Does your court system work for "Us the People"?

Or, does it (only) work to support you, "We the People"; as Enumerated, in Article 1 section 2. "InterPositioning" Personal Aggrandizements based on Federalist Paper #16, as legislated.

Is Roe versus Wade (as based on the 14th Amendment) based in truth or reality?

Can someone Explain the "Negative Pregnancy" in Federalist Paper #32, as it pertains to a body politic, regarding its imports and exports?

If the Constitution (as a Body Politic) is based on Maritime Jurisdiction in Article 3 section 2, in recognition of a *Ship of War* in Article 1 section 10, that which is being "Birthed" in the 14th Amendment is a Ship of War, Constitutionally assailed as a "High Seas" Maritime Vessel intent on Birthing such Warship, for the purpose of conducting Actual War, A Ship of War "Birthing" itself as a Despotic Water Jurisdiction, in the 14th Amendment, as legislated.

Does the Supreme Court of the United States "Hen-Peck" its perspective in choosing to ignore POINTBLANK language in the Constitution.

The 1st Amendments gives us the Right to petition the government for a redress of grievances, in particular, to the Disrespect of Religious Establishments; as revealed therein the Reclaimed Water Variance Application ^{ISBA} in its Undistinguished attack upon Christianity, using "WATER" as its Election of Choice.

The Declaration of Independence recognizes the right to abolish or alter such despotism and to throw off such Long Train of Usurpations.

Has the Court system abrogated its primary purpose? Or, juxtaposition itself to serve that which intends to serve itself?

Has the Court System forgotten to read the Danbury Baptist Letter to Thomas Jefferson in 1801?

Or, question why Aaron Burr challenged the "Hipocrisy" of Thomas Jefferson.

Is history repeat itself with another "Bloody Mary" deposing this land of its Despots.

Has the court system "freely" chosen to ignore, The cries of the indigenous Indians of this land and water. Did this government forget about the Hawaiians recently incinerated in Lahaina, remember Rosa Parks, Martin Luther King, Unjust enslavement. And, the Irish who froze while building Chicago brick-by-brick?

And, the Mexicans who were forced off this land and now forced back as migrant slaves in this land, only to have Guatemala, Nicaragua and Honduras overtaken by zealots.

And, the Cubans that have been forced off of their land, only, to have their island invaded by zealots.
