Dear Sir/Madam,

I live at 14528 110th Terrace, N. Largo, FL 33774. I was informed yesterday by my neighbor of the above-mentioned case taking place in our community development. My neighbor found the notice on [NextDoor.com](#) and kindly shared it with several residents on our street. Had they not shared, this hearing would have taken place without our knowledge, and the outcome could and can be detrimental to our homes, neighborhood and entire community.

While I understand that as residents, we are responsible for gaining this knowledge, we find it to be sneaky and abhorrent that our own legislative representatives would not practice transparency and due diligence in informing the residents of Pinellas County of this case and its possible outcome.

Pinellas County has several plots of land, *away from residential areas* that could potentially accommodate a **120 foot tall tower**.

While several of us are unable to attend this evening's hearing (since we just heard of the matter yesterday), we would like the opportunity to advocate for our community and hear of its potential impacts. How can we learn more? Where can we voice our concerns?

I thank you in advance for your attention to this email, and humbly ask for your assistance in protecting our homes.

Sincerely,

*Lorna Starman*  
*727.269.8177*

We are writing to express our opposition to the proposed building of a communication tower in our community. In addition to the negative effect on our property values, we believe the electro-magnetic fields from this tower and equipment will be harmful to our health. This is especially true for the children.

These towers need to be built in open areas, away from homes.
