucher Programs and Family Self-Sufficiency Programs.

Supportive services are provided by Children's and Family Services, the Health Department, Agency for Persons with Disabilities, Departments of Elder Affairs, Veterans' Affairs, Juvenile Justice, and the Agency for Workforce Innovation. Funding is inadequate for the needs they are expected to meet.

A host of non-profit agencies that serve target income households within the County. A coordinated effort is necessary to facilitate service provisions to varying groups throughout the County. As members of the Consortium,

Cooperating Cities will be instrumental in accomplishing identified goals and activities.

Private Sector

The private sector is an important collaborator in the services and programs associated with the 5-Year Plan bringing additional resources and expertise that can be used to supplement existing services or fill gaps in the system. Lenders, affordable housing developers, business and economic development organizations, and private service providers offer a variety of assistance to residents such as health care, small business assistance, residential mortgage programs, commercial lending and assisted housing, among others.

Discussion

The County is committed to continuing its participation and coordination with Federal, State, municipal and local agencies, as well as with the private and non-profit sector, to serve the needs of target income individuals and families in the County. In particular, the County will continue to work in close coordination with County departments regarding infrastructure improvements and the provision of services.

HOME Investment Partnership Program (HOME) Reference 24 CFR 91.220(l)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

No other forms of investment are anticipated during the 2024-25 fiscal year.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

To ensure HOME affordability period requirements are met, the County, including subrecipients and consortium members, applies recapture provisions when HOME funds are used for direct homebuyer subsidy activities. Subrecipient agreements include requirements ensuring recapture provisions are followed.

Principal Residency

A homebuyer receiving HOME purchase assistance must reside in the home as his/her principal residence for the duration of the period of affordability.

Period of Affordability

The recapture provisions are in effect for a period of affordability. This period is based on the amount of direct HOME subsidy to the buyer (recapture), as follows:

Amount of HOME funds-direct subsidy to buyer (recapture) / Period of Affordability

Under \$15,000 / 5 years

\$15,000 to \$40,000 / 10 years

Over \$40,000 / 15 years

Triggering Recapture

If, during the period of affordability, an owner voluntarily or involuntarily transfers his/her property (e.g., through a sale or foreclosure), the applicable recapture provisions go into effect.

HOME Direct Homebuyer Subsidy / Recapture Provisions

The amount subject to recapture is the direct HOME subsidy. The direct HOME subsidy includes the funds that enabled the homebuyer to purchase the unit: down payment and closing cost assistance, and assistance to fill the gap between the fair market value of the property and the sales price affordable to the buyer. If the unit is

sold during the affordability period, the full mortgage amount becomes due and payable. In instances where net proceeds are not sufficient to recapture the entire direct HOME subsidy, recapture of all available proceeds shall be deemed to satisfy the recapture requirements. The net proceeds of a sale are the sales price minus non-HOME loan repayments and any closing costs. This amount represents the maximum amount the County may recapture under its Recapture Policy.

In order to enforce the recapture of HOME funds, the HOME recipient will be required to execute a mortgage in the amount of the HOME subsidy that is recorded as a lien against the property. The term of the mortgage will meet or exceed the minimum affordability period. In addition, the County will execute a Homebuyer Agreement with each assisted buyer to address residency requirement terms of the recapture provision, and remedies for non-compliance.

Noncompliance

During the affordability period, the County monitors homeowner's compliance with the principal residency requirement. An owner is noncompliant with HOME requirements if (1) he/she does not reside in the unit as principal residence due to vacating or renting out the unit to another household, or (2) if the recapture provisions are not satisfied. In the event of noncompliance, the owner is subject to repay outstanding HOME funds based on the total amount of direct subsidy to the buyer minus any principal HOME loan repayments.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

Pinellas County records land use restrictions on all units acquired with HOME funds. During the process of property ownership transfers, the County's restriction is identified in title commitments. If an owner voluntarily or involuntarily transfers his/her property (e.g., through a sale or foreclosure) during the period of affordability, the applicable recapture provisions go into effect. Additionally, properties acquired with HOME funds are required to include the County as an additional insured on homeowner insurance policies. The County proactively monitors the receipt of insurance policies to insure the property ownership has not changed.

4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

Pinellas County does not use HOME funds to refinance existing debt.

Emergency Solutions Grant (ESG)

1. Include written standards for providing ESG assistance (may include as attachment)

In FY 2024-25, Pinellas County will use ESG funding to address the following ESG eligible components: homelessness prevention, street outreach and HMIS. The County will provide funding to the Homeless Leadership Alliance for the CoC's HMIS operations, provide funding to Metropolitan Ministries for the Pinellas Brigade Street Outreach Program operations, and will administer a Community Housing Assistance Program (CHAP) to provide homelessness prevention activities, including contributing data in HMIS. Coordination among emergency shelter providers, essential services providers, homelessness prevention and rapid re-housing assistance providers, and other homeless assistance providers will maximize the use of the ESG funding and

ensure that there is a centralized effort to reach families in need. ESG funds will also be used to fund operations at an emergency shelter. The Written Standards for the Provision of ESG are attached.

2. If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.

The Coordinated Entry System (CES) in Pinellas County is a system-wide process designed to serve homeless individuals and families. Pinellas County uses a multi-access approach for CES, to include a centralized phone hotline, geography specific points of access, and coordinated outreach to street locations. Each access point will employ the same assessment and referral process through the local HMIS. Access staff will assess for diversion first, then screen for consumer need including prevention services. Access staff will conduct data entry, provide referrals, and potentially program admission (if applicable and appropriate). Vulnerability Index and Service Prioritization Decision Assistance Tools (VI-SPDAT) are used by outreach teams and access staff to determine the most appropriate housing path. The VI-SPDAT assessment will be entered directly from the field eliminating the use of paper and to prevent data entry errors. The VI-SPDAT score will populate to a Housing Priority List that will be managed by the CoC lead who will make referrals to appropriate housing.

3. Identify the process for making sub-awards and describe how the ESG allocation available to private nonprofit organizations (including community and faith-based organizations).

Annually, Pinellas County opens a competitive application cycle to accept public facility, public infrastructure and public service applications from any organization that serves CDBG and ESG eligible clientele. Applications are reviewed for eligibility, scored, and ranked to determine a priority funding order. Once projects are prioritized, staff determines the appropriate funding source for each project.

Projects are funded from the appropriate funding source until all funds have been allocated. Emergency shelter activities identified for funding will receive up to a maximum of sixty percent (60%) of the total ESG grant. A minimum of forty percent (40%) of ESG funding will be allocated to homelessness prevention and/or rapid re-housing programs.

4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.

The County is unable to meet the requirement of 576.405 (a) as the Board is made up of elected officials. However, through coordination efforts with the local Continuum of Care provider, the Homeless Leadership Alliance, we will receive input from homeless or previously homeless individuals, as they are part of the Continuum process. Throughout the development of a homeless and homelessness prevention program, input was provided by the Continuum in the establishment of the policies.

5. Describe performance standards for evaluating ESG.

Consortium member agencies are part of the development and implementation of the Pinellas Coordinated Assessment process; ESG subcontractors will use the process for selecting families to enroll in their programs. All ESG participant data is entered in HMIS and the reports are used to track/report on ESG performance. Consortium member agency staffs are part of the System Quality Improvement Committee working to set performance outcome goals and overseeing measurement and reports.

The County evaluates ESG prevention activities by continuously monitoring the agencies selected to administer the CHAP program to ensure that CHAP program and ESG guidelines are being followed. In addition, before reimbursement can be made verification will be required including certification of homelessness, lease documents, and income calculations, as well as cancelled checks and invoices.

Specific performance agreements are executed each fiscal year with the selected agencies that require quarterly reimbursement requests and timely expenditure of funds. Agencies receiving funding under other components of the ESG program are contractually obligated to either provide the County with, or enter into the HMIS system, data on all people served and all assistance provided with ESG funding.

Discussion

The Continuum of Care is exploring strategies to shorten the period of time families are experiencing homelessness. According to the 'Strategic Homelessness Action Plan for the Pinellas County Area', there is a critical lack of housing units and services for families with children.

Ms. Gajan explained the purpose of requesting such information is to be able to provide citizen input and participation when the County and the City of Largo prepare their Plans.

Ms. Gajan explained that the reason for the meeting was to discuss the Consolidated Plan cycle for housing and community development grants for the FY 24-25. She further stated that there is a consolidated plan process that the County must follow being an entitlement community to have the grants come into the County.

Ms. Gajan further elaborated that the County and the City of Largo do a joint meeting every year to discuss the County and the City of Largo's accomplishments for the closed year, which would be 2022-2023; to provide updates on the funding for 2024-2025; to obtain citizen input on the needs in the community; and to start the Action Plan process for funding that will be available October 1st for the County, as the Urban County, in conjunction with the City of Largo, as a consortium for housing funding.

IV. Explanation of Community Development and Planning Grants/ Process

Ms. Gajan explained that Pinellas County and the City of Largo, as entitlement jurisdictions, annually receive allocations of Federal funding from the US Department of Housing and Urban Development (HUD). Both the County and the City receive CDBG and HOME grant funding. The County additionally receives ESG funds.

The County and the City have a five-year plan called the Consolidated Plan. It is developed with citizen participation to identify what the needs are in the community and goals to address those needs over a five-year period.

Annually, the County and the City must prepare an Annual Action Plan which is the application to HUD for the CDBG, HOME and ESG funding and let them know what is going to be done with the funding. This year, FY23-24, is the fourth (4th) year of the Five-Year Consolidated Plan. Planning happening now is for the 2024-2025 Action Plan which will be the fifth (5th) and final year of the existing Consolidated Plan and then the process will begin for the next Five-Year Plan, next year.

Ms. Gajan explained CDBG, HOME and ESG funding as well as the activity types for which they can be used:

CDBG funding is the least restrictive and has the largest variety of the types of projects that can be funded. These projects fall under the Public Service Operations and Public Facilities categories. The proposed projects simply must meet one of the CDBG national objectives:

- Serve low- and moderate-income - 70% of the funds received must be for projects that benefit or serve low- and moderate-income residents or households in the County, low- and moderate-income is at or below 80% of median income;
- Prevent slum and blight; or
- Address an urgent need.

CDBG can be used for the following activity types:

- Acquisition of property
- Demolition
- Rehabilitation of residential and non-residential structures
- Public facility construction/rehabilitation/energy efficiency improvements - neighborhood centers, facilities that serve L/M persons - such as homeless, special needs, elderly, etc.
- Public facility improvements - infrastructure activities for cooperating cities – water/ sewer facilities, streets, sidewalks, parks, etc. (in LMA or slum/blight areas (CRAs))
- Public services - operational support for neighborhood centers, facilities that serve L/M persons - such as homeless, special needs, elderly, etc.
- Economic development

Ms. Arrow Woodard, Housing Grant Specialist, City of Largo, interjected the fact there are a couple of new federal requirements that will impact the public facility projects. There is now the Build America, Buy America Act (BABA) which requires any construction, alteration, maintenance, or repair project using steel or iron where the total of any federal financial assistance in the project is \$250K or greater, is subject to the BABA where all iron and steel products used in the project must be produced in the United States.

Ms. Gajan transitioned into the explanation of the HOME program. HOME funding is designated specifically for affordable housing. The funding must produce a unit of affordable housing for the benefit of a low- and moderate-income household, at or below 80% of median income. The funding can be used for:

- Acquisition
- Construction of new units
- Rehabilitation of existing units
- Down payment assistance for new home buyers

SHIP and HTF are two additional pots of money included when the County applies for funding as they are large contributors to the ability for the County to meet the housing goals identified.

Ms. Gajan transitioned into the explanation of ESG funding. ESG funding is designated specifically to assist the homeless:

- Homelessness prevention
- Rapid re-housing
- Emergency Shelter: shelter operations, rehabilitation, acquisition, or construction
- Street outreach

A minimum of 40% of ESG funding must be used for homeless prevention and rapid re-housing.

V. Anticipated Funding and Priorities for FY24/25

Pinellas County Presentation

Ms. Gajan stated that the County anticipates receiving approximately:

- \$2.5M in CDBG from entitlement allocations and program income
- \$2.2M - \$2.3M in HOME from entitlement allocations and program income
- A little over \$214K in ESG from entitlement allocations

Ms. Gajan indicated that the final allocations for FY24/25 funding levels may not be known until April or May 2024. For planning purposes, the County will move forward using the funding levels received for FY23/24.

Ms. Gajan informed the attendees that the application cycle started that day, Wednesday, January 10, 2024, and ends on Friday, February 16, 2024. She stated that the Notice of Funding Availability (NOFA) was also in the newspaper and on the County's website.

Ms. Gajan elaborated that the County will be looking to receive applications to address 8 Priority Programs that address the objectives and goals of the Consolidated Plan. All projects receiving funding fall within one of the programs:

- Target Area Improvement Program - (Neighborhood Improvements/Code Enforcement)
 - Greater Ridgecrest Target Area
 - Central Lealman
 - East Lealman
 - Tarpon Springs
 - High Point
- Public Facilities Program
- Public Infrastructure Program
- Public Services Program - Public Services funding is capped at how much money can be spent funding Public Service activities. It is capped at 15% of allocation and 15% of prior year program income.
- Homeless and Homelessness Prevention Services Program
- Housing Preservation Program
- Housing Production Program
- Homeownership Promotion Program
- Emergency/Disaster Response Program

Ms. Gajan informed the attendees that applications must be submitted online through the Neighborly application portal and that the link for the software is available on the County's website and the information was also provided in the NOFA, which was emailed.

Application cycle for Affordable Housing Programs (Down Payment Assistance, Homeowner Repair, Owner/Rental Preservation Programs, Homeownership Opportunities and Services, CHAP-Homeless Prevention) run all year long.

Applications are due Friday 2/16/2024, at 5:00 p.m. The applications must be in system in “application submitted” status by 5:00pm.

Ms. Gajan requested that those planning to submit Public Facility applications keep in mind that Public Facility projects trigger Davis Bacon, a Federal Labor Wage Law which requires certain classifications of workers be paid a federally determined wage. This will cause the cost of the project to be higher than normal. That it is important to ensure that when determining the cost of the project when getting quotes or bids that the contractors are aware that Davis Bacon is going to apply. She also reminded them of the aforementioned new federal requirement of Build America, Buy America Act. She stated that costs change from application submittal to the actual commencement of the construction of the project but to try to keep the requirements in mind when planning so that the estimates are as close as possible when making your funding request.

City of Largo Presentation

Ms. Greene indicated that the City of Largo is anticipating over \$4M in funding and that the majority of the funding will be used for Housing Programs.

Ms. Greene also stated that the City will be putting out a Notice of Funding Availability (NOFA) within the next few weeks. She requested that all interested parties send her an email as provided in the chat as sgreene@largo.com.

LEGAL NOTICE
PINELLAS COUNTY CONSORTIUM AND URBAN COUNTY
2024-2025 ANNUAL ACTION PLAN
Community Development Block Grant, Emergency
Solutions Grant, and
HOME Investment Partnerships Programs

The Pinellas County Consortium has in place a Five-Year (FY2020-FY2024) Consolidated Plan that identifies housing and community development needs, priorities, objectives, and strategies. A one-year Action Plan (FY 2024-2025) has been prepared to address needs identified in the Consolidated Plan. This notice provides a summary of proposed FY 2024-2025 (FY 24-25) projects and funding and locations for reviewing and providing comment on the Action Plan. The Action Plan is subject to final approval by the Pinellas County Board of County Commissioners and the U.S. Department of Housing and Urban Development (HUD).

The Pinellas County Consortium consists of the Urban County and the City of Largo, with Pinellas County serving as administrator of the HOME Investment Partnerships (HOME) program. Currently, the Urban County includes all the unincorporated areas and eighteen cities cooperating in Pinellas County's Community Development Block Grant (CDBG) program. Funding sources of proposed projects are the Pinellas County CDBG and Emergency Solutions Grant (ESG) programs, and the Consortium's HOME program.

Funds projections expected to be available are as follows (the City of Largo is advertising their CDBG funding and proposed projects separately):

| | |
|-----------------|---------------------------------|
| \$ 2,475,188.00 | CDBG Entitlement |
| \$ 1,408,919.00 | HOME Entitlement |
| \$ 214,487.00 | ESG Entitlement |
| \$ 30,000.00 | CDBG Program Income |
| \$ 46,577.84 | CDBG Available Prior Year Funds |
| \$ 825,000.00 | HOME Program Income |
| \$ 2,853,594.00 | Total |

Entitlement allocation amounts identified above are estimated amounts based on current year (FY 23-24) entitlement funding levels. At the time of this notice, HUD has not announced FY 24-25 entitlement allocation amounts.

FY 2024-2025 funds are proposed to be allocated as follows:

- Target Area, Public Facility and Public Infrastructure Improvement Programs**
- YMCA of the Suncoast Greater Ridgecrest Facility Rehabilitation (\$46,436 CDBG)
 - PARC Bert Muller Facility Rehabilitation - Phase 4 (\$352,865.50 CDBG)
 - City of Tarpon Springs Community Center Rehabilitation (\$90,000 CDBG)
 - PARC Burkett Villas Facility Rehabilitation (\$86,791 CDBG)

The proposed projects and award amounts listed above are based on an estimated FY 24-25 CDBG allocation that is equal to the current FY 23-24 CDBG allocation. Should the actual CDBG allocation decrease, funding of affordable Housing Development Programs will be reduced first. Should additional reductions be required, funds will be reduced proportionally from Target Area Enhancement Program, Target Area Land Acquisition/Site Development, and Demolition and Clearance Programs. Should the actual CDBG allocation amount increase additional funds may first be provided to the Public Services Program, YMCA of the Suncoast Omni Center Operations activity and/or Target Area Community Enhancement Program Community Clean-ups activity, up to the public service cap, and then alternate projects identified below may be funded.

- Public Services Program**
- St. Vincent de Paul CARES Operations (\$56,500 CDBG)
 - Seniors in Service of Tampa Bay Operations (\$32,992 CDBG)
 - YMCA of the Suncoast Omni Center Operations (\$235,000 CDBG)
 - Metropolitan Ministries Street Outreach Operations (\$28,572.49 CDBG)

The proposed projects and award amounts listed above for Public Services Program projects are based on an estimated FY 24-25 CDBG allocation that is equal to the current FY 23-24 CDBG allocation. The proposed projects are listed in priority order based on application review scores. Should the actual CDBG allocation decrease, funding will be provided to the projects in the above order, until funds are fully allocated. Should the actual CDBG allocation amount increase, additional funds may be made available to the YMCA of the Suncoast Omni Center Operations and/or Target Area Community Enhancement Program Community Clean-ups activity identified below.

The following proposed project will be funded at the stated funding level regardless of the final CDBG allocation:

- Target Area Community Clean-ups (\$21,000 CDBG)

- Homeless and Homelessness Prevention Services Program**
- ESG Program Components: Homelessness Prevention/Rapid Re-Housing (\$85,794.80 ESG)
 - ESG Program Component: HMIS/Data Collection (\$2,000 ESG)
 - Homeless Leadership Alliance Homeless Management Information System (\$95,378.17 ESG)
 - Metropolitan Ministries Street Outreach Operations (\$15,227.51 ESG)

The proposed Homeless Homelessness Prevention Services projects and award amounts listed above are based on an estimated FY 24-25 ESG allocation that is equal to the current FY 23-24 ESG allocation. Should the actual ESG allocation increase or decrease, the ESG Program Components projects will increase or decrease proportionally or as required by program regulations.

- Housing Preservation, Housing Production, Homeownership Promotion Programs**
- City of Largo Affordable Housing Programs (\$290,492.28 HOME)
 - Affordable Housing Development Programs (\$80,000 CDBG; \$1,720,034.82 HOME)

El Consorcio del Condado de Pinellas cuenta con un Plan Consolidado de Cinco Años (AF 2020-AF 2024) que identifica las necesidades, prioridades, objetivos y estrategias de vivienda y desarrollo comunitario. Se ha preparado un Plan de Acción de un año (AF 2024-2025) para abordar las necesidades identificadas en el Plan Consolidado. Este aviso proporciona un resumen de los proyectos propuestos y la financiación para el AF 2024-2025 (AF 24-25) y las ubicaciones para revisar y comentar sobre el Plan de Acción. El Plan de Acción está sujeto a aprobación final por parte de la Junta de Comisionados del Condado de Pinellas y el Departamento de Vivienda y Desarrollo Urbano de los Estados Unidos (HUD).

El Consorcio del Condado de Pinellas está compuesto por el Condado Urbano y la Ciudad de Largo, con el Condado de Pinellas como administrador del programa de Asociaciones para la Inversión en Vivienda (HOME). Actualmente, el Condado Urbano incluye todas las áreas no incorporadas y dieciocho ciudades que cooperan en el programa de Subvención para el Desarrollo Comunitario (CDBG) del Condado de Pinellas. Las fuentes de financiamiento de los proyectos propuestos son los programas CDBG y de Soluciones de Emergencia (ESG) del Condado de Pinellas, y el programa HOME del Consorcio.

Las proyecciones de fondos esperados disponibles son las siguientes (la Ciudad de Largo está publicitando su financiamiento CDBG y proyectos propuestos por separado):

Attachment F – Written Standards for the Provision of ESG

Written Standards for Provision of Emergency Solutions Grant (ESG)

Pinellas County Housing and Community Development Department

440 Court Street, 2nd Floor Clearwater, Florida 33756

727-464-8210

In accordance with the requirements of 24 CFR 91.220(l)(4)(i) and 576.400(e)(1) and (e)(3), Pinellas County has developed the following written standards for the provision of Emergency Solutions Grant (ESG) funding.

Pinellas County is awarded ESG funds annually from the U.S. Department of Housing and Urban Development as a part of the Annual Action Plan Process. ESG funds are designed to identify sheltered and unsheltered homeless persons, as well as those at risk of homelessness, and provide the services necessary to help those persons quickly regain stability in permanent housing after experiencing a housing crisis and/or homelessness.

Pinellas County will focus on six of the eligible components under the ESG Program: Street Outreach, Emergency Shelter, Rapid Re-Housing, Homelessness Prevention, Data Collection (Homeless Management Information System (HMIS)) and Administration. Pinellas County will identify which eligible components will be funded each year, based on need, in the Annual Action Plan.

ESG funds will be used to address the needs of the individuals and families and decrease the number of homeless and at-risk households who need emergency assistance. The goals are to: 1) improve the number and quality of emergency shelters for homeless individuals and families, help operate emergency shelters, and provide essential services to residents of emergency shelters; 2) prevent individuals and families from becoming homeless by assisting households at-risk of homelessness remain in their housing; 3) rapidly re-house homeless individuals and families living in emergency shelters or uninhabitable places move into stable housing; and 4) provide case management to increase the likelihood of housing stability.

There will be coordination among emergency shelter providers, essential services providers, homelessness prevention and rapid re-housing assistance providers, and other homeless assistance providers to maximize the use of the ESG funding and ensure that there is a coordinated and centralized effort to reach individuals and families in need.

For rapid re-housing, homelessness prevention, and HMIS components of the ESG Program, staff will outreach to various non-profit agencies to provide an awareness of the available funding and opportunity to apply to administer each component. Applications received will be reviewed and scored by County staff based on 1) capacity and related experience to perform the technical functions of each component, including methods of complying with the Federal requirements pertaining to income requirements, property inspections, and rent reasonableness; 2) ability to provide comprehensive case management services and thoroughly analyze the situation of the applicant and their compatibility with the structure of the program; 3) past experience and current capacity of lead agency (if applicable) and/or collaborating agencies to coordinate service delivery, collect and use client data, and knowledge and compliance with Federal regulations; and 4) comprehensiveness of the ancillary support services and referral resources that include broad participation of service providers. Selected agencies (ESG Provider) will contract with the County for funding. ESG Providers will provide housing relocation and stabilization services, including financial assistance, housing search and placement activities and housing stability case management, and determine participant eligibility for the program. ESG Providers will determine the type and amount of assistance being provided as determined by participant needs assessment. All documentation will be submitted to the County for final approval and reimbursement of funds. Additionally, in order to ensure timely expenditure of funds, County may choose at any time to administer the rapid re-housing, homelessness prevention and HMIS components of the ESG Program using County staff.

For the street outreach and emergency shelter components of the ESG Program, staff will seek applications from homeless service providers through an annual competitive application cycle. Applications received from eligible homeless service providers will be reviewed and ESG-eligible street outreach, essential service, shelter operation or shelter renovation activities will be selected for funding based on the County's identified needs and Continuum of

Care's homeless delivery system. Selected agencies will contract with the County for funding. Funding for activities under the emergency shelter component will not exceed sixty percent (60%) of the total annual ESG funding allocation.

Outreach teams and access staff use the Vulnerability Index and Service Prioritization Decision Assistance Tool (VI-SPDAT) to determine the most appropriate housing path. The VI-SPDAT assessment is entered directly from the field into HMIS eliminating the use of paper and to prevent data entry errors. The VI-SPDAT score populates to a Housing Priority List that is managed by the CoC lead who makes referrals to rapid re-housing agencies. Guidelines for VI-SPDAT are as follows:

GENERAL STANDARDS

Coordinated Entry System

ESG funded recipients, with the exception of victim service providers, shall use the coordinated entry system established by the Continuum of Care. Victim service providers may choose not to use the coordinated entry system; however, victim service providers are required to use a centralized or coordinated assessment system that meets HUD’s minimum requirements.

The CoC has determined that the VI-SPDAT (Vulnerability Index – Service Priority Decision Assessment Tools) will be the standardized assessment tool for Pinellas County. The VI-SPDAT tool must be used by ESG funded Rapid Rehousing providers to determine the appropriate intervention to address the episode of homelessness and the prioritization of individuals and families for assistance based on the severity of their service needs and the length of time homeless. Clients can choose a less intensive housing intervention in collaboration with case management.

The VI-SPDAT is required to be conducted upon intake into: Emergency Shelter, Transitional Housing, Rapid Rehousing and Permanent Supportive Housing. Outreach workers shall conduct a VI-SPDAT on homeless persons engaged. Providers conducting the VI-SPDAT assessment are required to enter that information into HMIS. Ongoing training and support will be provided to all CoC and ESG funded providers in the assessment, prioritization, and placement process.

The County is currently working with the CoC to finalize a Homelessness Prevention Coordinated Assessment process to be used as a standardized assessment tool for homelessness prevention programs in Pinellas County. Specific Community Development Block Grant Certifications

The Entitlement Community certifies that:

Citizen Participation -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

Community Development Plan -- Its consolidated plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that have been developed in accordance with the primary objective of the CDBG program (i.e., the development of viable urban communities, by providing decent housing and expanding economic opportunities, primarily for persons of low and moderate income) and requirements of 24 CFR Parts 91 and 570.

Following a Plan -- It is following a current consolidated plan that has been approved by HUD.

Use of Funds -- It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include CDBG-assisted activities which the grantee certifies are designed to meet other community development needs having particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available (see Optional CDBG Certification).

2. Overall Benefit. The aggregate use of CDBG funds, including Section 108 guaranteed loans, during program year(s) 2024 [a period specified by the grantee of one, two, or three specific consecutive program years], shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period.

3. Special Assessments. It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108 loan guaranteed funds, by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

In addition, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

Excessive Force -- It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and

2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction.

Compliance with Anti-discrimination laws -- The grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) and the Fair Housing Act (42 U.S.C. 3601-3619) and implementing regulations.

Lead-Based Paint -- Its activities concerning lead-based paint will comply with the requirements of 24 CFR Part 35, Subparts A, B, J, K and R.

Compliance with Laws -- It will comply with applicable laws.
