As of November 21, Pinellas County Water Utility will NO longer be receiving payments for the water bill, at the Utility.

So exactly: How do I pay my Water Utility Bill?

In addition, How do I pay the Reclaimed Water Facility Fee as it's a 3rd Party Contrivance underpinned on my Utility charges?

And, who shall I complain to in regards of any further "AdHoc" Hedgefund operations compacted in/on my Utility bill?

How do I ^{REFLECT} deny any illicit "UtilityFacility" Compacts further intent to Toll Charge my Essential Water Access.

Because our court system (as established) is either too inept, corrupt or indifferent to address such repugnant political undertakings.

And, our Sheriff ^{OUR COURT SYSTEM} "Looks the other way" as this political lawlessness continues to digress.

Thus, our Sheriff, *is not only allowing* but promoting such political wrongdoing.

Is the Sheriff here to "Serve and Protect" legislative racketeering of our water supply? To promote a political crime spree, allowing the civilian population to be subject to a "constitutional carpetbagging" operation, a bashing, as based on the 14th Amendment?

Being that I live in a "Ready to Serve Zone" exactly how am I intended to serve such a political racketeering scheme?

How do I prevent any "FurtherFuture" AdHoc Hedgefund contrivances from taking hostage my access, to my vital water needs?

How do I protect the Equity in my home from 3rd Party Levies, Levy's intent on subjecting the Equity in my home to finance the contrivance of Storm Water Vaults?

And, when do you begin to levy Directly upon my personhood, Directly taxing my person, as Enumerated from Article 1 section 2 of the US Constitution?

Being that the County Utility no longer receives Utility payment for its water charges, where do I go and Serve payment to your "*wide range of accompaniments*" on your billing practice?

Federalist Paper #30 describes this interwoven billing system ^{OF GOVERNMENT} as the shaping of Bashawas, as a Bashing; Sowing Seeds of Discord, creating irreconcilable deprecation of public trust, Deforming the intended purpose of government, using past political deficiencies to Formulate despotic forms of taxation, today!

And, as the ^{CONSTITUTIONAL} continual plundering of our resources continues, this government Claiming to have complete "proprietary power" over the substenance that enables the motion of life itself, shall be using Bashars to collect your charges for you, ~~claiming to be Natures Gods,~~ as we serve to pay for only having the privilege of having the opportunity to receive "access" to the availability of essential water access as a privilege to access.

This government from its inception to deceive "Constitutionally" has proven to be fallacious and erroneous in principle from day 1, in its Flattery of selfwill!

The legitimacy of this government has atrophied.
