BCC Agenda Date 6-21-2022
Your Stand on the Issue Undecided

Comments I still have serious concerns about the current PLANPinellas. I understand that the staff has worked very hard on this, but that, by itself, is not a reason for passage. As this planning process has been existing, acres and acres of trees have been and are being bulldozed--our lungs-- as many say. And stating equity does not ensure equity. In effect, we are carrying on with very few changes from the last plan and will, in effect, continue to burden our environment with loss of natural spaces, inadequate housing and failing road systems. I am disappointed but hope commissioners of the future will create effective guardrails. Thank you for the work you do...
