Comments

As a citizen of Pinellas County, I respectfully request that Ordinance 24-10 (mask mandate) be immediately revoked. The COVID numbers are well below the numbers we saw in June/July that led to the mask mandate being invoked. Additionally, please end the state of emergency, as we are no longer receiving federal funds.

Topic State of Emergency/Mask Mandate

BCC Agenda Date 9-10-2020

Your Stand on the Issue

Comments

I am totally opposed to the mask mandate, believing, constitutionally, that it should only be voluntary, if at all. Newer research states the great majority of various types of masks are useless for coronavirus. Everyday, I see masks that have been littered. Mask requirements for children are terribly absurd bordering on child abuse. Children have an extremely low risks of having adverse reactions to this virus.

BCC Agenda Date 9-10-2020
Your Stand on the Issue Oppose

As a citizen of Pinellas County, I respectfully request that Ordinance 24-10 (mask mandate) be immediately revoked. Per CDC, WHO, multiple scientific studies, scientists, etc. face coverings do not prevent the transmission and spread of Covid-19 or even influenza. There have been NO scientific studies proving that face coverings limit or prevent the spread of Covid-19/other viruses, but MANY studies over the decades do prove that face coverings are ineffective and do not protect anyone from Covid-19 transmission. There are also multiple hazards with wearing face coverings including contamination of masks leading to illness. Our poor children are suffering greatly because of the social engineering experiment of masking and because of the media's fearmongering. They will grow up to have an irrational fear of viruses and germs, they will miss the human experience by being prevented from seeing human emotions on other people's faces, and these poor children are learning to accept as "normal" this very abnormal world they are presently living in. I also respectfully ask why it is deemed safe to wear a mask walking into a restaurant, but then you can sit at the table and laugh, talk, etc without worrying about the virus spreading through the air. Why people think the virus can't go over or under the plexiglass coverings. Why thousands of people in crowds across the country rioting and protesting do not contribute to the spread, yet small gatherings are dangerous. Everything being reported on mainstream news is skewed to fit the narrative, and nothing being mandated is logical. I have to ask why aren't more people (especially our representatives and leaders) questioning this narrative and the illogical advice we are receiving, and doing their own real research. Our representatives are supposed to HEAR from us, the people they represent, and work in our best interests by seeking out the real truth before passing and continuing with dangerous mandates. I politely request that you research real science before continuing to

Comments

restrict our natural freedoms. Please end mask mandates, social distancing, lockdowns of healthy people, and allow life to return to normal. CDC and labs have stated repeatedly that positive results do NOT confirm you have Covid-19 since the tests are unable to distinguish between Covid-19 or other viral infections/other coronaviruses. Many false positives and lab failures/errors have greatly distorted the real numbers. No one knows how many people were infected and no one knows how many actual Covid-19 deaths occurred. Death coding is wrong. Most deaths occurred in elderly and those with multiple health issues and those patients put on a ventilator had a 97% chance of dying simply because they were vented. Even terminal people dying in hospice from other diseases are listed as Covid-19 deaths (Dr. Birx confirmed this). Statistics lie without the full truth being disclosed and most people are living in fear because they simply read the headlines or only believe what the "experts" tell them to believe. Do we even meet the criteria for a pandemic anymore per the WHO, etc.? Hopefully you will consider that since the dawn of man we have experienced plagues, viruses, epidemics, and pandemics and we will continue to experience them until the end of time. At no time in history has an entire world shut down because of a virus that over 99+% of people fully recover from and most have only mild symptoms. Never in history have billions of healthy people worldwide been locked down and quarantined for months on end. Never has a virus with a 99% survival rate caused a worldwide economic collapse. There is NO science to support this face covering mandate. Please make a sound decision based on science and not politics. Please also end the state of emergency, as we are no longer in a state of emergency or receiving the associated federal funding.

Topic State of emergency and mask mandate
BCC Agenda Date 9-10-2020
Your Stand on the Issue Oppose

Comments

As a resident of Pinellas County for several years I've never realized that county commissioners have so much "power" to disrupt my families life. As a mother of a medically needy child I find your overreach concerning. I am 100% capable of knowing what's best for my family. My child has 3 diagnosis' that makes it difficult and a risk to wear a mask. As I'm aware your ordinance opts my child out that does not mean the school district nor businesses will comply. My son and family have seen the discrimination this ordinance has brought. I feel you and the others who continue to ignore the concerns of your constituents should held liable. So before you vote. Ask yourself if you believe in this mandate enough to take the chance of being held liable for the ramifications it is causing? For the very least make it an option. My child deserves an education and to be served at all public establishments just as those without disabilities do.
Thank you!

Topic Release mask wearing all together

BCC Agenda Date 9-9-2020

Your Stand on the Issue Oppose

Comments I believe the mandation of mask wearing to be eliminated. If a person feels sick or unsafe, stay home otherwise we all need to stay safe but build our immunity systems and self-esteem back up by getting things back to the way they were. We are always going to have death, disease, and struggles so getting rid of mask wearing will start giving the public confidence in beating this covid. We need to start coming together as one and this removal of masks would be a great place to start.
