

**Pinellas County Local Mitigation Strategy (LMS) Working Group**  
**Intent to Apply: Hazard Mitigation Grant Program (HMGP) Application for Hurricane Milton**

Applicant Name	Project Name*	LMS Goal Project Addresses	LMS Objective Project Addresses	Estimated Total Project Cost	HMGP Funds Requested**	Is 25% Match Currently Funded?	Is project currently listed in the LMS?***
Pinellas County Public Works	Cross Bayou Phase 1	Minimize Riverine or Inland Flooding Losses in the 25, 50, and 100-year Flood Zone	Property Protection	\$5,493,334	\$4,120,000	Yes	Yes

**Project Description (Include how the project will address the Goal and Objective identified above.)**

Watershed project to improve conveyance through Cross Bayou Canal, which has a history of significant and widespread flooding. This project which will help alleviate some of this flooding as well as reduce the duration, in both Cross Bayou and the contributing tributaries. The project scope will include channel dredging, restoration, and bank stabilization to aid in becoming a more disaster resilient community and minimize inland or Riverine flooding losses.

\*If the project is already listed in the LMS, please use the same project name as what is shown in Table D-1 Mitigation Initiatives

\*\*Note that applicants can only request a maximum of 75% of the total project cost unless seeking a Global Match (Global Match process is explained in the Notice of Funding Availability)

\*\*\*If the project is not currently listed in the LMS, please include the Project Scoring Sheet provided as an email attachment along with this form.
