Subject: RE: Grants Database - Resilient Florida Program

Hello Tom,

OMB has no objection to *Utilities* submitting a grant application to the **Florida Department of Environmental Protection** for the **Resilient Florida Program** grant which will benefit the County by reducing the community's risk to natural hazards as well as increase operational resilience through Utilities building hardening and mobile home park wastewater collection system improvements.

This is a **multi-year competitive** grant project that will likely impact FY24-26. The total **requested funding is \$3,360,000.00** with **\$3,360,000.00 expected match, and \$3,445,237.00** being made available from the Utilities Enterprise Fund. The total project is estimated to cost \$10,165,237.00.

Based on the thresholds for delegated approval, this grant application will require **Board** approval to apply. Please route the grant application through Legistar / Granicus ( [based on the Grants Granicus Approval Flowchart](#)) to receive **Board** approval. Please include this email when you send the application through Legistar / Granicus.

Once the application approval is complete, apply for the grant. **Good Luck!**

In the event you receive the award, please [follow these instructions](#) to execute the grant agreement. If you have any questions, do not hesitate to contact me. Thank you!

Hi Tom,

I see that the fiscal year you indicated are listed as FY24-FY26, but the duration as single year. Did you mean to list the project as a single year, or are FY24, FY25, and FY26 going to be affected?
