Topic Wearing masks during construction

BCC Agenda Date

Your Stand on the Issue

Comments

Is there a mandate for wearing of masks when contractors are working inside an apartment complex? I have had a run in with apartment managers on this issue and have sought information from several sources to no avail. The apartment complex where I live has folks from 25 to 68 and I have been concerned when seeing workers entering the complex not wearing masks. I have written to the management and they insisted that the wearing of masks was a requirement, but still, the workers are not wearing them. I asked one of them, "Where is your mask"? He said that he was not required to wear one. So I get a message on my voice mail from the construction manager who threatened me with eviction for harassing the workers! So when I send yet another email for clarification, they change what they had documented from a previous email that it was OK for them not to wear a mask as they were on the second floor thus 6 feet away from me! What about those poor souls on the 2nd floor? This is dangerous and contentious and we need leadership with defined boundaries on this issue. If there are defined mandates, please let me know. I have contacted via email and phone calls to my local representatives but have yet to hear back from them.
