Sorry, I just noticed that it is incorrect on the table (two above the one you just corrected).

Under Retail Reclaimed Water Rates (Unfunded Systems), the third table:

User Fee Per 1,000 Gallons should also be the \$1.16 for current and then \$1.47 for the remaining four years. It was correct the other day when I proofed but it looks like that got changed to the \$22 each year as well.

Can you correct that too?

I checked all of the other numbers again so everything else is good.

Good Morning,

I have edited one table that had incorrect amounts, it is highlighted (under Retail Reclaimed Water Rates (Funded Systems)) – the user fee per 1,000 gallons.

Also, there is a highlighted header that should be in bold and there should also be a blank row above that header.

Everything else looks ok to me.

Thanks.

I didn't really change anything on the Word document, they were already aligned when I sent to you previously.

Do we have to send a Word document to them or can it be PDF?
