FOR THE RECORD

Comments https://www.who.int/publications/i/item/WHO-2019-nCoV-IPC_Masks-Children-2020.1 Given the limited evidence on the use of masks in children for COVID-19 or other respiratory diseases, including limited evidence about transmission of SARS-CoV-2 in children at specific ages, the formulation of policies by national authorities should be guided by the following overarching public health and social principles: • Do no harm: the best interest, health and well-being of the child should be prioritized. • The guidance should not negatively impact development and learning outcomes. • The guidance should consider the feasibility of implementing recommendations in different social, cultural and geographic contexts, including settings with limited resources, humanitarian settings and among children with disabilities or specific health conditions.

FOR THE RECORD Use in schools and tertiary institutions Children and young people at early learning services and schools Alert Level 2 Children and young people do not need to wear masks or face coverings at Alert Level 2 because the risk of infection within early learning services and school environments is low. Other public health control measures will be in place, including children and staff staying home if they are sick, contact tracing, and hygiene requirements. Alert Level 3 Children and young people do not need to wear masks or face coverings at Alert Level 3 if they remain within their early learning or school bubbles of up to 20 children. This includes staying at least 2 metres away from children from other early learning or school bubbles outside. Other public health control measures will be in place including children and staff staying home if they are sick, contact tracing, and hygiene requirements. Children and young people on transport provided by early learning services and schools Alert Level 2 Children and young people are not required to wear masks or face coverings on school transport at Alert Level 2. This includes buses or vans chartered or used by schools or early learning services to carry children, students and staff. Children and young people aged 6 years and over can choose to wear a mask or face covering when they are on school transport. Alert Level 3 School transport is unlikely to run at Alert Level 3. If it is operating, children and young people are not required to wear masks or face coverings on school transport. This includes buses or vans chartered or used by schools or early learning services to carry children, students and staff. Children and young people aged 6 years and over can choose to wear a mask or face covering when they are on school transport. <https://www.health.govt.nz/our-work/diseases-and-conditions/covid-19-novel-coronavirus/covid-19-health-advice-general-public/covid-19-use-masks-and-face-coverings-community>

BCC Agenda Date 9-10-2020

Your Stand on the Issue Oppose

FOR THE RECORD
<https://www.nature.com/articles/s41591-020-0843-2>
Among the samples collected without a face mask, we found that the majority of participants with influenza virus and coronavirus infection did not shed detectable virus in respiratory droplets or aerosols, whereas for rhinovirus we detected virus in aerosols in 19 of 34 (56%) participants (compared to 4 of 10 (40%) for coronavirus and 8 of 23 (35%) for influenza). For those who did shed virus in respiratory droplets and aerosols, viral load in both tended to be low (Fig. 1). Given the high collection efficiency of the G-II (ref. 19) and given that each exhaled breath collection was conducted for 30 min, this might imply that prolonged close contact would be required for transmission to occur, even if transmission was primarily via aerosols, as has been described for rhinovirus colds²⁰. Our results also indicate that there could be considerable heterogeneity in contagiousness of individuals with coronavirus and influenza virus infections.

Your Stand on the Issue

Comments

Hello Commissioners, I watched the meeting today, and with the exception of Commissioner Peters was appalled at your lack of care for the citizens that elected you. The majority of the people that called in opposed your mask mandate, but you do not care. Your incompetence is showing. We elected you, you work for us, and you are not doing the job we hired you for. The only person that has the gall to speak for the citizens is Commissioner Peters, whom I would like to thank. The rest of you are useless. I am tired of your lies. Commissioner Justice- your time is limited. I cannot wait to see you voted out come November. Your blatant lies throughout this COVID pandemic will be the end of your career in local politics. You claimed that Gov. Desantis closed businesses down, but he has said multiple times during the pandemic that he didn't close anything except bars. Answer me this, if Desantis closed the businesses, how come other counties still had certain businesses open.. Don't worry, I won't wait for an answer, because you are too scared to admit you lied. Commissioner Gerard- You were horrible as the mayor of Largo, and you are even worse as a county commissioner. You should be ashamed of yourself. You are supposed to be a voice for the citizens that elected you, but you are not. You are a failure and an incompetent leader. You care more about your career and personal agendas than you do the people you SERVE. I cannot wait until I have the chance to vote you out of office. I am tired of all of you besides Commissioner Peters pushing your personal agendas and opinions on us. (Looking at you Welch with you BLM background). You have Doctors participate in the meeting that will further your agenda. If they don't, you simply ignore what they have to say. You need to end the mask mandate. We are adults, we DEMAND to be treated as such. We the citizens of Pinellas County will not take your incompetence any longer. We will rise up against you, and your unconstitutional mandates, there will be nothing you can do against it.

BCC Agenda Date 9-3-2020

Your Stand on the Issue Oppose

FOR THE RECORD

Comments <https://pubmed.ncbi.nlm.nih.gov/25903751/> Results: The rates of all infection outcomes were highest in the cloth mask arm, with the rate of ILI statistically significantly higher in the cloth mask arm (relative risk (RR)=13.00, 95% CI 1.69 to 100.07) compared with the medical mask arm. Cloth masks also had significantly higher rates of ILI compared with the control arm. An analysis by mask use showed ILI (RR=6.64, 95% CI 1.45 to 28.65) and laboratory-confirmed virus (RR=1.72, 95% CI 1.01 to 2.94) were significantly higher in the cloth masks group compared with the medical masks group. Penetration of cloth masks by particles was almost 97% and medical masks 44%. Conclusions: This study is the first RCT of cloth masks, and the results caution against the use of cloth masks. This is an important finding to inform occupational health and safety. Moisture retention, reuse of cloth masks and poor filtration may result in increased risk of infection. Further research is needed to inform the widespread use of cloth masks globally. However, as a precautionary measure, cloth masks should not be recommended for HCWs, particularly in high-risk situations, and guidelines need to be updated.

Topic Abolish mask mandates

BCC Agenda Date 9-3-2020

Your Stand on the Issue Oppose

Comments I work in a high risk business and fear that anyone who enters my store front can not be identified due to the mask mandates should I be Robbed or worse. My and my family's health is at risk with the public mask mandates and I wish to see them abolished. I do not believe they are doing any good for the health of our youth and elderly. I am not a medical expert but if Covid is so contagious why are there not required Bio Hazard waist bins readily available? In 2019 the city did away with plastic straws to help the environment but now our waterways are clogged with masks and gloves. What was the point?

Topic Mask Ordinance

BCC Agenda Date 9-3-2020

Your Stand on the Issue Oppose

Comments Based on extensive research, masks and face covers are not affective for stopping the virus. However, if someone is concerned about the disease, they should take appropriate precautions to prevent illness. Proper diet and exercise, washing hands, avoiding other sick people, and plenty of rest are great ways to stay healthy. Masks should not be a requirement for any American. The government should not be allowed to have this type of control over Americans if the people do not decide that that is best for the individual.

Comments

Pinellas County's response to the state of emergency is hindering my ability to thrive. The mask mandate has exposed and normalized medical discrimination, infringed our freedoms, and caused a rampant mental health crisis. I have been harassed, denied access to services, and humiliated for conditions resulting from my service in defending the freedoms that are now being taken away from me. Businesses and individuals are selectively enforcing the mandate, and have increasingly become more oppressive with each extension of the state of emergency in Pinellas County. I am severely limited in my ability to accomplish average daily living tasks like going to the grocery store or picking up medicine. I've been harassed at my local gym for not wearing a mask while exercising- also an exemption under the county mask mandate. My 10-year-old son's requirement to wear a mask is left to my discretion, but again we have been harassed in local stores for him not wearing a mask. These incidents are a direct result of the County Commission's refusal to develop a localized plan based on science and transparent decision points. I urge you to lift the mask mandate based on the CDC's revised data on infection rates and the continued drop in positive cases requiring medical in the county and state.
