Management and Budget

27. Resolution approving expanded Pinellas CARES programs.

Resolution No. 20-163 adopted approving the programs.

Following introductory remarks by Mr. Burton, Strategic Performance Manager Aubrey Phillips, Office of Management and Budget, referred to a PowerPoint presentation and provided background information and updates regarding the use of the \$170.1 million in Federal Coronavirus Aid and Relief Economic Security (CARES) Act funds received by Pinellas County. She indicated that the funds support the Pinellas CARES programs, which are grant programs designed to help address the COVID-19 impact on Pinellas County residents and businesses and support public health response measures.

Noting that CARES Act funds must be expended by December 30, Ms. Phillips presented a recommendation to use the remaining amount to support nonprofit attractions and cultural facilities, as well as local government COVID-19 mitigation and response, expanding the use from the Federal Emergency Management Agency (FEMA) local match to certain COVID-19 expenses.

In response to queries by Commissioner Eggers, Ms. Phillips clarified that the projected expense for the expansion of nonprofit attractions and cultural facilities is driven by input from the Convention and Visitors Bureau (CVB) and engagement with those impacted. Mr. Burton noted that reimbursement is based upon criteria that was created by conducting outreach to various cultural facilities; and that FEMA rules have changed, and while there are some costs FEMA can still reimburse, the County and cities will receive reimbursement for FEMA ineligible expenses from the CARES program after assessment of the utilization of all the other programs. Ms. Phillips indicated that agreements with entities or cities for reimbursement must be in place prior to December 30; and that staff is closely watching for a decision at the federal level regarding flexibility of reimbursement, and discussion ensued.

Responding to queries by the members, Mr. Burton clarified that expansion of local government COVID-19 mitigation and response includes reimbursement to the County, schools, and independent fire districts. Ms. Phillips related that there may be revisions to the projections for both the individual assistance and nonprofit partnership programs; and that the new programs are not in progress, but program development has been completed. She related that the proposed expansion for impacted nonprofit organizations is for museums and cultural attractions that were not addressed in existing programs; and that the total cost of the program is projected to be \$3.2 million, noting that the arts businesses that requested COVID-19 relief received the funds via the local business grant program instead of through the nonprofit category, and discussion ensued.

In response to queries by Chair Gerard and Commissioner Justice, Ms. Phillips indicated that there are two separate programs that seek to support different types of nonprofit organizations; and that the new program is administratively feasible within the required time frame due to the CVB's assistance in creating a pre-qualified list of eligible entities. She noted that developing a program for higher education organizations would be difficult to achieve in the given time frame, and Mr. Burton provided input.

John's Pass Update

Mr. Burton provided an update regarding efforts to mitigate the sand accumulation in John's Pass. He related that communications have been ongoing for many years with the City of Madeira Beach and property owners; that Commissioner Long recently conducted a meeting with the Corps of Engineers, Department of Environmental Protection, Florida Department of Transportation (FDOT) Secretary David Gwynn, City officials, County staff, and private property owners to discuss how to approach the issue; that the Corps of Engineers indicated that it would not approve extending the jetties; and that the County will lead a study to determine where the sand is coming from, how to keep the problem from occurring every year, how to maintain the sand, and how to fund efforts moving forward. He noted that the study will take six months; and that, with the expertise of Ms. Levy and the County's environmental management team, the County's leadership in the study is an appropriate role.

In response to query by Commissioner Peters, Mr. Burton clarified that all partners have collectively agreed to fund the study; that an assessment of what each partner will pay has

not been completed yet; and that the study is expected to cost approximately \$30,000.00. Commissioner Seel stated that she would not be in support of funding the study until the City solves the unsafe situation of the shoal. Commissioner Peters concurred, and discussion ensued.

Responding to queries by Commissioner Justice, Ms. Levy related that Hurricane Eta cleared out the sand accumulation under the bridge and, as a result, the shoal is non-existent; that Hubbard's Marina is the only business that has indicated impact from the sand accumulation, specifically on its wet well system; and that FDOT and the City have outfalls into the area where they have to periodically remove sand.

Mr. Burton indicated that there was a City effort pertaining to the study criteria; and that it will be refined and the funding commitments put in place; whereupon, Ms. Levy noted that there may be a slight delay in the start of the study, as staff is currently focused on completing damage assessment and profiles of the beaches to send to the Army Corps of Engineers.

Gladys Douglas Hackworth Property Update

Mr. Burton provided an update on the progress in preserving the Gladys Douglas Hackworth Property, indicating that County staff continues to meet with the City of Dunedin; that the City and the Sierra Club have been helping to obtain private funds and smaller grants, respectively; and that since state funds are being requested, two assessments must be completed for the property by two separate assessors from an approved list, which is the current stage of the process and should be completed in about 30 days. He related that the assessments are based upon the current entitlements on the property; that the property would have to annex into the City of Dunedin for access to utilities; that staff is in ongoing communication with the estate; and that if the County decides to financially participate in the acquisition of the property, a recommendation will be presented to the Board for approval. In response to query by Commissioner Justice, Mr. Burton indicated that, if the property is purchased, the next step of determining who will manage and operate the property is being discussed with the City of Dunedin; whereupon, Commissioner Eggers recognized the commendable community effort of Dunedin residents and officials, and discussion ensued.

Responding to query by Commissioner Flowers, Mr. Burton related that the original asking price for the property is thought to be higher than the value of the property with the current entitlements in place.

Public Comment at Regular Meetings

Mr. Burton provided information regarding possible ways to take public comment at meetings and requested feedback from the Commissioners to formulate a plan moving forward. Commissioner Peters indicated that, as long as the emergency order is in place and COVID-19 is a concern, virtual public comment is a necessary safety measure, but not in perpetuity, and several members concurred.

Chair Gerard noted that citizens recording their comments ahead of time may increase the efficiency of meetings. Commissioner Long concurred and noted that, from a recordkeeping standpoint, there may be value in having the information for each speaker in advance.

Commissioner Eggers encouraged staff to explore opportunities for engagement with citizens after the Local State of Emergency is no longer in place, and discussion ensued regarding pre-registration for public comment, with input from Messrs. Zumwalt and Burton. Commissioner Seel expressed concerns regarding voice recordings and advocated for pre-registration, with the deadline as the night prior to a meeting, and Commissioner Peters concurred.

Mr. Burton indicated that the new public comment procedures would not be effective until January 2021 to allow for public notification.

Commissioner Peters suggested that public comment be open for every agenda item, except for public hearings, instead of on each individual item, and several members concurred. Attorney White advised that public comment for quasi-judicial hearing items be taken individually and kept separate from regular agenda items.

Board Records Manager Katherine Carpenter related that a dedicated voicemail account for BCC meetings was implemented in April 2020; and that the voice recordings are vetted by her staff and uploaded to Legistar under the appropriate agenda item as part of the record, and discussion ensued.

Thereupon, Mr. Burton noted that staff will take the feedback under advisement, write procedures, and present them to the Board at the next work session for further discussion.
