Subject: RE: Grants - Intent to Apply Form Submitted to OMB - Rebuild Florida: CDBG-MIT Program...

Good afternoon,

OMB has no objection to Public Works submitting a grant application to the Department of Economic Opportunity's Rebuild Florida: CDBG-MIT Program.

This is a 10 year reimbursement grant project that that impacts FY22-31. The requested funding is \$33,000,000.00 with no in kind match. The funding source for matching funds has been identified by the department as Fund 3001. The projects associated with this funding request are estimated to cost \$33,000,000.00.

The County Administrator does not need to sign the application for the County as the submission of this application was previously approved (see Granicus/Legistar file 20-1493A).

Please contact me with any questions.

Thank you,

Kristen Pittman

Granting Agency Address:

OPUS Project Title: Joe's Ck Greenway Trail & Imp. of WMP Rec. (004116A); Lealman RSF (003001C)

Duration: Multi Year

Proposed Abstract (Project Scope of Work): Public Works plans to submit a proposal to the DEO Rebuild Florida CDBG-MIT Round-II General Infrastructure Program funding opportunity, for the Joe's Creek Greenway Restoration and Community Trail project, and other flood control / water quality improvement projects recommended in Joe's Creek watershed area. This grant proposal to Round-II program is a time extension request on grant amount approved last year (Granicus # 20-1493A).

Benefit Summary (How will this benefit the Joe's Creek Greenway Restoration (grant request of up to \$33M):

County, Dept, etc?):

This grant proposal to Round II CBDG-MIT Program is for the preliminary engineering, design and construction of the Joe's Creek Greenway Trail, adjacent main channel improvements, regional stormwater facility, and projects identified by the watershed management plan for watershed-wide flood protection, erosion control, and water quality improvements, to minimize risk, improve resiliency, and catalyze redevelopment in the Lealman CRA and other LMI areas of the watershed. These efforts are highly interdependent and will benefit from a coordinated single project approach. Projects include the Joe's Creek Greenway Trail, main channel restoration and lower floodplain creation, Lealman regional stormwater facility, culvert restoration and upgrades, channel improvements, erosion control measures, dry retention, and improvements affecting main channel tributary systems. Other projects include local improvements to stormwater management and roadways in Lealman and Kenneth City, utilizing low-impact development, green infrastructure, and complete streets.

Director Approval (Attach): Yes

Is the proposal submitted for a different Department?: No

If submitting for a different department, what is that department name?:

Concept Paper Deadline (if applicable):

Grant Application Due Date: 9/13/2021
