Description & Comments

(What is it, any issues found, is there a financial impact to current/next FY, does this contract vary from previous FY, etc.)

This is for the approval and execution by the Purchasing Director of the First Amendment with Tetra Tech, Inc Thompson Consulting Services, LLC, Rostan Solutions, LLC, True North Emergency Management for the requirements of disaster debris monitoring and management services. The amendment allows for an increase of \$4,818,490.00 for a revised not-to-exceed total value of \$6,000,000.00 collectively among all vendors, so when a disaster is upon Pinellas County there is not a cap of required funds for whichever firm is mobilized to manage the disaster debris monitoring at that time. The debris monitoring services will be provided during emergencies and/or disasters, such as but not limited to, hurricanes and red tide events in accordance with Federal Emergency Management Agency rules.

Funds for this expense associated with the contract will be from funds derived from contingency reserves, however, a portion of the costs incurred may be offset with reimbursement from FEMA under hurricane/emergency project ID's.
