BOCC Pinellas 2-26-19

The Supreme Justice of this land has Acted Erroneously, "improperly" Exercising Court in an attempt to *formulate* logic to fabricate the Birthing of an (IT).

Roe vs. Wade does not apply to the 14th Amendment, And the Birthing of an "IT".
It is Impossible to adjudicate law based on a pronoun~ "IT".

Constitutionally intercourse "therein", Birthed As a political body/As a Water Jurisdiction, "thereof".

"Politically", this government "IT" is "Constitutionally" at an IM-PASSE !

Encompassing (both) "therein" and "of the state,

This government "therein" and the underlying powers; Intended on rising "thereof", as fact, as a water jurisdiction, as applied, as Constituted, as Declared, as intercourse, as embodied, "IT" has hit-a-Wall of Separation!

It is a "heresy" to think this/our Constitution, ~~As based both therein and thereof on an it.~~
The mere fact, that this constitution is being used as a medium, to gestate the birthing of an "IT", As a DeFacto government in support of Water Despots and Tyrants (as Declared), birthing/giving rise to a New political structure "thereof", Claimed as being Artificial in statute 373.019(15), hoping to "double-down" and re-constitute *itself* in statute 373.715, as a watershed operation, Selling the County to the Water District, in Resolution 95-286 section IV (C-2) and Ordinance 97-103 (section 126-509) ~~seen as an "Absolute Bill of Sale with full Warranties of Title".~~

Attempting to "Usurp" itself!

Using a Fee(simple) title application in statute 380.08 and 127.01,

Sold as a 30year foreclosure process in statute 180.08 and 170.09.

Giving rise to the "Commonwealth" of Mid-Evil England, as Water Despots and Tyrants!

The entire government both *therein* and *thereof* (as legislated) is to be Arrested and Marhalled for "High Seas" crimes of imposter/masquerading/puppeteering as a government. As this/our Government, And "ITS" underlying intent Birthed, *thereof*, is Nothing less than a "Banana Republic" of the British.

Two-wrongs don't make a right!

There is nothing sovereign about this!

<u>Title XXVIII</u> NATURAL RESOURCES; CONSERVATION, RECLAMATION, AND USE	<u>Chapter 373</u> WATER RESOURCES <u>Entire Chapter</u>	SECTION 715 Assistance to West Coast Regional Water Supply Authority.
--	--	--

373.715 Assistance to West Coast Regional Water Supply Authority.—

(1) It is the intent of the Legislature to authorize the implementation of changes in governance recommended by the West Coast Regional Water Supply Authority in its reports to the Legislature dated February 1, 1997, and January 5, 1998. The authority and its member governments may **reconstitute** the authority's governance and rename the authority under a voluntary interlocal agreement with a term of not less than 20 years. The interlocal agreement must comply with this subsection as follows:

(a) The authority and its member governments agree that cooperative efforts are mandatory to meet their water needs in a manner that will provide adequate and dependable supplies of water where needed without resulting in adverse environmental effects upon the areas from which the water is withdrawn or otherwise produced.

(b) In accordance with s. 4, Art. VIII of the State Constitution and notwithstanding s. [163.01](#), the interlocal agreement may include the following terms, which are considered approved by the parties without a vote of their electors, upon execution of the interlocal agreement by all member governments and upon satisfaction of all conditions precedent in the interlocal agreement:

1. All member governments shall relinquish to the authority their individual rights to develop potable water supply sources, except as otherwise provided in the interlocal agreement.
2. The authority shall be the sole and exclusive wholesale potable water supplier for all member governments.
3. The authority shall have the absolute and unequivocal obligation to meet the wholesale needs of the member governments for potable water.
4. A member government may not restrict or prohibit the use of land within a member's jurisdictional boundaries by the authority for water supply purposes through use of zoning, land use, comprehensive planning, or other form of regulation.
5. A member government may not impose any tax, fee, or charge upon the authority in conjunction with the production or supply of water not otherwise provided for in the interlocal agreement.
6. The authority may use the powers provided in part II of chapter 159 for financing and refinancing water treatment, production, or transmission facilities, including, but not limited to, desalinization facilities. All such water treatment, production, or transmission facilities are considered a "manufacturing plant" for purposes of s. [159.27](#)(5) and serve a paramount public purpose by providing water to citizens of the state.
7. A member government and any governmental or quasi-judicial board or commission established by local ordinance or general or special law where the governing membership of such board or commission is shared, in whole or in part, or appointed by a member government agreeing to be bound by the interlocal agreement shall be limited to the procedures set forth therein regarding actions that directly or indirectly restrict or prohibit the use of lands or other activities related to the production or supply of water.

(c) The authority shall acquire full or lesser interests in all regionally significant member government wholesale water supply facilities and tangible assets, and each member government shall convey such interests in the facilities and assets to the authority, at an agreed value.

(d) The authority shall charge a uniform per gallon wholesale rate to member governments for the wholesale supply of potable water. All capital, operation, maintenance, and administrative costs for existing facilities and acquired facilities, authority master water plan facilities, and other future projects must be allocated to member governments based on water usage at the uniform per gallon wholesale rate.

(e) The interlocal agreement may include procedures for resolving the parties' differences regarding water management district proposed agency action in the water use permitting process within the authority. Such procedures should minimize the potential for litigation and include alternative dispute resolution. Any governmental or quasi-judicial board or commission established by local ordinance or general or special law where the governing members of such board or commission is shared, in whole or in part, or appointed by a member government, may agree to be bound by the dispute resolution procedures set forth in the interlocal agreement.

(f) Upon execution of the voluntary interlocal agreement provided for herein, the authority shall jointly develop with the Southwest Florida Water Management District alternative sources of potable water and transmission pipelines to interconnect regionally significant water supply sources and facilities of the authority in amounts sufficient to meet the needs of all member governments for a period of at least 20 years and for natural systems. Nothing herein, however, shall preclude the authority and its member governments from developing traditional water sources pursuant to the voluntary interlocal agreement. Development and construction costs for alternative source facilities, which may include a desalination facility and significant regional interconnects, must be borne as mutually agreed to by both the authority and the Southwest Florida Water Management District. Nothing herein shall preclude authority or district cost sharing with private entities for the construction or ownership of alternative source facilities. By December 31, 1997, the authority and the Southwest Florida Water Management District shall enter into a mutually acceptable agreement detailing the development and implementation of directives contained in this paragraph. Nothing in this section shall be construed to modify the rights or responsibilities of the authority or its member governments, except as otherwise provided herein, or of the Southwest Florida Water Management District or the department pursuant to this chapter or chapter 403 and as otherwise set forth by statutes.

(g) Unless otherwise provided in the interlocal agreement, the authority shall be governed by a board of commissioners consisting of nine voting members, all of whom must be elected officers, as follows:

1. Three members from Hillsborough County who must be selected by the county commission; provided, however, that one member shall be selected by the Mayor of Tampa in the event that the City of Tampa elects to be a member of the authority;
2. Three members from Pasco County, two of whom must be selected by the county commission and one of whom must be selected by the City Council of New Port Richey; and
3. Three members from Pinellas County, two of whom must be selected by the county commission and one of whom must be selected by the City Council of St. Petersburg.

Except as otherwise provided in this section or in the voluntary interlocal agreement between the member governments, a majority vote shall bind the authority and its member governments in all matters relating to the funding of wholesale water supply, production, delivery, and related activities.

(2) The provisions of this section supersede any conflicting provisions contained in all other general or special laws or provisions thereof as they may apply directly or indirectly to the exclusivity of water supply or withdrawal of water, including provisions relating to the environmental effects, if any, in conjunction with the production and supply of potable water, and the provisions of this section are intended to be a complete revision of all laws related to a regional water supply authority created under s. [373.713](#) and this section.

(3) In lieu of the provisions in s. [373.713](#)(2)(a), the Southwest Florida Water Management District shall assist the West Coast Regional Water Supply Authority for a period of 5 years, terminating December 31, 1981, by levying an ad valorem tax, upon request of the authority, of not more than [0.05](#) mill on all taxable property within the limits of the authority. During such period the corresponding basin board ad valorem tax levies shall be reduced accordingly.

(4) The authority shall prepare its annual budget in the same manner as prescribed for the preparation of basin budgets, but such authority budget shall not be subject to review by the respective basin boards or by the governing board of the district.

(5) The annual millage for the authority shall be the amount required to raise the amount called for by the annual budget when applied to the total assessment on all taxable property within the limits of the authority, as determined for county taxing purposes.

(6) The authority may, by resolution, request the governing board of the district to levy ad valorem taxes within the boundaries of the authority. Upon receipt of such request, together with formal certification of the adoption of its annual budget and of the required tax levy, the authority tax levy shall be made by the governing board of the district to finance authority functions.

(7) The taxes provided for in this section shall be extended by the property appraiser on the county tax roll in each county within, or partly within, the authority boundaries and shall be collected by the tax collector in the same manner and time as county taxes, and the proceeds therefrom paid to the district which shall forthwith pay them over to the authority. Until paid, such taxes shall be a lien on the property against which assessed and enforceable in like manner as county taxes. The property appraisers, tax collectors, and clerks of the circuit court of the respective counties shall be entitled to compensation for services performed in connection with such taxes at the same rates as apply to county taxes.

(8) The governing board of the district shall not be responsible for any actions or lack of actions by the authority.

History.—s. 1, ch. 2010-205.

<u>Title XXVIII</u> NATURAL RESOURCES; CONSERVATION, RECLAMATION, AND USE	<u>Chapter 373</u> WATER RESOURCES <u>Entire Chapter</u>	SECTION 019 Definitions.
--	--	---

373.019 Definitions.— When appearing in this chapter or in any rule, regulation, or order adopted pursuant thereto, the term:

- (1) "Alternative water supplies" means salt water; brackish surface and groundwater; surface water captured predominately during wet-weather flows; sources made available through the addition of new storage capacity for surface or groundwater, water that has been reclaimed after one or more public supply, municipal, industrial, commercial, or agricultural uses; the downstream augmentation of water bodies with reclaimed water; stormwater; and any other water supply source that is designated as nontraditional for a water supply planning region in the applicable regional water supply plan.
- (2) "Capital costs" means planning, design, engineering, and project construction costs.
- (3) "Coastal waters" means waters of the Atlantic Ocean or the Gulf of Mexico within the jurisdiction of the state.
- (4) "Department" means the Department of Environmental Protection or its successor agency or agencies.
- (5) "District water management plan" means the regional water resource plan developed by a governing board under s. [373.036](#).
- (6) "Domestic use" means the use of water for the individual personal household purposes of drinking, bathing, cooking, or sanitation. All other uses shall not be considered domestic.
- (7) "Florida water plan" means the state-level water resource plan developed by the department under s. [373.036](#).
- (8) "Governing board" means the governing board of a water management district.
- (9) "Groundwater" means water beneath the surface of the ground, whether or not flowing through known and definite channels.
- (10) "Impoundment" means any lake, reservoir, pond, or other containment of surface water occupying a bed or depression in the earth's surface and having a discernible shoreline.
- (11) "Independent scientific peer review" means the review of scientific data, theories, and methodologies by a panel of independent, recognized experts in the fields of hydrology, hydrogeology, limnology, and other scientific disciplines relevant to the matters being reviewed under s. [373.042](#).
- (12) "Multijurisdictional water supply entity" means two or more water utilities or local governments that have organized into a larger entity, or entered into an interlocal agreement or contract, for the purpose of more efficiently pursuing water supply development or alternative water supply development projects listed pursuant to a regional water supply plan.
- (13) "Nonregulated use" means any use of water which is exempted from regulation by the provisions of this chapter.
- (14) "Other watercourse" means any canal, ditch, or other artificial watercourse in which water usually flows in a defined bed or channel. It is not essential that the flowing be uniform or uninterrupted.
- (15) "Person" means any and all persons, natural or artificial, including any individual, firm, association, organization, partnership, business trust, corporation, company, the United States of America, and the state and all political subdivisions, regions, districts, municipalities, and public agencies thereof. The enumeration herein is not intended to be exclusive or exhaustive.
- (16) "Reasonable-beneficial use" means the use of water in such quantity as is necessary for economic and efficient utilization for a purpose and in a manner which is both reasonable and consistent with the public interest.

THE EN
(US)
THEREOF

(17) "Regional water supply plan" means a detailed water supply plan developed by a governing board under s. [373.709](#).

(18) "Stream" means any river, creek, slough, or natural watercourse in which water usually flows in a defined bed or channel. It is not essential that the flowing be uniform or uninterrupted. The fact that some part of the bed or channel has been dredged or improved does not prevent the watercourse from being a stream.

(19) "Surface water" means water upon the surface of the earth, whether contained in bounds created naturally or artificially or diffused. Water from natural springs shall be classified as surface water when it exits from the spring onto the earth's surface.

(20) "Water" or "waters in the state" means any and all water on or beneath the surface of the ground or in the atmosphere, including natural or artificial watercourses, lakes, ponds, or diffused surface water and water percolating, standing, or flowing beneath the surface of the ground, as well as all coastal waters within the jurisdiction of the state.

(21) "Water management district" means any flood control, resource management, or water management district operating under the authority of this chapter.

(22) "Water resource development" means the formulation and implementation of regional water resource management strategies, including the collection and evaluation of surface water and groundwater data; structural and nonstructural programs to protect and manage water resources; the development of regional water resource implementation programs; the construction, operation, and maintenance of major public works facilities to provide for flood control, surface and underground water storage, and groundwater recharge augmentation; and related technical assistance to local governments and to government-owned and privately owned water utilities.

(23) "Water resource implementation rule" means the rule authorized by s. [373.036](#), which sets forth goals, objectives, and guidance for the development and review of programs, rules, and plans relating to water resources, based on statutory policies and directives. The waters of the state are among its most basic resources. Such waters should be managed to conserve and protect water resources and to realize the full beneficial use of these resources.

(24) "Water supply development" means the planning, design, construction, operation, and maintenance of public or private facilities for water collection, production, treatment, transmission, or distribution for sale, resale, or end use.

(25) For the sole purpose of serving as the basis for the unified statewide methodology adopted pursuant to s. [373.421](#)(1), as amended, "wetlands" means those areas that are inundated or saturated by surface water or groundwater at a frequency and a duration sufficient to support, and under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soils. Soils present in wetlands generally are classified as hydric or alluvial, or possess characteristics that are associated with reducing soil conditions. The prevalent vegetation in wetlands generally consists of facultative or obligate hydrophytic macrophytes that are typically adapted to areas having soil conditions described above. These species, due to morphological, physiological, or reproductive adaptations, have the ability to grow, reproduce, or persist in aquatic environments or anaerobic soil conditions. Florida wetlands generally include swamps, marshes, bayheads, bogs, cypress domes and strands, sloughs, wet prairies, riverine swamps and marshes, hydric seepage slopes, tidal marshes, mangrove swamps and other similar areas. Florida wetlands generally do not include longleaf or slash pine flatwoods with an understory dominated by saw palmetto. Upon legislative ratification of the methodology adopted pursuant to s. [373.421](#)(1), as amended, the limitation contained herein regarding the purpose of this definition shall cease to be effective.

(26) "Works of the district" means those projects and works, including, but not limited to, structures, impoundments, wells, streams, and other watercourses, together with the appurtenant facilities and accompanying lands, which have been officially adopted by the governing board of the district as works of the district.

History.—s. 3, part I, ch. 72-299; s. 37, ch. 79-65; s. 1, ch. 80-259; s. 5, ch. 82-101; s. 6, ch. 89-279; s. 21, ch. 93-213; s. 15, ch. 94-122; s. 251, ch. 94-356; s. 1, ch. 96-339; s. 1, ch. 96-370; s. 2, ch. 97-160; s. 1, ch. 2005-291; s. 10, ch. 2010-205.

<u>Title XI</u> COUNTY ORGANIZATION AND INTERGOVERNMENTAL RELATIONS	<u>Chapter 127</u> RIGHT OF EMINENT DOMAIN TO COUNTIES <u>Entire Chapter</u>	SECTION 01 Counties delegated power of eminent domain recreational purposes, issue of necessity of taking compliance with limitations.
--	---	---

127.01 Counties delegated power of eminent domain; recreational purposes, issue of necessity of taking; compliance with limitations. —

(1)(a) Each county of the state is delegated authority to exercise the right and power of eminent domain, that is, the right to appropriate property, except state or federal, for any county purpose. The absolute fee simple title to all property so taken and acquired shall vest in such county unless the county seeks to condemn a particular right or estate in such property.

(b) Each county is further authorized to exercise the eminent domain power granted to the Department of Transportation by s. [337.27](#)(1), the transportation corridor protection provisions of s. [337.273](#), and the right of entry onto property pursuant to s. [337.274](#).

(2) However, no county has the right to condemn any lands outside its own county boundaries for parks, playgrounds, recreational centers, or other recreational purposes. In eminent domain proceedings, a county's burden of showing reasonable necessity for parks, playgrounds, recreational centers, or other types of recreational purposes shall be the same as the burden in other types of eminent domain proceedings.

(3) A county shall strictly comply with the limitations set forth in ss. [73.013](#) and [73.014](#).

--	---	---

380.08 Protection of landowners' rights.—

(1) Nothing in this chapter authorizes any governmental agency to adopt a rule or regulation or issue any order that is unduly restrictive or constitutes a taking of property without the payment of full compensation, in violation of the constitutions of this state or of the United States. *OF AMERICA?*

(2) If any governmental agency authorized to adopt a rule or regulation or issue any order under this chapter determines that, to achieve the purposes of this chapter, it is in the public interest to acquire the **fee simple** or lesser interest in any parcel of land, such agency shall so certify to the state land planning agency, the Board of Trustees of the Internal Improvement Trust Fund, and other appropriate governmental agencies. Prior to such agency's acquiring such land, the seller of the land shall file a statement with the department disclosing, for at least the last 5 years prior to the conveyance of title to the state, all financial transactions concerning the land and all parties having a financial interest in any transaction.

(3) If any governmental agency denies a development permit under this chapter, it shall specify its reasons in writing and indicate any changes in the development proposal that would make it eligible to receive the permit.

------------------------------------	---	--

180.08 Revenue certificates; terms; price and interest; three-fifths vote of governing body required.—

(1) Any municipality which acquires, constructs or extends any of the public utilities authorized by this chapter and desires to raise money for such purpose, may issue mortgage revenue certificates or debentures therefor without regard to the limitations of municipal indebtedness as prescribed by any statute now in effect or hereafter enacted; provided, however, that such mortgage revenue certificates or debentures shall not impose any tax liability upon any real or personal property in such municipality nor constitute a debt against the municipality issuing the same, but shall be a lien only against or upon the property and revenues of such utility, including a franchise setting forth the terms upon which, in the event of foreclosure, the purchaser may operate the same, which said franchise shall in no event extend for a period longer than 30 years from the date of the sale of such utility and franchise under foreclosure proceedings.

(2) Such mortgage revenue certificates or debentures shall be sold for at least 95 percent of par value and shall bear interest not to exceed 7.5 percent per annum.

(3) No mortgage revenue certificates or debentures shall be issued except upon a three-fifths affirmative vote of the city council, or other legislative body of the municipalities by whatever name known; such mortgage revenue certificates or debentures shall provide that out of the revenues and income derived and obtained from the operation of the utility so constructed, such portion thereof as may be deemed sufficient after all operating costs have been paid, shall be set aside annually in a sinking fund for the payment of interest on said certificates or debentures and the principal thereof at the maturity of the same.

History.—s. 5, ch. 17118, 1935; CGL 1936 Supp. 3100(10); s. 18, ch. 73-302.

Inspection CONTINUED/INSTALLATION BUILT UP DRAWINGS
The County has the right, but not the duty to inspect reclaimed water facilities during construction to insure their conformance with construction plans and specifications. Formal County acceptance of those reclaimed water facilities to be owned and operated by the County shall occur only after the receipt of as-built drawings required easements, an absolute Bill of Sale with full warranties of title, and a Release of Lien.

3. Construction in Public Right-of-Way
Applicants for all reclaimed water services requiring line extensions within County or State maintained rights-of-way shall be required to pay the cost of such extension in accordance with rates and fees established for such services.

YOU APPLY, GET ACCEPTED, THEY OWN YOUR PROPERTY AND RELEASE EASEMENT LIEN.
V. RECLAIMED WATER FEES AND CHARGES

A. FEES AND CHARGES
RENUMERATED MARKUP QUANTITY

The fees and charges shall be in accordance with the Schedule of Rates and Fees, as approved by the Board of County Commissioners.

B. BILLINGS AND COLLECTIONS

Account servicing of the reclaimed water service shall follow the guidelines outlined in the Pinellas County Water System Policy Manual, Resolution 87-198.

C. LINE EXTENSION COSTS

The fees and charges shall be in accordance with the Schedule of Rates and Fees.

D. CAPITAL COST RECOVERY-ASSESSMENT
RENUMERATED MARKUP QUANTITY

The Board of County Commissioners may approve an assessment program to defray any or all of the cost of the distribution system.

Hamilton

Madison

The Federalist Papers

Federalist No. 20

The Same Subject Continued: The Insufficiency of the Present Confederation to Preserve the Union From the New York Packet. Tuesday, December 11, 1787.

Author: Alexander Hamilton and James Madison

To the People of the State of New York:

THE United Netherlands are a confederacy of republics, or rather of aristocracies of a very remarkable texture, yet confirming all the lessons derived from those which we have already reviewed.

The union is composed of several coequal and sovereign states, and each state or province is a composition of equal and independent cities. In all important cases, not only the provinces but the cities must be unanimous.

The sovereignty of the Union is represented by the States-General, consisting usually of about fifty deputies appointed by the provinces. They hold their seats, some for life, some for six, three, and one year; from two provinces they continue in appointment during pleasure.

The States-General have authority to enter into treaties and alliances; to make war and peace; to raise armies and equip fleets; to ascertain quotas and demand contributions. In all these cases, however, unanimity and the sanction of their constituents are requisite. They have authority to appoint and receive ambassadors; to execute treaties and alliances already formed; to provide for the collection of duties on imports and exports; to regulate the mint, with a saving to the provincial rights; to govern as sovereigns the dependent territories. The provinces are restrained, unless with the general consent, from entering into foreign treaties from establishing imposts injurious to others, or charging their neighbors with higher duties than their own subjects. A council of state, a chamber of accounts, with five colleges of admiralty, aid and fortify the federal administration.

The executive magistrate of the union is the stadtholder, who is now an hereditary prince. His principal weight and influence in the republic are derived from this independent title from his great patrimonial estates, from his family connections with some of the chief potentates of Europe, and, more than all, perhaps, from his being stadtholder in the several provinces as well as for the union; in which

provincial quality (he has the appointment of town magistrates under certain regulations, executes provincial decrees, presides when he pleases in the provincial tribunals, and has throughout the power of pardon.

As stadtholder of the union, he has, however, considerable prerogatives.

In his political capacity, he has authority to settle disputes between the provinces, when other methods fail; to assist at the deliberations of the States-General, and at their particular conferences; to give audiences to foreign ambassadors, and to keep agents for his particular affairs at foreign courts.

In his military capacity, he commands the federal troops, provides for garrisons, and in general regulates military affairs; disposes of all appointments, from colonels to ensigns, and of the governments and posts of fortified towns.

In his marine capacity, he is admiral-general, and superintends and directs every thing relative to naval forces and other naval affairs; presides in the admiralities in person or by proxy, appoints lieutenant-admirals and other officers; and establishes councils of war, whose sentences are not executed till he approves them.

(His) revenue, exclusive of his private income, amounts to three hundred thousand florins. The standing army which he commands consists of about forty thousand men.

Such is the nature of the celebrated Belgic confederacy, as delineated on parchment. What are the characters which practice has stamped upon it? Imbecility in the government; discord among the provinces; foreign influence and indignities; a precarious existence in peace, and peculiar calamities from war.

It was long ago remarked by Grotius, that nothing but the hatred of his countrymen to the house of Austria kept them from being ruined by the vices of their constitution.

The union of Utrecht, says another respectable writer, reposes an authority in the States-General, seemingly sufficient to secure harmony, but the jealousy in each province renders the practice very different from the theory.

The same instrument, says another, obliges each province to levy certain contributions, but this article never could, and probably never will, be executed: because the inland provinces, who have little commerce, cannot pay an equal quota.

In matters of contribution, it is the practice to waive the articles of the constitution. The danger of delay obliges the consenting provinces to furnish their quotas, without waiting for the others; and then to obtain reimbursement from the others, by deputations, which are frequent, or otherwise, as they can. The great wealth and influence of the province of Holland enable her to effect both these purposes.

It has more than once happened, that the deficiencies had to be ultimately collected at the point of the bayonet: a thing practicable, though dreadful, in a confederacy where one of the members exceeds in force all the rest, and where several of them are too small to meditate resistance; but utterly impracticable in one composed of members, several of which are equal to each other in strength and resources, and equal singly to a vigorous and persevering defense.

Foreign ministers, says Sir William Temple, who was himself a foreign minister, elude matters taken (ad referendum) by tampering with the provinces and cities. In 1726, the treaty of Hanover was delayed by these means a whole year. Instances of a like nature are numerous and notorious.

In critical emergencies, the States-General are often compelled to overleap their constitutional bounds. In 1688, they concluded a treaty of themselves at the risk of their heads. The treaty of Westphalia, in 1648, by which their independence was formerly and finally recognized, was concluded without the consent of Zealand. Even as recently as the last treaty of peace with Great Britain, the constitutional principle of unanimity was departed from. A weak constitution must necessarily terminate in dissolution, for want of proper powers, or the usurpation of powers requisite for the public safety. Whether the usurpation, when once begun, will stop at the salutary point, or go

forward to the dangerous extreme, must depend on the
contingencies of the moment. Tyranny has perhaps oftener
grown out of the assumptions of power called for, on
pressing exigencies, by a defective constitution, than out of
the full exercise of the largest constitutional authorities.

Notwithstanding the calamities produced by the
stadtholdership, it has been supposed that without this
influence in the individual provinces, the causes of anarchy
manifested by the confederacy would long ago have dissolved
it. "Under such a government," says the Abbe Mably, "the
Union could never have subsisted, if the provinces had not a
spring within themselves, capable of quickening their
tardiness, and compelling them to the same way of
thinking. This spring is the stadtholder." It is remarked by
Sir William Temple, "that in the intermissions of the
stadtholdership, Holland, by her riches and her authority,
which drew the others into a sort of dependence, supplied
the place."

Heritage
MANIFESTED

RESOLUTION 95-296
III

TYRANNICAL
CONQUEST

These are not the only circumstances which have controlled
the tendency to anarchy and dissolution. The surrounding
powers impose an absolute necessity of union to a certain
degree, at the same time that they nourish by their
intrigues the constitutional vices which keep the republic in
some degree always at their mercy.

The true patriots have long bewailed the fatal tendency of
these vices, and have made no less than four regular
experiments by EXTRAORDINARY ASSEMBLIES, convened for
the special purpose, to apply a remedy. As many times
has their laudable zeal found it impossible to UNITE THE
PUBLIC COUNCILS in reforming the known evils, the
acknowledged, the fatal evils of the existing constitution.

Let us pause, my fellow-citizens, for one moment, over this
melancholy and monitory lesson of history; and with the
tear that drops for the calamities brought on mankind by
their adverse opinions and selfish passions, let our gratitude
mingle an ejaculation to Heaven for the propitious concord
which has distinguished the consultations for our political
happiness.

A design was also conceived of establishing a general tax to
be administered by the federal authority. This also had its
adversaries and failed.

This unhappy people seem to be now suffering from popular
convulsions, from dissensions among the states, and from
the actual invasion of foreign arms, the crisis of their
destiny. All nations have their eyes fixed on the awful
spectacle. The first wish, prompted by humanity, is, that this
severe trial may issue in such a revolution of their
government as will establish their union, and render in the
parent of tranquillity, freedom and happiness: The next,
that the asylum under which we trust, the enjoyment of
these blessings will speedily be secured in this country, may
receive and console them for the catastrophe of their own.

I make no apology for having dwelt so long on the
contemplation of these federal precedents. Experience is the
oracle of truth; and where its responses are unequivocal,
they ought to be conclusive and sacred. The important
truth, which it unequivocally pronounces in the present
case, is that a sovereignty over sovereigns, a government
over governments, a legislation for communities, as
contradistinguished from individuals, as it is a solecism in
theory, so in practice it is subversive of the order and ends
of civil polity, by substituting VIOLENCE in place of LAW, or
the destructive COERCION of the SWORD in place of the
mild and salutary COERCION of the MAGISTRACY.

STATUTE

PRIVATE
PUBLIC
PARTNERSHIP

Important Instructions and Information

→ RECLAIMED WATER FACILITY (NOT UTILITY)

- Pinellas County may grant a variance from the terms of Pinellas County Code 82-3, County Reclaimed Water Shortage Conservation Measures, when such variance will not be contrary to the public interest and where, owing to special conditions, a literal enforcement of the provisions of the ordinance would result in hardship, irrigation system limitations, religious convictions, or the health and safety of the applicant.
- Written application for a variance shall be submitted to the Pinellas County Utilities Conservation Department.
- The application for variance shall demonstrate that:
 - The variance shall not be in conflict with any other applicable ordinance or state law
 - The variance will not adversely affect the reclaimed water supply
 - The variance will not violate the general spirit and intent of the ordinance nor will it be inconsistent with the County Comprehensive Plan
- Pinellas County shall consider a variance from the County Reclaimed Water Shortage Conservation Measures as soon as possible after submittal of the written application.
- In granting any variance, Pinellas County ^{IS/HAS} may prescribe appropriate conditions and safeguards to assure conformance.
- Violations of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of this section.
- Application shall be mailed to the following location:
