

Subject

Allowing a school to open in a
pandemic?!

Preschool classroom size
restrictions

Message

Your Name

My school NAA is opening on monday the 18th and myself along with many others dont feel safe going back just yet for many reasons...some have simply stated they dont plan on returning under these circumstances because their scared for their own health

Everyday hundreds and hundreds of students drive hours from all over the state to come to this school and congregate in the few classrooms they do have. For 7+ hours everyday in a closed air system...its just asking for trouble I personally have breathing issues as it is and I'm concerned to go back to face to face schooling at this point..I cant afford to get sick IT COULD KILL ME!!

Peoples health> monetary gain and more sickness

Signed a very concerned Natinal Avation Avademy student

Dear Commissioners,

Emily Neale

I am writing on behalf child care centers in Pinellas County. I am the owner of Write Start Learning Center, located in Seminole, FL.

Currently, the ten children in a room (nine children plus a teacher) rule is still in effect. I have current and prospective parents, many in the military, first responders, and medical workers, who need daycare for their children. With this rule in place, we are only allowed to hold about half of the children we usually do. We are at capacity and cannot currently serve these essential workers.

I ask you for your help in lifting this rule. I know these are statewide rules. Any help with this matter and/or information on further people to contact would be extremely helpful.

I appreciate your time and consideration.

Sincerely,
Emily Neale
