Underpinning the County AdValorem Property Tax LIEN is a Non-AdValorem Water District LEVY.

Here is the "twist".

The County has been sold to the Water District recognized in both Resolution and statute law. As I have (previously) displayed in this diagram.

Making the County AdValorem, NOT a Property tax LIEN,

But, a Non-AdValorem Water District LEVY!

Over the next few years the functions that support the County AdValorem tax LIEN will be placed under Water District control, ~~as an unelected body of government.~~

The County AdValorem Tax LIEN will be dissolved and the LIEN will be converted into a Non-AdValorem Water District LEVY, Dissolving the County and Giving rise to the Water District as the new seat of government, as an unelected body of government, Assuming itself as a Power of the Earth, Using the Water Supply to reduce civilization unto Absolute Despotism, as written in the Declaration of Independence.

As based on the Due Process clause of the 14th Amendment, THIS government "rebelliously" has and is using Water as its 2nd Amendment right, using our current Constitution as its medium "Hypocritically" THIS Government is a Bill of Attainder, is a Letter of Marque, is being used as a form of Reprisal..

In hindsight, THIS Government (all of IT) is soon to be seen as an Actual Invasion.

Making neither the County AdValorem nor the Water District Non-AdValorem a valid form of government.

"Wanting its Cake and Eating it too" The County is Driving the Property tax LIEN into a Water District LEVY and is the LEVY going to go dry?"

Taxation without Duly Elected representation is lawless in this country!

And, on December 14 (next month) we will be in Circuit Court Judge Keith Meyers chambers at 4pm to discuss this "Levy" that is being racketeered and Conspired on the AdValorem.

"Us the People" got setup, Constitutionally!
