**Subject:** [BULK] Reduce the number of marijuana dispensaries allowed in Pinellas County  
**Importance:** Low

I am writing to urge the county to reconsider the number of dispensaries allowed in unincorporated Pinellas County as determined by the proposed ordinance. As commissioners I urge you to examine the impact marijuana dispensaries have had in states with similar laws and carefully craft regulations that minimize program abuses.

Research done by the marijuana industry suggests one dispensary per 67,222 residents. The state used this report to determine the number of licensees and other counties have used it to determine the number of dispensaries allowed to operate in their jurisdiction.

I urge you to consider using this research and amend the ordinance to reflect that equation. With approximately 280,848 residing within unincorporated Pinellas County, the more appropriate number of operating dispensaries would be 4 not 14 or 16.

To avoid another pill mill- like scenario, the county should consider limiting the number of marijuana dispensaries.

**Subject:** [BULK] Reduce the number of marijuana dispensaries allowed in Pinellas County  
**Importance:** Low

Dear County Commissioners, I was at Tuesday night's Meeting regarding the ordinance for rolling out medical marijuana. I feel it's important that we learn from other states. Here is a report on a new study that was done and published in the Journal of the American Medical Association:

[http://www.washingtontimes.com/news/2017/apr/26/study-finds-increase-in-illicit-pot-use-abuse-in-s/?utm\\_medium=RSS&utm\\_source=RSS\\_Feed](http://www.washingtontimes.com/news/2017/apr/26/study-finds-increase-in-illicit-pot-use-abuse-in-s/?utm_medium=RSS&utm_source=RSS_Feed)

It's so important that we move very slowly and put all the restrictions we can on growing and dispensing medical marijuana so that it is ONLY being used by those with true debilitating illnesses and not abused by people who are abusing the system so they can get pot. Also, if you want to really understand how this push to legalize pot has truly come to us in ALL the states where it has been pushed, you really have to follow the money. Please see this release about a report you can download on tracking the money:

[http://d3r5by4xdsowev.cloudfront.net/NFIA\\_Tracking+the+Money\\_News+Release\\_031417F.pdf](http://d3r5by4xdsowev.cloudfront.net/NFIA_Tracking+the+Money_News+Release_031417F.pdf)

You cannot be too cautious or restrictive. The few truly sick people who might benefit from medical marijuana will be able to get it--even have it delivered to them. Please close all possible doors that could lead to abuse. It is inevitable that the people behind the push, the guys with the money, have the full intention to legalize recreationally. If you've been to Denver in the last year you can see first hand what has happened to that once beautiful city...we don't want that here. Thank you!!

Kathy Wach

**To:** bccassistants <bccassistants@co.pinellas.fl.us>  
**Subject:** [BULK] Reduce the number of marijuana dispensaries allowed in Pinellas County  
**Importance:** Low

I am writing to urge the county to consider capping the number of dispensaries allowed in Pinellas. As commissioners, I urge you to examine the impact marijuana dispensaries have had in states with similar laws and carefully craft regulations that minimize program abuses.

Research done by the marijuana industry suggests one dispensary per 67,222 residents. The state used this report to determine the number of licensees and other counties have used it to determine the number of dispensaries allowed to operate in their jurisdiction.

To avoid another pill mill- like scenario, the county MUST limit the number of marijuana dispensaries.

Victoria Crocker

YES. The future of our children and our grandchildren and their health, ability to live productive lives and the sanity and health of their own children relies on an absence of drugs esp. the covert sale of marijuana in candies and in other ways. This is criminal activity and I'm sure our Commissioners agree and choose a bright future for their own children and grandchildren.

Thank you

I own several residential and two commercial properties. I can't afford to have my property value decrease as my expenses increase. I do not want to relocate but may have no choice in the matter if pot shops open throughout our county.

Follow the lead of other counties that have made decisions to protect their communities and enforce federal law  
<http://www.rethinkpot.org/tags/zoning>

To avoid another pill mill- like scenario, the county MUST limit the number of marijuana dispensaries.

**Subject:** [BULK] Reduce the number of marijuana dispensaries allowed in Pinellas County  
**Importance:** Low

I am writing to urge the county to consider capping the number of dispensaries allowed in Pinellas. As commissioners, I urge you to examine the impact marijuana dispensaries have had in states with similar laws and carefully craft regulations that minimize program abuses.

Research done by the marijuana industry suggests one dispensary per 67,222 residents. The state used this report to determine the number of licensees and other counties have used it to determine the number of dispensaries allowed to operate in their jurisdiction.

To avoid another pill mill- like scenario, the county MUST limit the number of marijuana dispensaries.

Joy Genudsa

**Importance:** Low

I am writing to urge the county to consider capping the number of dispensaries allowed in Pinellas. As commissioners, I urge you to examine the impact marijuana dispensaries have had in states with similar laws and carefully craft regulations that minimize program abuses.

Research done by the marijuana industry suggests one dispensary per 67,222 residents. The state used this report to determine the number of licensees and other counties have used it to determine the number of dispensaries allowed to operate in their jurisdiction.

To avoid another pill mill- like scenario, the county MUST limit the number of marijuana dispensaries.

Edward Rosenfield

Though this is a pre-written message, I agree with EVERYTHING it says. If we must have these darn things, let's at least keep it to a minimum!!
