Your Stand on the Issue Support

Comments

I wanted to reach out to you all prior to your meeting tomorrow morning to simply pass along a message from my family on behalf of our family owned and operated business, Hubbard's Marina. Our family business has been operating inside Pinellas county since 1928 and in our nearly 100 year history we have never encountered anything like this COVID19 pandemic. We made the tough call to close back on March 23rd well before any orders to close for the safety of our family, staff, community and county. I was hoping and planning to re-open when the governor made his announcement about re opening the state. Since his announcement we have created a NEW policy and procedure page of our site to educate our staff, guests and friends on what is required by our company to operate cautiously and safely and have distributed that out and trained our staff on those items listed here ->

<https://hubbardsmarina.com/covid-19-operating-policies-and-procedures/> Since restaurants are now able to have 25% capacity inside and outside decks open with social distancing we are hoping and praying that we will be able as a charter business to operate with limited capacity as well. We provide an outside open air experience where social distancing is practical. Our office is now made up to be one way traffic only with sneeze shields and signage dictating the new policies and procedures. All this to say, we are doing everything in our power to be as safe, cautious and careful as possible upon being permitted to re-open our family's business. I am hoping and praying we will have your commission's support in re opening our deep sea fishing and tour operations under careful guidelines outlined by our president and governor. I will be virtually attending tomorrow's meeting and I am simply reaching out to ask for your support in re opening our operations.
