

Florida Department of Health in Pinellas County COVID-19 Community Testing Event

Childs Park, April 27, 2020

Surveillance Program
May 7, 2020

On April 27, 2020, the Department of Health in Pinellas County in coordination with St. Petersburg Fire and Rescue and the City of St. Petersburg offered free community testing for Coronavirus Disease 2019 (COVID-19) at Childs Park.

Testing Population

A total of 75 people were tested, 61.3% of whom were black (Table 1) and 86.7% were non-Hispanic.

Race	Count	Percent
Black	46	61.3%
White	19	25.3%
Other/Unknown	9	12.0%
American Indian/Alaska	1	1.3%

Table 1. Residents tested by race

The median age of those who received testing was 64 years old (range: 17, 86).

75% of those tested reside in zip codes 33711 (29%), 33712 (28%), 33705 (11%), and 33707 (7%), the four zip codes in south Pinellas County nearest Childs Park (Fig 1, 2). The remaining 25% of people tested came from fourteen other zip codes, with between 1 and 4 residents from each.
