##### *I. Activities requiring permits.*

- (a) No kennel shall operate without having a valid kennel permit issued by the department.
- (b) Pet dealers shall be required to obtain a pet dealer's permit within the time period prescribed by the department, or, alternatively, rather than obtain a pet dealer's permit, the pet dealer may elect to have the dog or cat that gave birth to the litter(s) sterilized.

Failure to obtain a pet dealer's permit within the time period prescribed by the department or to have the dog or cat that gave birth to the litter(s) sterilized within the time period prescribed by the department, shall result in the issuance of a citation by the department.

(c) Hobby breeders are exempt from the provisions of subsection 14-29(I)(b) and (d), and may instead operate under a hobby breeder permit, provided that:

(1) They sell no more than two litters, or 20 animals, per year, whichever is greater, per household; and

(2) They are in compliance with all other provisions of this article and applicable laws relating to animals.

(d) Commercial establishments engaging in the retail sale of dogs or cats must acquire and maintain a valid and current retail sales permit, and operate only within the scope and terms of the permit. A commercial establishment is required to obtain a retail sales permit within the time period prescribed by the department, and in order to qualify, acquire, and maintain a retail sales permit, a commercial establishment must at all times maintain compliance with the requirements of this Code, specifically the section pertaining to the retail sales of animals, as well as any other applicable regulations. No retail sales permit will be issued to any commercial establishment that was not already in operation prior to January 1, 2022. Notwithstanding the foregoing, existing commercial establishments eligible for retail sales permits, will not be issued a permit that expands their operations, including but not limited to a proposed expansion to any new location, or the expansion of the floor space of any premises used by the commercial establishment to conduct retail sales. Existing commercial establishments that are eligible for a retail sales permit pursuant to this Code, may transfer, assign or sell their business provided that the transferee, assignee or new owner meets all applicable legal requirements and maintains a retail sales permit under the same terms in compliance with this Code. Furthermore, an existing commercial establishment eligible for retail sales as provided herein may move its operations to a new location while preserving its eligibility for continued retail sales only when the following requirements are met:

The proposed new location must:

a. Have a total building square footage smaller than the existing location; and

b. Maintain a square footage of retail pet sales floor space that is smaller than the existing location; and

c. Maintain a number of kennels on the sales floor that is a minimum ten percent lower than that of the existing location; and

d. Submit a new permit application and pay the applicable application fee; and

e. Pass the permitting inspection.

II. *Permit procedures.* The following provisions shall apply to permits required by this section:

(a) Any person or entity desiring to operate as a pet dealer, kennel, hobby breeder, or retail sales commercial establishment shall file a permit application with the department on such form as provided by the department and within the timeframe required by the department.

(b) All permit holders and applicants shall provide an update within 15 calendar days of any addition or change of the physical address of the location(s) of all animals being bred or offered for sale.

(c) A permit issued under this section is nontransferable from one entity or person to another or from one location to another.

(d) All permits issued under this section shall be valid for one year.

(e) In order to cover administrative and enforcement costs associated with this section, the board of county commissioners will establish by resolution annual permitting application fees for each permit category. Annual application fees are nonrefundable.

(f) It shall be a violation of this article if the permit holder fails to meet the standards set forth for basic animal care and facility sanitation as established by the department, which standards shall be available on the department's website. A permit holder is responsible for remaining familiar with the most recent standards.

(g) All locations identified by the permit applicant shall be subject to an initial inspection to determine compliance with the department's applicable published standards.

(h) An annual inspection shall be required prior to any permit issuance or renewal. The renewal inspection period shall extend from sixty (60) days prior to the end of a current permit period until the last day of the current permit period. Notice of the renewal inspection period, including a description of the scope and criteria of the inspection, shall be provided no later than ten (10) days prior to a renewal inspection period, and any effort to seek review by a competent jurisdiction of the intended inspection must be initiated before the renewal period begins. The renewal inspection shall be unscheduled, and conducted at any reasonable hour by any animal control code enforcement officer, who shall act in accordance with the renewal inspection period notice and at a minimum shall be given access to and the opportunity to investigate the animals, premises and records of a permit holder to determine compliance with F.S. Chs. 767 and 828, as may be amended, and this article.

(i) Commercial establishments shall be subject to two (2) formal permit inspections annually.

(j) If a permit holder under this section receives an unsatisfactory inspection, a permit may be suspended or revoked. Upon correction of violations and, provided a satisfactory reinspection is completed, a permit may be reinstated for the duration of the permit period for a reinstatement fee, as established by the board of \_\_\_\_\_ county commissioners.

(k) If a permit holder receives an animal cruelty or neglect violation, a citation may be issued at the maximum amount allowed and the permit may be suspended up to seven (7) days pending the outcome of an investigation conducted by the department. A permit suspension can be extended for an additional seven (7) days if a permit holder remains in noncompliance with the alleged violation. During a permit suspension period, an animal control officer will provide a follow-up within three (3) business days to evaluate the permit holders progress towards compliance and provide feedback toward permit reinstatement.

(l) If a permit holder has been convicted of cruelty to animals under any federal, state or local law, a permit may be suspended or revoked.

(m) Any decision by the department to deny, suspend, or revoke the permit of a permit applicant or permit holder may be reviewed by a Pinellas County special magistrate. A permit applicant or permit holder may initiate review by delivering a written request for review of the action to the director by 5:00 p.m. EST on, or before the fifth full business day after the date of the relevant department action. The written notice shall \_\_\_\_\_ include the basis of review and relief sought, as well as any supporting materials which \_\_\_\_\_ the requesting party deems relevant to the issues raised in the request. The special magistrate will issue a decision in writing stating the reason for the determination in the matter, with a copy furnished to the initiating party. The decision shall be final and conclusive as to the county unless a party commences action in a court of competent jurisdiction.

### III. *Additional restrictions pertaining to animal sales by permitted entities.*

(a) Sales subject to this section shall only take place in locations authorized in permits and in no event shall such sale locations be permitted in a public thoroughfare, public common area, parking lots open to the public or flea market.

(b) No person or entity may advertise for the sale of animals, unless such advertisement includes the permit number issued by the department.

For purposes of this section, advertise (or advertisement) includes, but is not limited to, announcements, listings, displays, entries, or other written statements containing the name of the permit holder or identifying the services offered by the permit holder or by a person or entity subject to this section and that are placed in a magazine or periodical, newspaper or inserts, direct mail pieces, audio broadcasting or telephone directory, on the internet, or on vehicles or equipment.

(c) After each sale, pet dealers and hobby breeders shall submit point of sale certificates provided by the department.

IV. *Retail sales of animals.*

(a) Minimum operational standards for commercial establishments.

(1) General requirements for commercial establishments. For the purpose of this section, the word dog means a dog of any age and the word cat means a cat of any age.

a. For each dog and cat transported into the county from outside of the State of Florida for sale, the tests, vaccines, and anthelmintics required by this chapter must be administered by or under the direction of a veterinarian, licensed by the state of origin and accredited by the United States Department of Agriculture, who issues the Official Certificate of Veterinary Inspection (OCVI). The tests, vaccines, and anthelmintics must be administered no more than 30 days and no less than 14 days before the dog or cat's entry into the State of Florida. An OCVI certifying compliance with this chapter must accompany each dog and cat transported into the State of Florida for sale.

b. Each OCVI shall contain records for only one dog or cat.

c. No dog or cat imported into the State of Florida for sale shall be offered for sale without an OCVI issued by a veterinarian licensed in the state of origin.

d. The following tests, vaccines, and anthelmintics must be administered to each dog before the dog is offered for sale in the county, unless a licensed, accredited veterinarian certifies on the OCVI that to inoculate or deworm the dog is not in the best medical interest of the dog, in which case the vaccine or anthelmintic may not be administered to that particular dog:

1. Canine distemper.

2. Leptospirosis.

3. Bordetella (by intranasal inoculation or by an alternative method of administration if deemed necessary by the attending veterinarian and noted on the health certificate, which must be administered in this state once before sale).

4. Parainfluenza.

5. Hepatitis.

6. Canine parvo.

7. Rabies, provided the dog is over four months of age and the inoculation is administered by a licensed veterinarian.

8. Roundworms.

9. Hookworms.

If the dog is under four months of age, the tests, vaccines, and anthelmintics required by this chapter must be administered no more than 21 days before sale within the county. If the dog is four months of age or older, the tests, vaccines, and anthelmintics required by this chapter must be administered at or after three months of age, but no more than one year before sale within the county.

e. The following tests, vaccines, and anthelmintics must be administered to each cat before the cat is offered for sale in the county, unless the licensed, accredited veterinarian certifies on the OCVI that to inoculate or deworm the cat is not in the best medical interest of the cat, in which case the vaccine or anthelmintic may not be administered to that particular cat:

1. Panleukopenia.

2. Feline viral rhinotracheitis.

3. Calici virus.

4. Rabies, if the cat is over four months of age and the inoculation is administered by a licensed veterinarian.

5. Hookworms.

6. Roundworms.

If the cat is under four months of age, the tests, vaccines, and anthelmintics required by this section must be administered no more than 21 days before sale within the State. If the cat is four months of age or older, the tests, vaccines, and anthelmintics required by this section must be administered at or after three months of age, but no more than one year before sale within the State.

f. Every dog and cat offered for sale by a commercial establishment must be accompanied by a current OCVI at all times while being offered for

sale within the county. The examining veterinarian must retain one copy of the OCVI on file for at least one year after the date of examination.

g. Each dog and cat in the possession of a commercial establishment shall be examined by a veterinarian licensed to practice in Florida no more than 30 days before the sale within the county. The examination must include, but not be limited to, an evaluation for possible congenital defects and contagious diseases and a fecal test to determine if the dog or cat is free of internal parasites, including hookworms, roundworms, tapeworms, and whipworms. If the examination warrants, the dog or cat must be treated with a specific anthelmintic. In the absence of a definitive parasitic diagnosis, each dog or cat must be given a broad spectrum anthelmintic. At the conclusion of the examination, the veterinarian shall complete an OCVI including all medical findings, which shall remain current for a period of 30 days. Each dog and cat in the possession of a commercial establishment shall be re-examined by a veterinarian every 30 days and the commercial establishment shall ensure that a current OCVI is completed by the examining veterinarian.

h. Each dog over six months of age must be tested by a veterinarian for heartworms before being offered for sale and the results of the tests must be listed on the OCVI.

i. Each cat must be tested by a veterinarian for feline leukemia before being offered for sale and the results of the tests must be listed on the OCVI.

j. Each dog and cat obtained by the commercial establishment for the purpose of sale shall be examined by a veterinarian licensed in Florida within two business days of the day commercial establishment obtains the dog or cat.

k. No commercial establishment shall possess, offer for sale, sell, transport, or arrange for the transportation of any dog or cat that is less than eight weeks of age.

l. No commercial establishment shall import a dog into the United States in violation of 7 U.S.C. 2148, Importation of live dogs.

m. Except when in coordination with an animal shelter as provided herein, it shall be unlawful for any commercial establishment to display, offer for sale, deliver, barter, give away, transfer or sell any dog or cat from any source that does not hold a valid license issued by the United States Department of Agriculture pursuant to 7 U.S.C. § 2131 et seq., or successor provision of law as of the date such commercial establishment

3. A transporter holding an active license as a carrier or intermediate handler issued by the United States Department of Agriculture pursuant to 7 U.S.C. § 2131 et seq. and regulations promulgated thereunder and who obtained the dog or cat from a breeder who is licensed by the USDA.

n. It shall be unlawful for any commercial establishment to obtain a dog or cat from any source, including but not limited to a breeder or dealer, if the source or, an owner, operator, or employee of the source:

1. Has been convicted of cruelty to animals under any federal, state or local law.

6. That has received a finally determined citation for failure to provide a United States Department of Agriculture inspector access to property, animals or records as required by 9 CFR § 2.126,

unless a subsequent inspection has been performed at which no direct or indirect violations were found by the inspector.

7. That has received three or more finally determined noncompliance citations for violations other than "direct" noncompliance or a violation of 9 CFR § 2.126 at any time during the prior three years.

8. That has received a finally determined repeat noncompliance citation at any time during the prior three years.

9. That has received a finally determined cease and desist order pursuant to 7 U.S.C. § 2149 at any time during the prior three years.

4. For each dog or cat, list all tests performed, the results of all tests performed, all vaccines and deworming medications administered, including the manufacturer, vaccine, type, lot number, expiration date, and the dates of administration thereof.

5. State that the examining veterinarian warrants that, to the best of his or her knowledge, the dog or cat has no sign of contagious or infectious diseases and has no evidence of internal or external parasites, including coccidiosis and ear mites, but excluding fleas and ticks.

6. State whether the examining veterinarian has detected any physical abnormalities or congenital defects in the dog or cat including but not limited to a heart murmur, an umbilical hernia, entropion, an inguinal hernia, patellar luxation, and cryptorchidism.

7. Be completed in a legible manner.

An OCVI that does not meet the above-cited requirements shall not comply with this chapter. The commercial establishment shall ensure that the OCVI is properly completed with all relevant information.

r. All dogs and cats offered for sale by a commercial establishment shall be implanted with an electronic animal identification device (EAID).

(b) Records.

(1) Each commercial establishment shall maintain the following written records on each dog and cat offered for sale for a period of two years after disposition of each dog and cat:

a. The name, address, USDA license number and state and local license number, if applicable, of every breeder, dealer, intermediate handler and carrier that has owned, possessed or handled the dog or cat.

f. A complete record of any medical treatment or medication provided to or recommended for each dog or cat by a veterinarian and any medical diagnosis made by a veterinarian concerning each dog or cat up to the

point of sale. If such information is contained in an OCVI, the OCVI shall be sufficient; if not, the commercial establishment shall obtain a copy of each dog or cat's medical records from the veterinarian.

g. A record of any known disease, illness, or congenital or hereditary condition that adversely affects the health of the dog or cat at the time of sale or is likely to adversely affect the health of the dog or cat in the future.

h. For a period of two years from the disposition of each dog and cat, the commercial establishment shall maintain records specifying the date and nature of disposition of each dog and cat and the name, address, and phone number of the purchaser and owner (if different than the purchaser) of each dog or cat.

i. By the 15th day of the month, each commercial establishment shall provide the department via electronic portal with the following records for each dog and cat sold, disposed of or that died during the previous month:

1. A copy of each OCVI that has been completed for such dog or cat;

k. If any dog or cat dies while in the possession of a commercial establishment, the commercial establishment shall report the death to the department within three (3) business days. Any dog or cat that dies while being treated by a veterinarian or person at the request of the commercial establishment shall be considered in the possession of the commercial establishment at the time of death.

The dog or cat shall be sent to an accredited unaffiliated agency or unaffiliated licensed veterinarian for a necropsy to be performed. The commercial establishment shall provide a copy of the necropsy to the department within three (3) business days of completion, except that a necropsy may not be required if the animal was under the care of a licensed veterinarian who previously diagnosed the cause of death. Within 15 days following the death of a dog or cat, the commercial establishment shall provide the department with records reflecting the date and cause of the dog or cat's death. The commercial establishment shall maintain a copy of such record for a period of two years from the date of the dog or cat's death.

*(c) Notices and disclosures to purchasers.*

(1) Each commercial establishment shall post conspicuously on the cage or enclosure of each dog and cat offered for sale all the OCVI's issued to the animal, and post a copy of Florida's Pet Lemon Law or notice of where to obtain a copy of Florida's Pet Lemon Law.

"Notice to consumers: Before purchasing a dog or cat you may request information concerning each dog or cat's health, medical history, and the source from which the dog or cat was obtained. Upon your request, the commercial establishment is required to show you these records before you purchase a dog or cat and to give you a copy of these records when you purchase a dog or cat."

(3) At the time of sale, each commercial establishment shall provide the purchaser with a written notice in 12-point or greater type stating:

a. Pursuant to the Pinellas County Code, every owner of a dog or cat is required to obtain a license tag for each dog and cat from the Pinellas County Animal Services or an authorized veterinarian. The license tag must be renewed every year, and proof of an up-to-date rabies vaccination is required to obtain or renew a license tag.

The Pinellas County Board of County Commissioners has determined that the unintended or uncontrolled breeding of dogs and cats leads to pet overpopulation at great expense to the community and that every feasible means of reducing the number of unwanted dogs and cats should be encouraged. The Department shall have the authority to establish an alternative written disclosure form that includes the essential elements of the written notice provided herein.

(4) At the time of sale, each commercial establishment shall deliver to the purchaser of each dog and cat a written disclosure(s) containing all of the information required above pertaining to records. The commercial establishment shall provide all of the above-cited written disclosures containing all of the information required to the prospective purchaser of each dog or cat for review prior to the purchase upon request. (d) *Warranties for dogs and cats.*

(1) A dog or cat that is purchased from a commercial establishment shall be considered unfit for purchase if any of the following apply:

a. Within 14 days following the sale of a dog or cat by a commercial establishment a licensed veterinarian of the purchaser's choosing certifies that, at the time of the sale, the dog or cat was unfit for purchase due to illness or disease, the presence of symptoms of a contagious or infectious disease, or the presence of internal or external parasites, excluding fleas and ticks.

b. Within one year following the sale of a dog or cat, a licensed veterinarian of the purchaser's choosing certifies such dog or cat to be unfit for purchase due to a congenital or hereditary disorder that adversely affects the health of the dog or cat.

c. Within one year following the sale of a dog or cat, the breed, sex, or health of such dog or cat is found to have been misrepresented to the purchaser.

(2) If a dog or cat is unfit for purchase for any of the above-cited reasons, the commercial establishment shall afford the purchaser the right to choose one of the following options:

a. The right to return the dog or cat and receive a refund of the purchase price, including the sales tax, and reimbursement for reasonable veterinary costs directly related to the veterinarian's examination and certification

that the dog or cat is unfit for purchase pursuant to this chapter and directly related to necessary emergency services and treatment undertaken to relieve suffering;

b. The right to return the dog or cat and receive an exchange dog or cat of the purchaser's choice of equivalent value, and reimbursement for reasonable veterinary costs directly related to the veterinarian's examination and certification that the dog or cat is unfit for purchase pursuant to this section and directly related to necessary emergency services and treatment undertaken to relieve suffering; or

c. The right to retain the dog or cat and receive reimbursement for reasonable veterinary costs for necessary services and treatment related to the attempt to cure or curing of the dog or cat.

Reimbursement for veterinary costs may not exceed the purchase price of the dog or cat. The cost of veterinary services is reasonable if comparable to the cost of similar services rendered by other licensed veterinarians in proximity to the treating veterinarian and the services rendered are appropriate for the certification by the veterinarian.

d. The refund or exchange required by this chapter shall be made by the commercial establishment not later than ten business days following receipt of a signed veterinary certification as required in this chapter. The purchaser must notify the commercial establishment within a reasonable time after the veterinarian's determination that the animal is unfit and must provide the commercial establishment with a copy of the written certification of unfitness.

e. A dog or cat may not be determined unfit for sale on account of an injury sustained or illness contracted after the purchaser takes possession of the dog or cat. A veterinary finding of intestinal or external parasites is not grounds for declaring a dog or cat unfit for sale unless the dog or cat is clinically ill because of that condition.

f. If a commercial establishment wishes to contest a demand for veterinary expenses, refund, or exchange made by a purchaser under this section, the commercial establishment may require the purchaser to produce the dog or cat at a mutually agreed upon time and place for examination by a licensed veterinarian designated by the commercial establishment. Upon such examination, if the purchaser and the commercial establishment are unable to reach an agreement that constitutes one of the options set forth in this chapter within ten business days following examination by the commercial establishment's designated veterinarian, the purchaser may initiate an action in a court of competent jurisdiction to recover or obtain reimbursement of veterinary expenses, refund, or exchange.

g. No commercial establishment shall require or attempt to require a purchaser to sign a contract or agreement to waive any of the rights provided by this chapter.

h. This chapter does not in any way limit the rights or remedies that are otherwise available to a purchaser under any other law.

i. Each commercial establishment shall provide the purchaser of a dog or cat at the time of sale with the written notice required by F.S. § 828.29(12), which shall be provided in 12-point or greater type.

j. No commercial establishment shall require the purchaser of a dog or cat to use the commercial establishment's veterinarian in order to receive a refund or exchange required by this chapter.

k. If a purchaser requests a refund or requests to return or exchange a dog or cat pursuant to this chapter, each commercial establishment shall maintain all records related to the purchaser's request for a period of two years from receipt of such records and shall deliver a copy of the purchaser's request to the Department within seven days of receipt.

## **DIVISION 2. ADMINISTRATION AND ENFORCEMENT**

### **Sec. 14-46. Enforcement of article.**

(a) The department of animal services is designated as the agency of the board of county commissioners to implement, enforce, and administer the provisions of this article, except as otherwise provided by this article.

(b) It shall be a violation of this article to resist, obstruct, or oppose an animal control code enforcement officer while in the lawful performance of his duties, or with anyone who may be assisting in the performance of such duties.

(c) Any person who willfully refuses to sign and accept a citation issued by a law enforcement officer or animal control code enforcement officer, shall be in violation of this article.

(d) The board of county commissioners may contract with any state chartered nonprofit humane organization to carry out the duties in this article or any part thereof. Such organizations shall carry out the duties pursuant to the provisions prescribed in this article; failure to do so shall result in the board of county commissioners assuming such duties or contracting with another organization to assume such duties. Compensation may be provided in an amount adequate to fulfill the prescribed duties.

### **Sec. 14-47. Fees and charges; administration of article.**

Fees and charges relating to licensing, adoption, impoundment, service fees and such other fees deemed necessary to accomplish the purposes of this article will be established from time to time by the board of county commissioners. The director is authorized to establish programs and procedures as are deemed necessary to accomplish the purposes of this article. These include, but are not limited to, enforcement actions, vaccination programs, measures to deal with kennel hazards, education programs, population control programs, licensing procedures, and the implementation of emergency procedures in the event of a disease outbreak or a state of emergency, as defined by section 34-36 of this Code. The director, with approval from the county administrator or designee, is authorized to waive or modify, but not to increase, the fees established by the board of county commissioners, in connection with such programs in order to promote the success or participation in those programs, or as specifically directed by the board of county commissioners.

### **Sec. 14-48. Impoundment.**

(a) The department of animal services and its animal control code enforcement officers, law enforcement officers and humane officers of state chartered nonprofit humane organizations having been lawfully appointed, shall have authority to pick up, catch or procure and impound any animal found to be in violation of this article, any animal infected or believed to be infected with rabies or other contagious or infectious disease to humans or animals, or any animal suspected of biting a human, in such manner as is reasonably necessary to effectuate its capture. Impounded animals shall be confined in a humane manner at an animal shelter. Animals impounded at an animal shelter shall be made available for public inspection in order to allow the owner to reclaim their animal. An animal impounded for the purpose of rabies observation shall not be moved or released from the place of quarantine unless permission is first obtained from the director. The director may approve an exception as to the above-required place of confinement for dogs, ferrets, or cats having a current rabies vaccination administered by a veterinarian.

(b) Unless otherwise provided by this article:

(1) An impounded animal with a license or other owner identification shall be held for at least seven days, including the day of impoundment;

(2) Impounded dogs over 16 weeks in age without such identification shall be held for four days, including the day of impoundment.

(3) Impounded dogs under 16 weeks in age without such identification shall be held for one day, including the day of impoundment;

(4) Impounded cats over 16 weeks of age without such identification shall be held for two days, including the day of impoundment.

(5) Impounded cats under 16 weeks of age without such identification shall be held for one day, including the day of impoundment.

(6) Dogs, ferrets or cats impounded for the observation of rabies shall be held at least ten days.

The depositing of a letter of notification by first class U.S. mail shall constitute adequate notification of impoundment. The owner shall also be notified by telephone, if possible. This section shall not apply to animals surrendered by the owner or an agent of the owner, in which case disposition may be made as provided in this article without notification or a holding period. At the expiration of the holding period, during which time a diligent attempt has been made to locate and contact the owner, disposition of the animal may be in accordance with this article.

(c) A 14-day holding period may be imposed upon all animal shelters, humane organizations, rescue groups or foster homes for domestic animals with owner information or that bear positive owner identification in the form of an identification tag, license tag, microchip, rabies tag, or tattoo, which are impounded during a state of emergency within the county or those animals

which are transferred to the county from any area where a state of emergency has been declared by competent authority. The holding period will be 14-days for domestic animals that do not bear any of the aforementioned forms of positive owner identification which are impounded during a state of emergency within the county, or those animals which are transferred to the county from any area where a state of emergency has been declared by competent authority. These requirements may be invoked by the director based on the nature of the state of emergency and its aftermath.

(d) For violations of this article, an owner may be subject to a written warning or such penalties as prescribed in this article, in addition to or in lieu of impoundment of the animal.

(e) Every owner who voluntarily surrenders an animal must provide photo identification and sign a form acknowledging that the surrender is voluntary and acknowledging that disposition of the animal is in the discretion of the department. The department shall not be liable for the disposition of any voluntarily surrendered animal after receipt of the animal from its owner. The animal shall be immediately available for adoption, placement or other appropriate disposition once surrendered. Owners surrendering animals shall be responsible for paying an intake fee, and should the animal(s) not be current on vaccination required by the county, rabies vaccination fees shall also be paid by the owner wishing to surrender his/her animal(s). Owners wishing to surrender an animal with the request for euthanasia shall be allowed to do so at the discretion of the department. It is not the policy or practice of the department to supply "on-demand" euthanasia procedures, but in the interest of relieving a suffering animal, the department may provide the service for a fee or at no charge, at its sole discretion. Notwithstanding the foregoing, such fees shall not apply to any animal surrendered to the department by veterinarian or boarding kennel, pursuant to F.S. § 705.19, as may be amended. No owner-surrendered or stray animals from outside the department's jurisdiction shall be accepted except for humane reasons; such animals shall be referred to another agency. The photo identification of the owner/person wishing to surrender an animal that shows an address outside of the department's jurisdiction shall be used as the origin of the animal. If an animal is accepted for humane reasons from an owner or person living outside of the department's jurisdiction, a fee equal to the average cost(s) of all services provided shall be charged.

#### **Sec. 14-49. Adoption, redemption and disposition of animals.**

(a) The disposition of all animals, which have been impounded or rescued by the department shall be determined in accordance with the provisions of this article as provided below:

(1) Within the holding period, animals may be redeemed by the owner or his/her agent upon the payment of any fees or costs associated with the impoundment. If the animal is a dog or cat which is unlicensed, it is necessary for the owner to obtain a license before redeeming the animal. Owners or agents of dogs or cats which have license or microchip shall be required to submit a statement of ownership in addition to obtaining a license, microchip and paying all associated fees and costs prior to the animal being redeemed.

(2) If not redeemed within the holding period, disposition of animals may be by humane euthanasia or offered for adoption to any qualified person, upon payment of the adoption

fee and, if applicable, such other costs associated with the impoundment. Animals that appear to be severely diseased or injured and suffering, and those animals medically determined to be suffering from a contagious or infectious disease that could constitute a hazard to other animals or humans may be euthanized at the discretion of the director, or his or her designee, at any time.

(3) All dogs and cats placed for adoption shall be vaccinated, licensed, and sterilized before custody is relinquished to the new owner.

(4) Those animals which have passed medical and behavior screening, but have not been adopted, may be offered to state chartered nonprofit humane organizations for the purpose of providing adoptions of such animals. Fees and costs may be waived for the disposition of animals in this manner.

(b) The disposition of an animal may not be to any medical school, college, university or person for experimentation or vivisection purposes, or to any person providing, selling, or supplying animals to any medical school, college, university or person for experimentation or vivisection purposes.

(c) It shall be unlawful for any person in the county to harbor or keep any stray or apparently lost animal unless he/she has notified the department within 48 hours from the time such animal came into his/her possession. Upon receiving such notice, the department may require the person to bring the animal to the department for identification or sheltering, if necessary. It shall be unlawful for any person to refuse to surrender any such stray animal to an authorized representative of the department upon demand of such representative.

(d) Adopting found stray animals. The department at its sole discretion, may permit residents who possess a stray dog or cat and who wish to provide it a permanent home, to legally become the owner of such animal by adhering to the following procedures:

(1) Take the found stray animal to the department to be scanned for an electronic animal identification device (EAID) and checked for a tattoo. An exception to this requirement is for the potential adopter to take the dog or cat to a local veterinarian or another animal shelter to be scanned for an EAID and checked for a tattoo. Proof must be presented to the department that these requirements have been met.

(2) Provide the department with clear identifying color photographs showing the animal from a side view and a front view. It is also required that the potential adopter place a "found" advertisement in at least one social media platform.

(3) Complete an official department "found" form which provides all appropriate identifying information for the animal.

(4) If the animal becomes injured or sick while under the potential adopter's care, that person shall be required to pay all necessary veterinary expenses. If the adopter does not wish to pay for the needed treatment, the animal must be relinquished to the department. The potential adopter shall lose all rights and claims to the animal.

(5) All potential adopters must agree to relinquish the found dog or cat to its rightful owner after proof of ownership has been demonstrated and/or until such time as the department approves and releases the animal to the new adopter. All potential adopters will also relinquish the found dog or cat to the department upon request.

(6) A person may become the licensed owner of such an animal pursuant to this section, provided the following requirements are also met:

- a. Photographs and identifying information of the animal have been posted in an official department found report for 30 calendar days;
- b. The animal has been given a rabies vaccination and county license;
- c. The animal has been sterilized; and
- d. The animal has been implanted with an electronic animal identification device (EAID). The requirements herein must be secured at the adopters expense no sooner than 30 calendar days and no later than 45 calendar days after the department receives an official department found report. Extensions may be granted by the department for reasonable requests. Any deviation from these adoption requirements by the potential adopter will void the adoption.

At its discretion, the department may refuse an adoption of an animal if it is determined that the adoption is not in the best interest of the animal or the health, safety and general welfare of the public.

#### **Sec. 14-50. Sterilization.**

(a) All dogs and cats adopted from the county shall be sterilized by a veterinarian before adoption, except when a veterinarian determines that sterilization would endanger the animal's health due to its age, infirmity or illness.

(b) A dog which is impounded two times while at large within a 24-month period shall be sterilized before it may be redeemed for the second time, except when the department's staff veterinarian determines that the sterilization would endanger the animal's health due to its age, infirmity or illness.

(c) For the purposes of controlling pet overpopulation and ensuring all animals adopted from the county are sterilized in an expeditious manner, the county shall be considered the legal owner of: all stray dogs that remain in the shelter three days after intake/impound (i.e., on the third day sterilization may take place) unless positive, traceable ownership may be indicated by a registered microchip, city tag or private id tag; and all stray cats upon intake/impound unless positive, traceable ownership may be indicated by a registered microchip, city tag, other form of traceable permanent identification, or private identification tag. The county is hereby authorized

to perform sterilization procedures on any animal any time after it becomes county property, such ownership provisions shall not affect the holding periods established in section 14-48.

The dog or cat must be vaccinated as soon as its health improves sufficiently to tolerate the vaccine, an exemption that extends beyond 12 months must be renewed annually through submission of a new exemption letter. No exemption letter shall be deemed valid after one year from the date it was written.

(4) The certificate shall be approved and supplied by the board of county commissioners. The department will establish, from time to time, an official tag for licensed animals. No other license and rabies certificate or tag shall be valid in the county, except as otherwise provided under this article. The certificate shall provide space for pertinent data for identification of the animal. The license tag shall consist of a serially numbered piece of metal or other material bearing the same number as the certificate. All dogs and cats shall be required to wear a tag, except as otherwise provided under this section. The person to whom a dog or cat license has been issued shall cause the tag to be securely fastened by a substantial device about the animal's neck so as to be clearly visible at all times. county commissioners. In lieu of the tag, owners of cats may choose a breakaway collar or an alternate form of identification, as approved by the department.

A fenced area is not sufficient enclosure for the purpose and intent of this subsection.

#### **Sec. 14-64. Dangerous dogs.**

(a) The purpose of this section is to implement the provisions of F.S. ch. 767, part II, dangerous dogs, as may be amended, and the definitions and provisions of which are incorporated herein, as may be amended. Furthermore, it is unlawful for the owner of the dog to permit the dog to be outside a proper enclosure of a dangerous dog unless the dog is muzzled and restrained by a substantial chain or leash and under the control of a competent person over the age of 18. The muzzle shall be made in a manner that will not cause injury to the dog or interfere with its vision or respiration but shall prevent it from biting any person or dog. When being transported, such dogs shall be safely and securely restrained within a vehicle. The provisions of this section shall apply pending the outcome of the investigation and resolution of any hearing or appeals related to the dangerous dog classification. The address of where the

In the event that any animal control code enforcement officer is investigating whether a dog is or may be dangerous and has cause to believe that the owner is unable or unwilling to securely confine the dog pending a final determination, the animal control code enforcement officer may impound the dog pending the investigation, or any hearing or appeals regarding the dangerous dog classification, if deemed necessary to protect the public. If the dog is subsequently classified as dangerous by the animal control authority and such classification is appealed, it shall remain impounded pending final resolution.

(5) Compliance with dangerous dog requirements. The owner of a dog classified as a dangerous dog shall comply with all time frames and requirements provided by law.

(b) *Dangerous dog requirements.*

The owner may obtain microchips from the department, if available, at the fee set by resolution. The microchip number will become the dangerous dog registration number.

b. The dog shall be spayed/neutered unless a veterinarian has examined the dog and certifies, in writing (with a copy provided to the department within such 14-day period), that at such time spaying/neutering the dog would endanger its health. Under the circumstance, the dog shall be spayed/neutered as soon as its health permits.

c. The owner shall display a sign on his or her property warning that there is a dangerous dog on the premises. Said sign shall be clearly visible from all entry points and inform both children and adults of the presence of a dangerous dog on the property. (c) *Responsibilities of dangerous dog owners.* The owner (or keeper, if other than owner) of a dangerous dog shall:

(1) Renew the dangerous dog registration annually.

(2) Ensure that the dog, while on the owner's property, is securely confined indoors, or securely confined in a proper enclosure of a dangerous dog. At any time that a dangerous dog is not so confined, the dog shall be muzzled and restrained in such a manner as to prevent it from biting or injuring any person or dog, and kept on a substantial chain or leash by a person able to exercise control over the dog. The muzzle must be made in a manner that will not cause injury to the dog or interfere with its vision or respiration but will prevent it from biting any person or dog. However, the foregoing requirements of this subsection do not apply:

a. When the dog is in attendance at and participating in any dog show, contest, or exhibition not prohibited under F.S. § 828.122, as may be amended, and sponsored by a dog club, association, society, or similar organization.

b. While the dog is being transported within the cab or passenger portion of any motor vehicle, provided the vehicle has a roof, and the dog cannot escape through an open window.

c. When the owner is exercising the dog in a securely fenced or enclosed area that does not have a top, provided that the dog remains within the owner's sight and only member of the immediately household or persons 18 years of age or older are allowed in the enclosed or fenced area when the dog is present.

(3) Notify the department immediately if the dangerous dog becomes loose, unconfined, attacks, or bites a human being or another dog, dies, is sold, or is given away. In the event of the dog's death, the owner shall provide to the department satisfactory evidence (as determined by the department) of the dog's death. If the dangerous dog is sold or given away, the owner shall provide to the department the name, address, and telephone number of the new owner of the dangerous dog. The new owner shall, within 14 calendar days after receiving the dog, execute a new document to be supplied by the department,

acknowledging that he or she is aware of the dangerous dog classification, and agreeing that the new owner shall comply with all of the requirements of this article.

(4) Notify the department immediately if the owner believes that the dangerous dog has been stolen. The owner must, concurrently with that notification, report the theft to the appropriate local law enforcement authority and provide the official police report to the department.

(5) Notify the department immediately if the owner moves to another address with the dangerous dog, which notification shall identify such address.

(6) Have the dangerous dog destroyed in a humane manner at his or her sole expense by the department or veterinarian, if the owner is unable or unwilling to comply with all applicable requirements and mandates contained in this article.

(d) *Surrender of dangerous dog.* The owner of a dangerous dog must surrender the dangerous dog to the department if the owner is unable or unwilling to comply with the requirements of this article.

(e) *Inapplicability to law enforcement dogs.* This article shall not apply to dogs owned and used by a law enforcement agency.

**Sec. 14-65. Reserved.**

**Sec. 14-66. Reserved.**

**Sec. 14-67. Hearings.**

(a) *Hearing officer.* There is hereby created for the purposes of this article the position of hearing officer. Said hearing officer shall be a Pinellas County special magistrate.

(b) *Burden of proof.* The department shall bear the burden of establishing that a dog is dangerous by a preponderance of evidence. The owner shall bear the burden of establishing any factual or legal defense to the classification of dangerousness by a preponderance of evidence.

(c) *Hearing procedures.* These procedures govern hearings before a hearing officer as provided in this article. Such hearings shall provide an opportunity for the owner to be heard. All hearings shall be conducted in accordance with the Florida Rules of Civil Procedure and the Florida Evidence Code, except as otherwise stated herein. However, the hearing shall be conducted in an informal manner to the extent practicable. Each party shall be afforded the following rights:

(1) To be accompanied, represented, and advised by counsel;

(2) To offer the testimony of witnesses and examine opposing witnesses on relevant matters; and

(3) To present his or her case by oral or documentary evidence.

(d) *Evidence.*

(1) In any hearing before a hearing officer, irrelevant, immaterial, or unduly repetitious evidence shall be excluded. All other evidence of a type commonly relied upon by reasonably prudent persons in the conduct of their affairs shall be admissible, whether such evidence would be admissible in a trial in the courts of the state. Any part of the evidence may be received in written form, and all testimony of parties and witnesses shall be made under oath. Hearsay evidence may be used for the purpose of supplementing or explaining other evidence, but it shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions.

(2) A party shall be permitted to conduct cross-examination when testimony is taken, or documents are made a part of the record.

(3) The rules of privilege shall be effective to the same extent that they are recognized under state law.

(e) *Written determinations of the hearing officer.*

(1) After conducting a hearing, the hearing officer shall issue a determination within 20 calendar days of the hearing.

(2) All determinations of the hearing officer shall be in writing, signed, and dated by the hearing officer, shall contain findings of fact and conclusions of law, and shall be served upon the owner by registered mail, certified hand delivery (signed receipt), or service in conformance with the provisions of F.S. ch. 48, as may be amended, relating to service of process.

(f) *Obligation to pay hearing officer's fee; deposit.* The non-prevailing party shall be responsible for paying the hearing officer's fee in full. When filing a written request for a hearing, the owner shall provide a deposit in the amount established by resolution as security for payment of the hearing officer's fee. If the owner prevails in the hearing, the deposit shall be returned in full. If the owner does not prevail, and the hearing officer's fee exceeds the deposit, the owner shall pay the difference within ten business days after written demand is made by the hearing officer or department. If the owner does not prevail, and the deposit exceed the hearing officer's fee, the department shall return the excess deposit to the owner within ten business days after paying the hearing officer's fee.

(g) *Failure to appear before hearing officer.* Once a hearing is scheduled, failure to appear before the hearing officer may, at the discretion of the hearing officer, result in dismissal of the hearing with prejudice, in which case the initial classification by the department shall stand and the dog shall be classified as aggressive or dangerous.
