I require all members on the Pinellas County Board of County Commissioners to please show proof of claim as to why they should not be charged with reckless endangerment of the public health. And, any politician that supports this mandate, I too ask them to show proof of claim that wearing masks are beneficial to our health. Not only that, but i ask any official in local, state, and federal government to please step forward and provide proof of claim that COVID-19 has claimed at least one life. Every politician, board member and elected official is an employee of the people and I am issuing the "People's Order" to break this lockdown because the rules and legislations (NOT laws) have killed more people and claimed more human lives than this so-called "Scamona" a.k.a. Coronavirus ever has or ever will. The PCR-test does NOT test for COVID-19. In plain english: THE TESTS DON'T WORK. THIS IS A SCAM!!! This is my message to the Board of County Commissioners, you are our employees and you have held abusive power long enough and its time to stop.
