Subject: [BULK] Support Marijuana Dispensary Moratorium!
Importance: Low

I am writing to support a moratorium on marijuana dispensaries in Pinellas County. There are many things to consider as the state implements Amendment 2. As commissioners I urge you to examine the impact marijuana dispensaries have had in states with similar laws and carefully craft regulations that minimize program abuses.

I am very concerned about the sale of marijuana infused candies and cookies. These high potency products have been responsible for an increase in emergency room visits in other states. They are often marketed in packaging that is appealing to youth and look nothing like medicine. The county must consider banning marijuana infused candies and adopting marketing restrictions similar to those placed on tobacco.

To avoid another pill mill scenario, the county should consider limiting the number of marijuana dispensaries and zoning them a safe distance from schools, daycare centers and places of worship.

As the state debates on how to implement Amendment 2, the county must enact a moratorium before we end up with a pot shop on every corner. This is very important in order to maintain a safe, clean environment that we enjoy in our county now.

As a property and business owner in Pinellas County I am very concerned that a marijuana dispensary/pot shop will open near my properties. Please limit the number of stores and impose regulations similar to drug stores.

Also, do not allow billboards or other marketing tools in our community with edibles, pictures of plants, or other messages that would be appealing to our youth or imply that marijuana is healthy and organic. Use the tobacco restrictions as a template.

Since this is a cash only business require security guards around the clock to help deter crime.

As the state debates on how to implement Amendment 2, the county must enact a moratorium before we end up with a pot shop on every corner.

Subject: [BULK] Support Marijuana Dispensary Moratorium!
Importance: Low

I am writing to support a moratorium on marijuana dispensaries in Pinellas County. There are many things to consider as the state implements Amendment 2. As commissioners I urge you to examine the impact marijuana dispensaries have had in states with similar laws and carefully craft regulations that minimize program abuses.

I am very concerned about the sale of marijuana infused candies and cookies. These high potency products have been responsible for an increase in emergency room visits in other states. They are often marketed in packaging that is appealing to youth and look nothing like medicine. The county must consider banning marijuana infused candies and adopting marketing restrictions similar to those placed on tobacco.

To avoid another pill mill scenario, the county should consider limiting the number of marijuana dispensaries and zoning them a safe distance from schools, daycare centers and places of worship.

As the state debates on how to implement Amendment 2, the county must enact a moratorium before we end up with a pot shop on every corner.

DRUG FREE FLORIDA COMMITTEE

1000 N. W. 10th St., Suite 100
 Ft. Lauderdale, FL 33304
 Phone: 754.365.1234

County Commissioner Janet Long
315 Court St 5th FL
Clearwater FL 33756-5165

Dear Commissioner Long,

As a longtime Substance Abuse Counselor and Policy Director for the Drug Free Florida Committee, I am deeply concerned about the implementation of Amendment 2. Since Nov. 8th, I've been doing all I can to minimize the damage of Amendment 2's passage by speaking to the media and traveling around the state to educate concerned citizens and activists.

But, as you know, the lion's share of the responsibility will fall to Florida's Legislature and the Department of Health (DOH). With that in mind, I have proposed several suggested actions to the legislature that would limit the damage of this poorly-written law; one of which should be of particular interest to you as a member of local government.

Whether you voted for Amendment 2 or not, I think you will agree with me on this point: the legislature must give cities and counties home rule. Not only is this the right thing to do, but it was also apparently the author's intent.

You see, in the DOH's analysis for the Fiscal Impact Estimating Conference, they estimated Amendment 2 would bring 1,993 marijuana dispensaries to Florida. That would outnumber the amount of McDonald's, Starbucks and 7-Eleven's in our state combined. Obviously, the prospect of nearly 2,000 pot shops was a major point of concern for those of us who were opposed to Amendment 2, and so in every debate, presentation and op-ed I made this estimate known.

When Mr. Morgan and I participated in a live debate on WESH 2 news in mid-October, he anticipated this argument and preemptively made the following promise to voters: "They're going to say there's going to be a pot shop on every corner. That's not true. Any municipality can ban it from their cities or county."

The legislature should not only consider that promise evidence of the author's intent, but also make it a reality so that voters get precisely the amendment they were sold. We must encourage the legislature to take Mr. Morgan at his word and ensure that local governments are expressly given the right to limit, restrict and outright ban pot shops from their communities. Similarly, localities must be rendered immune to any legal attacks launched by marijuana cardholders, the legal pot industry, or even Mr. Morgan himself.

All that to say, please contact your legislators and encourage them to pass legislation that will explicitly give cities and counties the right to limit, restrict and outright ban pot shops from their community.

Sincerely,

Dr. Jessica Spencer

Support

I am writing to support a moratorium on medical marijuana dispensaries in Pinellas County. There is already one dispensary open in Clearwater and many more will be seeking zoning licenses now that Amendment 2 is being implemented. Pinellas County leaders need some time to craft strict zoning rules to protect the health and safety of the community. Otherwise, dispensaries can open anywhere!

Marijuana is a harmful drug especially for teens. Placing appropriate zoning restriction on dispensaries will help prevent marijuana from getting into the wrong hands. These shops are cash only businesses and can attract crime. Marijuana is illegal at the federal level.

Keep in mind that patients in Pinellas County who have a recommendation for medical marijuana will still be able to get their medicine. Medical marijuana can be home delivered and there are several dispensaries open across the state. One is located in Pinellas and two in Hillsborough.

I am very concerned about the sale of marijuana infused candies and cookies. These high potency products have been responsible for an increase in emergency room visits in other states. They are often marketed in packaging that is appealing to youth and look nothing like medicine. The county must consider banning marijuana infused candies and adopting marketing restrictions similar to those placed on tobacco.

To avoid another pill mill scenario, the county should consider limiting the number of marijuana dispensaries and zoning them a safe distance from schools, daycare centers and places of worship.

As the state debates on how to implement Amendment 2, the county must enact a moratorium before we end up with a pot shop on every corner. I'm sure you don't want Tampa Bay to look like California with more pot shops than Starbucks!

Subject: [BULK] Support Marijuana Dispensary Moratorium!

Importance: Low

I am writing to support a moratorium on marijuana dispensaries in Pinellas County. There are many things to consider as the state implements Amendment 2. As commissioners I urge you to examine the impact marijuana dispensaries have had in states with similar laws and carefully craft regulations that minimize program abuses.

I am very concerned about the sale of marijuana infused candies and cookies. These high potency products have been responsible for an increase in emergency room visits in other states. They are often marketed in packaging that is appealing to youth and look nothing like medicine. The county must consider banning marijuana infused candies and adopting marketing restrictions similar to those placed on tobacco.

To avoid another pill mill scenario, the county should consider limiting the number of marijuana dispensaries and zoning them a safe distance from schools, daycare centers and places of worship.

As the state debates on how to implement Amendment 2, the county must enact a moratorium before we end up with a pot shop on every corner.

Please review the data related to driving, ER admissions, etc. from the states where marijuana has been legal in some form (medicinal or recreational) prior to this year.

Subject: [BULK] Support Marijuana Dispensary Moratorium!

Importance: Low

I am writing to support a moratorium on marijuana dispensaries in Pinellas County. There are many things to consider as the state implements Amendment 2. As commissioners I urge you to examine the impact marijuana dispensaries have had in states with similar laws and carefully craft regulations that minimize program abuses.

I am very concerned about the sale of marijuana infused candies and cookies. These high potency products have been responsible for an increase in emergency room visits in other states. They are often marketed in packaging that is appealing to youth and look nothing like medicine. The county must consider banning marijuana infused candies and adopting marketing restrictions similar to those placed on tobacco.

To avoid another pill mill scenario, the county should consider limiting the number of marijuana dispensaries and zoning them a safe distance from schools, daycare centers and places of worship.

As the state debates on how to implement Amendment 2, the county must enact a moratorium before we end up with a pot shop on every corner.
