Subject: Updated RE: Grants - Intent to Apply Submitted to OMB - Advanced Transportation and Congestion...
Date: Monday, June 11, 2018 3:01:02 PM

OMB has no objection to the department submitting a grant application to the US Department of Transportation, Federal Highway Administration to obtain funding to develop model deployment sites for large scale installation and operation of advanced transportation technologies to improve safety, efficiency, system performance and infrastructure return on investment.

Requested funding is \$7 Million from the Advanced Transportation and Congestion Management Technologies Deployment Initiative grant. A 50% match is required. The County is proposing a \$9,318,600 match (\$5,636,800 of Local Option Fuel Tax; \$1,681,800 of State grants, and \$2,000,000 of programmed non-federal future grants) shown in the draft Capital Improvement Plan for 2019-2028. Total proposed project cost is estimated to be \$16,318,600. The performance period of the grant is 4 years.

The Board of County Commissioners signs off on the application. Please include this email when you send the application through Granicus to be placed on the BCC Agenda for approval.

If you have any questions, please do not hesitate to contact me.

Thank you.
