Hello, I am unable to attend today's meeting, but I wanted to let you know my thoughts regarding the Resolution for 100% Renewable Energy for Pinellas County. It is imperative that we as a county set targets to achieve 100% renewable energy use now. We have all seen the increasingly frightening news on climate change. Just Monday, 8/9/21, the Intergovernmental Panel on Climate Change detailed how catastrophic impacts make our future look horrific. We do not have time to spare. That is why I am writing to implore you as our county officials to act now. Please set targets for 100% renewable energy use for our municipalities and our communities. Time is running out for all of us, and responsible citizens have no alternatives to action- strong determined action- now. Thanks for allowing my comments, Kathy Smith 2231 Lark Circle East, # D Palm Harbor, FL, 34684
