Construction	26,766,004.00	Other	2,676,600.40
Total Direct Cost	29,442,604.40	Total Indirect Cost	\$0.00
		Total Non-Federal Funds	\$0.00
		Total Federal Funds Awarded	29,442,604.40
		Total Approved Budget	29,442,604.40

This agreement is subject to applicable USDA NRCS statutory provisions and Financial Assistance Regulations. In accepting this award or amendment and any payments made pursuant thereto, the undersigned represents that he or she is duly authorized to act on behalf of the awardee organization, agrees that the award is subject to the applicable provisions of this agreement (and all attachments), and agrees that acceptance of any payments constitutes an agreement by the payee that the amounts, if any, found by NRCS to have been overpaid, will be refunded or credited in full to NRCS.

Name and Title of Authorized Government Representative Juan Hernandez State Conservationist	Signature	Date
Name and Title of Authorized Recipient Representative Dave Eggers Chair, Pinellas County Board of County Commissioners	Signature  	Date June 16, 2026.

NONDISCRIMINATION STATEMENT

The USDA's Non-Discrimination Statement is incorporated by reference and can be accessed at the following location: <https://www.usda.gov/non-discrimination-statement>.

PRIVACY ACT STATEMENT

ATTEST: KEN BURKE, CLERK

By: 

APPROVED AS TO FORM
By: 
Office of the County Attorney

above statements are made in accordance with the Privacy Act of 1974 (5 U.S.C. Section 522a).

Statement of Work

Purpose

The purpose of this agreement is for the United States Department of Agriculture, Natural Resources Conservation Service, hereinafter referred to as the "NRCS," to provide technical and financial assistance to the County of Pinellas, hereinafter referred to as the "Sponsor," for EWP Program Project No. 5084 (Hurricane Milton) in Pinellas County, Florida, for implementation of recovery measures that if left undone, pose a risk to life and/or property.

Objectives

The design and installation of Emergency Watershed Protection (EWP) program measures as detailed in the individual Damage Survey Reports (DSRs) and described below.

- MIL-PIN-002 (12-13-26-5084-034) – Bank stabilization – Sponsor design – Pinellas County: \$2,201,413
- MIL-PIN-003 (12-13-26-5084-035) – Bank stabilization – Sponsor design – Pinellas County: \$5,343,715
- MIL-PIN-004 (12-13-26-5084-036) – Bank stabilization – Sponsor design – Pinellas County: \$3,824,736
- MIL-PIN-005 (12-13-26-5084-037) – Bank stabilization – Sponsor design – Pinellas County: \$4,478,987
- MIL-PIN-006 (12-13-26-5084-038) – Bank stabilization – Sponsor design – Pinellas County: \$7,167,942
- MIL-PIN-007 (12-13-26-5084-039) – Bank stabilization – Sponsor design – Pinellas County: \$3,749,211

Total Estimated construction cost: \$26,766,004

Budget Narrative

The official budget described below will be considered as the total budget as last approved by the Federal awarding agency for this award.

Amounts included in the Budget Narrative are estimates. Reimbursement will be based on actual expenditures not to exceed the amount obligated.

Total Estimated Project Budget: \$29,442,604.40

The budget includes:

Financial Assistance (FA) Costs:

Construction Costs (100% NRCS \$26,766,004.00 + 0% Sponsor \$0.00): \$26,766,004.00

Technical Assistance (TA) Costs:

100% NRCS (10% of total construction costs): \$2,676,600.40

1. NRCS pays up to 100 percent of eligible construction costs and Sponsor pays 0 percent of construction costs. NRCS will contribute up to 10 percent of the total eligible construction costs for administration and technical services. It is possible that technical and administrative costs will exceed this amount, requiring the Sponsor to contribute resources to complete technical and administrative work. Construction, administrative, and technical costs incurred prior to the sponsor and NRCS signing this agreement are ineligible and will not be reimbursed, nor will such costs qualify as Sponsor cost-share.

2. NRCS funding for this project is provided to the Sponsor in two separate NRCS funding accounts: one account for financial assistance (FA) and one for technical assistance (TA). FA costs are associated with construction activities; TA costs are associated with services. These expenditures shall be accounted for separately for expenses to be eligible for reimbursement.

3. NRCS will provide FA for actual costs as reimbursement to the Sponsor for approved on-the-ground construction costs, subject to the limits listed. If costs are reduced, reimbursement will be reduced accordingly. Construction costs are associated with the installation of the project measures including labor, equipment, and materials.

4. NRCS will provide TA reimbursement to the Sponsor for technical and administrative costs directly charged to the project, subject to the limits listed. If costs are reduced, reimbursement will be reduced accordingly. These costs shall include:

- a. Engineering costs include, but are not limited to, developing a project design that includes construction drawings and specifications, an Operation and Maintenance Plan, a Quality Assurance/Inspection Plan, and an engineer's estimate of

the project installation costs in addition to providing necessary quality assurance during construction.

b. Contract administration costs include, but are not limited to, soliciting, evaluating, awarding and administering contracts for construction and engineering services, including project management, and verifying invoices and record keeping.

5. The Sponsor will contribute funds toward the total construction costs in either direct cash expenditures, the value of non-cash materials or services, or in-kind contributions. The value of any in-kind contribution shall be agreed to in writing prior to implementation.

Responsibilities of the Parties:

SPONSOR RESPONSIBILITIES

If inconsistencies arise between the language in the Statement of Work (SOW) in the agreement and the General Terms and Conditions, the language in the SOW takes precedence.

1. Perform the work and produce the deliverables as outlined in this SOW.
2. Comply with the applicable version of the General Terms and Conditions.
3. Accomplish construction of the EWP program project measures by contracting, in-kind construction services, or a combination of both.
4. Ensure and certify by signing this agreement that its cost-share obligation is from a non-Federal source.
5. Acquire adequate real property rights (land and water) and acquire permits and licenses in accordance with local, State, and Federal law as necessary for the installation of EWP program project measures at no cost to NRCS prior to construction. This includes any rights associated with required environmental mitigation. Costs related to land rights and permits are the Sponsor's responsibility and are ineligible for reimbursement.
6. Accept all financial and other responsibility for excess costs resulting from their failure to obtain, or their delay in obtaining, adequate land and water rights, permits, and licenses needed for the project.
7. Provide the agreed-to portion of the actual, eligible, and approved construction cost. These costs may be in the form of cash, in-kind construction services, or a combination of both. Final construction items that are eligible construction costs will be agreed upon during the pre-design conference. These costs are amounts from contracts awarded to contractors and eligible Sponsor in-kind construction costs for materials, labor, and equipment. The Sponsor shall provide NRCS documentation to support all eligible construction costs. Construction costs incurred prior to the Sponsor and NRCS signing this agreement are ineligible and will not be reimbursed, nor will such costs qualify as Sponsor cost-share.
8. Be responsible for 100 percent of all ineligible construction costs and 100 percent of any unapproved upgrade to increase the level of protection over and above that described in the DSR and the approved plans and specifications.
9. Account for and report Financial Assistance (FA) and Technical Assistance (TA) expenditures separately in order for expenses to be eligible for reimbursement. NRCS funding for this project is provided to the Sponsor in two separate NRCS funding accounts, one for FA and one for TA, requiring this separation. Separate itemization of FA and TA costs are required on form "Request for Advance or Reimbursement" (form SF-270).
10. Cost share must be documented on each Federal Financial Report (form SF 425) and payment request as it is provided by the Sponsor or third party. The required cost share ratio must be met by the end of the agreement period of performance; however, it does not have to be maintained for every payment request.
11. Must maintain written standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award, and administration of contracts. No employee, officer, agent, or board member with a real or apparent conflict of interest may participate in the selection, award, or administration of a contract supported by the Federal award. A conflict of interest includes when the employee, officer, agent, or board member, any member of their immediate family, their partner, or an organization that employs or is about to employ any of the parties indicated herein, has financial or other interest in or a tangible personal benefit from an entity considered for a contract. An employee, officer, agent, and board member of the Sponsor may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors. Reference 2 CFR § 200.318 regarding standards of conduct covering conflicts of interest and governing the performance of employees engaged in the selection, award, and administration of contracts.
12. For in-kind construction services (materials, labor, and/or equipment supplied by the Sponsor), develop a Plan of

Operations describing the construction services to be performed, including estimated quantities and values. The Plan of Operations shall be concurred by NRCS prior to construction. In-kind construction services for equipment shall not exceed published FEMA equipment rates (current as of the date of agreement execution) unless otherwise documented and concurred in advance by NRCS.

13. The following documentation is required to support the Sponsor's request for reimbursement of in-kind construction services.

- a. Invoices covering actual costs of materials used in constructing the eligible EWP program project measures.
- b. Records documenting the type, quality, and quantities of materials actually used in constructing the eligible EWP program project measures.
- c. Daily time records for each employee showing name, classification, wage rate, hours, and dates employed for constructing the eligible EWP program project measures.
- d. Equipment operating records showing the type and size of equipment, hourly rate, actual hours of operation and dates used to install the eligible EWP program project measures. Equipment idle time is not eligible as in-kind construction services, even if on the job site, and should not be included in the equipment operating records.

14. Ensure that any special requirements for compliance with environmental and/or cultural resource laws are incorporated into the project.

15. Must secure (at its own expense) all Federal, State, and local permits and licenses, and any necessary natural resource rights required for completion of the work described in this agreement. Provide copies of all permits and licenses obtained to NRCS.

16. Will arrange and pay for any necessary location, removal, or relocation of utilities, including temporary utilities. EWP program regulations prohibit NRCS from reimbursing the Sponsor or otherwise paying for any such costs, nor do the costs qualify as a Sponsor cost-share contribution.

17. Ensure that technical and engineering standards and specifications of NRCS are adhered to during construction of the project as interpreted by the NRCS Program/Technical Contact for this agreement. Provide the NRCS Government Representative progress reports every two weeks after execution of the agreement. Progress reports should include status of survey, design, or permitting; technical on-site inspections of work accomplished for the period; work planned for the next progress period; results of material tests; deficient work products and/or tests, with corrective actions taken; modifications anticipated; technical problems encountered; contractual issues; and any other relevant information for each damage survey report (DSR). Failure to provide timely progress reports may jeopardize the sponsor's opportunity for a time extension, if needed.

18. Ensure that all contractors on NRCS-assisted projects are performing their work in accordance with OSHA regulations and the Contract Work Hours and Safety Standards Act (40 USC 3701-3708) as supplemented by Department of Labor regulations (29 CFR Part 5). The Sponsor is responsible for periodically checking the contractor's compliance with safety requirements.

19. Provide PE-certified as-built drawings and quantities for the project. A copy of the as-built drawings will be submitted to the NRCS Government Representative. A PE certification is not required for debris removal only sites. For the purposes of this agreement, as-built drawings are considered the original construction drawings, with changes noted in red.

20. Ensure that information in the System for Award Management (SAM) is current and accurate until the final Federal Financial Report (form SF-425) under this award or final payment is received, whichever is later. Payments will not be processed during the time the SAM registration is expired. Processing will only occur when the SAM registration is active.

21. Take reasonable and necessary actions to dispose of all contractual and administrative issues arising out of the contract(s) awarded under this agreement. This includes, but is not limited to, disputes, claims, protests of award, source evaluation, and litigation that may result from the project. Such actions will be at the expense of the Sponsor, including any legal expenses. The Sponsor will advise, consult with, and obtain prior written occurrence of NRCS on any litigation matters in which NRCS could have a financial interest.

22. Must indemnify and hold NRCS harmless to the extent permitted by State law for any costs, damages, claims, liabilities, and judgements arising from past, present, and future acts or omissions of the Sponsor in connection with its acquisition and management of the EWP program pursuant to this agreement. Further, the Sponsor agrees that NRCS will have no responsibility for acts and omissions of the Sponsor, its agents, successors, assigns, employees, contractors, or lessees in connection with the acquisition and management of the EWP program pursuant to this agreement that result in violation of any laws and regulations that are now or that may in the future become applicable.

23. Retain all records dealing with the award and administration of the contract(s) for three years from the date of the

Sponsor's submission of the final request for reimbursement or until final audit findings have been resolved, whichever is longer. If any litigation is started before the expiration of the three-year period, records are to be retained until the litigation is resolved or the end of the three-year period, whichever is longer. Make such records available to the Comptroller General of the United States or his or her duly authorized representative and accredited representatives of the Department of Agriculture or cognizant audit agency for the purpose of making audit, examination, excerpts, and transcriptions.

24. Submit requests for a time extension to the agreement (if necessary) in writing no less than sixty (60) days prior to the expiration date of the agreement. The time extension request shall provide a justification for the time extension and be supported by a revised schedule showing the work completed by the requested date. Submit the written and signed request to the NRCS Program/Technical Contact.

25. Submit reports, as outlined in the applicable version of the General Terms and Conditions, to the Government Representative or via e-mail to FPAC.BC.GAD@usda.gov. Email submissions must reference the agreement number in the subject line of the email. Submissions via e-mail must be provided as attachments; documents submitted via weblink or other document services will not be accepted. Reporting frequency is as follows:

Financial Reports (form SF-425): annually

Performance Reports: annually

26. For payment requests, provide a completed "Request for Reimbursement" (form SF-270,) with all documentation to support the request, to the NRCS Government Representative or via e-mail to FPAC.BC.GAD@usda.gov. Payments will be withheld until all required documentation is submitted and completed.

NRCS RESPONSIBILITIES

1. Assist Sponsor in establishing design parameters. Determine eligible construction costs during the pre-design conference.
2. Designate a Government Representative to serve as liaison with the Sponsor and identify that person's contact information with this fully signed and executed agreement.
3. Review, comment, and concur in preliminary and final plans, construction specifications, Operation and Maintenance (O&M) Plan, Plan of Operations (if required), and Quality Assurance Plan (QAP).
4. Make periodic site visits during the installation of the EWP program project measures to review construction progress, document conformance to engineering plans and specifications, and provide any necessary clarification on the Sponsor's responsibilities.
5. Upon notification of the completion of the EWP program project measures, NRCS shall promptly review the performance of the Sponsor to determine if the requirements of this agreement and fund expenditures as agreed have been met.
6. Make payment to the Sponsor covering the NRCS share of the cost upon receipt and approval of form SF-270 and supporting documentation. In the event there are questions regarding the payment request package, NRCS will contact the Sponsor in a timely manner to resolve concerns.

SPECIAL PROVISIONS

1. The furnishing of financial, administrative, and/or technical assistance above the original funding amount by NRCS is contingent on there being sufficient unobligated and uncommitted funding in the EWP program that is available for obligation in the year in which the assistance will be provided. NRCS may not make commitments in excess of funds authorized by law or made administratively available. Congress may impose obligational limits on program funding that constrains NRCS's ability to provide such assistance.
2. In the event of default of a construction contract awarded pursuant to this agreement, any additional funds properly allocable as construction costs required to ensure completion of the job are to be provided in the same ratio as construction funds are contributed by the parties under the terms of this agreement. Any excess costs including interest resulting from a judgment collected from the defaulting contractor, or his or her surety, will be prorated between the Sponsor and NRCS in the same ratio as construction funds are contributed under the terms of the agreement.
3. Additional funds, including interest properly allocable as construction costs as determined by NRCS, required as a result of decision of the contracting officer or a court judgment in favor of a claimant will be provided in the same ratio as construction funds are contributed under the terms of this agreement. NRCS will not be obligated to contribute funds under any agreement or commitment made by the Sponsor without prior concurrence of NRCS.

4. The NRCS State Conservationist may adjust the estimated cost to NRCS set forth in this agreement for constructing the EWP program measures. Such adjustments may increase or decrease the amount of estimated funds that are related to differences between such estimated cost and the amount of the awarded contract or to changes, differing site conditions, quantity variations, or other actions taken under the provisions of the contract.
5. NRCS, at its sole discretion, may refuse to cost share should the Sponsor, in administering the contract, elect to proceed without obtaining concurrence as outlined in this agreement.
6. Once the project is completed and all requests for reimbursement submitted, any excess funding remaining in the agreement will be de-obligated from the agreement.

Expected Accomplishments and Deliverables

1. Prepare design, construction specifications, and drawings in accordance with standard engineering principles that comply with NRCS programmatic requirements; and/or contract/install the designed construction. Any design services will be by a professional registered engineer, except debris removal only sites. Sponsor will obtain NRCS review and concurrence on the design, construction plans, and specifications, prior to construction. The Sponsor must ensure description of work is reviewed, concurred, and approved by NRCS. A copy of the final signed and sealed plans and specifications shall be provided to NRCS, prior to construction.
2. Contract for services and construction in accordance with the Code of Federal Regulations (CFR), 2 CFR § 200.317 through 200.327, applicable State regulations, and the Sponsor's procurement regulations, as appropriate. (See General Terms and Conditions attached to this agreement for a link to the CFR.) In accordance with 2 CFR § 200.327, contracts must contain the applicable provisions described in Appendix II to Part 200. Davis-Bacon Act would not apply under this Federal program legislation.
3. Provide copies of site maps to appropriate Federal and State agencies for environmental review. Sponsor will notify NRCS of environmental clearance, modification of construction plans, or any unresolved concerns as well as copies of all permits, licenses, and other documents required by Federal, State, and local statutes and ordinances prior to solicitation for installation of the EWP program project measures. All modifications to the plans and specifications shall be reviewed and concurred in by NRCS.
4. Prepare and submit for NRCS concurrence an Operation and Maintenance (O&M) Plan, if applicable, prior to construction. The O&M Plan shall describe the activities the Sponsor will do to ensure the project performs as designed. Upon completion of the project measures, the Sponsor shall assume responsibility for operation and maintenance. An O&M plan is not required for debris removal only sites.
5. Prior to construction, submit for NRCS review and concurrence, a Quality Assurance Plan (QAP). The QAP shall outline technical and administrative expertise required to ensure the EWP program project measures are installed in accordance with the plans and specifications, identify individuals with the expertise, describe items to be inspected, list equipment required for inspection, outline the frequency and timing of inspection (continuous or periodic), outline inspection procedures, and record keeping requirements.
6. Provide construction inspection in accordance with the QAP.
7. Arrange for and conduct final inspection of completed project with NRCS to determine whether all work has been performed in accordance with contractual requirements. Provide certification that the project was installed in accordance with the approved plans and specifications, with any changes noted on the as-built drawings. For sites other than debris removal only, the certification must be from a Professional Engineer.

Resources Required

See the Responsibilities of the Parties section for required resources, if applicable.

Milestones

Milestones shall include, but not limited to, the following items:

1. Hold pre-design conference: within 30 calendar days of agreement execution
2. Provide schedule to GR: within 14 calendar days of pre-design conference

3. Obtain permits
4. Survey and design
5. Complete quality assurance and operation and maintenance plans
6. Solicit bids
7. Award contract
8. Administer construction contract, including providing construction inspection as outlined in the QAP.
9. Provide completion certification, to include As-Built Drawings
10. Complete close-out activities: No later than 120 calendar days from agreement expiration.

GENERAL TERMS AND CONDITIONS

Please reference the below link(s) for the General Terms and Conditions pertaining to this award:
<https://www.fpacbc.usda.gov/about/grants-and-agreements/award-terms-and-conditions/index.html>
