## **Department Purpose**

Human Services facilitates access to critical supportive programs and services across Pinellas County. Through both direct administration of programs and coordination with a broad array of contracted partners, the department seeks to support services, capacity, and community solutions to promote health and stability. Human Services strives to protect consumers, connect veterans to benefits and resources, expand justice system supports, reduce homelessness and housing instability, improve access to health and behavioral health resources, fight food instability, support local emergency response, and coordinate with local system partners for program development, service planning and continuous improvement.

## **Topics for Discussion**

- Design and procurement for the Optimal Data Set (ODS) and the Behavioral Health Coordinated Access Model (CAM) were completed this fiscal year for implementation in FY23.
- Work continues with partners to improve contracted service delivery and opportunities to meet the needs of our most vulnerable citizens, including:
  - The future development of Drug Court dashboards across all divisions
  - Reviewing of Public Defender Jail Diversion clients
  - Complex case coordination between Safety and Emergency Services and Human Services
- Opioid Epidemic: Current efforts allow the department to work collaboratively with partners to pursue grants and initiatives to implement a range of local behavioral health and Opioid mitigation efforts to respond to community impacts. Examples include:
  - Working closely with Safety and Emergency Services to acquire funding to combat the ongoing Opioid crisis by creating Quick Response Teams.
  - Coordinating with local service providers on a new grant award to establish a Complex Case Reintegration Program designed to provide intensive case management and warm service connections for justice-involved individuals including substance use treatment, housing support, workplace readiness, and ongoing service navigation.
  - Developing a community dashboard to help improve the information available to community partners and the Opioid Task Force for data-driven decision making
  - Working with community partners on the development and implementation of a local syringe exchange program that, while not county-funded, required the development of local infrastructure to allow for operation to help mitigate the spread of infectious disease.
  - Pursuing the implementation of Pinellas County Empowerment Team (PCET) 2.0 designed to build on the lessons learned from the original PCET pilot while striving to provide intensive case management with recovery-oriented treatment plans to achieve stabilization of clients who demonstrate higher acuity.
  - Working with hospital partners to pilot the Pinellas Matters program designed to improve pathways from hospitals to services and medication assisted treatment for individuals with substance user disorder.

## HUMAN SERVICES

- Continuing collaborations with the Pinellas Integrated Care Alliance, which includes Central Florida Behavioral Health Network, Pinellas County Sheriff's Office, the Juvenile Welfare Board and the Florida Department of Health Pinellas.
- Human Services has reinitiated the Juvenile Justice Citizens Academy to help engage citizens in navigating justice resources.
- Human Services has underway in FY22 a replacement information system designed to support operations across services to help unify efforts toward data-driven service delivery with ongoing data analytics. This project is planned as part of the American Rescue Plan Act (ARPA) funding.

### **Proposed Changes to User Fees for FY23**

There are no proposed changes to user fees for FY23. User fees for Consumer Protection were reviewed with no changes recommended.

### **FY23 Decision Points**

- Behavioral Health Coordinated Access Model Implementation (AUTO – 437), Non-Recurring, \$1.3M, ranking #1.
  - Second phase implementation of the Behavioral Health Coordinated Access Model under the plan for *Elevating Behavioral Health in Pinellas*. Under this phase, KPMG will work with stakeholders to provide direct, co-management support for four stages of implementation 1) Project Management and Vendor Support, 2) Performance Monitoring, 3) Testing and 4) Expansion support
  - Phase one was a \$1.1M contract with KPMG, with an estimated expenditure in FY22 of \$790,000, with completion occurring in FY23.
- Cost of Operations Increase for Non-Profit Organizations (AUTO – 438), Recurring, \$313,930, ranking #2. (This is an increase to the base funding amount.)
  - Pinellas County Human Services is requesting a decision package in the amount of 5% for non-profit organizations that are funded through general fund appropriations. This excludes programs and services that have been recently competitively procured, funded by federal/state or local grants, and/or have negotiated increases in their existing contract for services. The total allocated for these operating costs is currently \$6,278,468.

### **Budget Summary**

The Human Services Department revenues excluding General Fund support totals \$7,181,670, an increase of \$1,103,010, or 18.1% compared to the FY22 budget. The overall budget increase is largely associated with a rise in Federal Grants within Intergovernmental revenues.

Department/ Agency	Revenue Account	2022			2023		
		General Fund	Non- General Fund	Total	General Fund	Non- General Fund	Total
Human Services	Licenses and Permits	\$76,000		\$76,000	\$72,200		\$72,200

\* The Drug Abuse Trust provides financial assistance grants for qualified local drug abuse treatment and education programs.

The Human Services Department expenditures total \$67,879,170, an increase of \$360,600, or 0.53% compared to the FY23 budget. The overall budget increase is mostly related to a rise in personal services costs resulting from annual increases and Career Path and Ladder initiatives.

- Pharmacy costs reflects a decrease of \$658,730 due to a reduction in encounters and specialty prescriptions due to the pandemic. These costs are expected to rebound as clients return to practicing normal healthcare activities.
- Non-contract Specialist costs reflect a decrease of \$751,810 due to a reduction in encounters due to the pandemic. These costs are expected to rebound as clients return to practicing normal healthcare activities.
- Other contractual services within the Justice Coordination program reflect an increase of \$612,800, or 15.7%. This increase is largely related to several new grants being awarded in FY23. Additionally, several grants that were originally awarded in FY22, have been extended into FY23, which has increased the estimated expenditures as more work can be completed than expected.
- The Drug Abuse Trust fund revenues are decreasing \$8,790 or 23.7%, totaling \$28,250 in FY23. Trust Fund expenditures are also decreasing in FY23. The department previously has been awarding more grants than revenues received in this fund with the intent to lower fund balance. For FY23, fund expenditures were lowered due to continued declines in revenues.

Department/ Agency	Expenditure Account	2022			2023		
		General Fund	Non- General Fund	Total	General Fund	Non- General Fund	Total

The additional FTE in FY23 is a grant funded position (added during FY22) that adds administrative and technical support to the health center program. The source of funding being used is the HRSA American Rescue Plan
