Date/Time/Comments:
VA 6/28/2018 – spoke to Cindy Margiotta – this application is nearly the same as the one approved last year under 17-476A. Both EDA grant applications are for construction of a business incubator. In 2017 the submission to EDA was withdrawn when we could not confirm our matching fund.

NOTES:
 This grant application to the U.S. Economic Development Administration (EDA) is requesting \$9,000,000.00 to design and construct a 40,000 - to 50,000-square-foot purpose-built, state-of-the-art business incubator facility. If awarded, the EDA grant would provide 75% of the project's funding.
 EDA grant funding is a two-step application process. The first step is a proposal. If this proposal is accepted by the EDA, the County would proceed to submit a full grant application within 60 to 90 days. The application will require engineering and environmental analyses to be conducted.
