She lives in an apartment complex and people who live there are not social distancing and are NOT wearing masks. Hallways enclosed no way to air them out. She is in fear of her life. People are smokers and gather sometimes more than 10 together in groups. Maintenance crews NOT wearing masks. She has approached them and they say they don't have to. She reported several times to Mgmt. Company and now they are threatening to EVICT her on a 7 day evict for harassing maintenance people.
