Topic Mask mandate

BCC Agenda Date 9-17-2020

Your Stand on the Issue

Comments

I support extending the face covering requirements as they currently exist. Data shows that it is too soon to stop wearing masks and to stop physical distancing especially as we are entering influenza season. Mandates dealing with public health are most definitely within the confines of the law and we are still in the first wave of the SARS-CoV-2.

Topic Mask Mandate

BCC Agenda Date

Your Stand on the Issue Support

Comments

Please keep the mask mandate active in Pinellas County. I was so proud of you when you ordered one since it is for the welfare of the residents. This is one of the FL counties with the largest elderly population, and we need to keep the mask mandate to stay safe especially during the flu season. Please listen to health professionals and the science and not to politics which has killed thousands of people because the mask mandate was not enforced nationwide. People feel safe going to a store with the mandate, without the mandate we will go back to ordering products online and the local businesses will suffer. If no smoking is the law because it harms people around you, how is wearing a mask not ok when its been proven to reduce the risk of contacting covid. Listen to the smart people not the loud mouths in making this decision. Thank you.

I support masking in public where social distancing is not possible. My husband and I are over 60 and we spend lots of money in grocery stores, restaurants, retail outlets, salons, and wherever that we feel safe going into. If you stop masking, we will not go into those dangerous situations. Furthermore, our son and wife are expecting and they have the same concerns, so this is not just about older folks.

Topic Requirement to Wear Face Masks

BCC Agenda Date 9-14-2020

Your Stand on the Issue Support

Comments Please DO NOT ABOLISH THE CURRENT REQUIREMENT THET EVERYONE MUST WEAR A FACE MASK IN PUBLIC PLACES! We are not at a time or place to remove the current requirement and to do so at the present can have significant and longer lasting effects on getting the spread and devastation from this virus under control. We are unfortunately at these levels because we waited so long (too long) to make the face mask mandatory in all public places. I am a registered republican and our President should be following the recommended guidelines and setting a positive example for all. This is not a political issue ... it is a very serious medical / safety issue. Ask the families who have lost a love one ... or a family who may lose one because we choose to drop the requirement!

Topic Mask Mandate

BCC Agenda Date 9-17-2020

Your Stand on the Issue Support

Comments I'm honestly shocked to hear repealing the mask mandate is even up for discussion. Study after study has shown that mask ARE effective. We are in a better place with cases now due to the mask mandate but with bars opening, schools open and flu season right around the corner, we'd quickly undo all the progress we made. There is also the financial repercussions to consider of repealing the mask mandate. I can speak for myself, my family & several acquaintances that we no longer would feel safe dining out or going to stores if other customers won't be wearing mask. Mask are the new norm and that expectation needs to be set. Wearing a mask is a minor inconvenience. I understand there is a very vocal and loud anti-mask group in Pinellas but they DO NOT speak for the majority. Please, listen to science and keep the mask mandate in place.

Comments

Please do not lift the mask mandate. It is clearly working to bring case numbers down since it was enacted in Pinellas County. With bars reopening, there will be more risks to increased case counts. Now is not the time to lift the mask mandate. Thank you for caring for your citizens.

Topic Local State of Emergency-Face Covering Ordinance

BCC Agenda Date 9-17-2020

Your Stand on the Issue Support

I am writing in support of keeping the face covering ordinance in place in Pinellas county. I am shocked and appalled that reversing this ordinance is even a consideration at this point in time. The progress that has been made in Pinellas County is a result of the mask ordinance and reversing it will put us right back where we were. While we are in a much better place, we still aren't as good as we should be. I worry that opening bars and reversing the mask mandate will send us right back to the levels we had in June and July. Wearing a mask is really not a big deal and even my children willingly put on a mask when we go places, which isn't often. My family is doing it's part to protect ourselves and our community, it would be nice to feel like others are willing to do the same by simply wearing a mask in public. It is necessary for each of us to wear a face covering when we are out in public and maintain physical distancing in order to be able to live the most normal life we can right now. This is the only way we have to stop the spread of COVID 19 and save lives. COVID 19 does not care that we are tired of wearing a mask. It is not fair to essential workers, particularly hospital staff to bear the brunt of people who don't want to wear a face covering. Please do not reverse the ordinance for face coverings until we have a vaccine that has proven to stop the spread of COVID.

Comments

In Public Health, when a prevention measure is working, you don't stop doing it. The mask mandate is what we have to thank for the decline in cases in Pinellas County. Lifting the mandate now, with school is back in session, would be a terrible decision. You have the power to protect our community by continuing to mandate masks in public spaces and I urge you to do so. This Public Health Professional thanks you.

Topic Face Mask Ordinance

BCC Agenda Date 9-17-2020

Your Stand on the Issue Oppose

Comments

The Pinellas County mask ordinance should stay in place with no expiration date set. This county has the highest numbers of vulnerable people in the state of Florida. The requirement to wear masks inside public spaces in Pinellas County has helped reduce the infection rate and served to keep the people of this county safer from contracting COVID-19. Dr. Francis Collins, director of the National Institutes of Health stated that a “new study shows face coverings—even those that are far from perfect—really can and do save lives. In fact, IHME (Institute for Health Metrics and Evaluation) data also show that consistent mask-wearing—starting today—could save close to 70,000 lives in the months to come.” That’s a huge number. The medical director for the Pinellas County Emergency Medical Services, Dr. Angus Johnson, has stated that masks are valuable in reducing spread of this deadly virus. Repealing the mask requirement is premature for many reasons. The mask requirement slows the spread of the virus, keeps vulnerable people safer, and regulates the behavior of people who callously resist wearing masks to keep others safe. This is not a political issue, and it never should have been made one. Medical science is not an opinion, it is verifiable with data and facts. People not wanting to wear masks in public spaces can stay home. Rescinding the order will abridge the rights of the rest of us who assume the personal responsibility to wear masks, practice social distancing and use proper hand hygiene to keep from spreading disease to others in our community and families. The Governor recently approved controlled visits to elder care facilities. You shouldn’t need to be reminded of the horrible death statistics and infection rates we had just a few months ago before a mask mandate was imposed in this county. Imagine if the mandate is removed and people abandon their responsibility to self-regulate and wear masks to keep infection from spreading in public places. Consider what will happen to those residents in care facilities, who have

no choice in the matter with whom they come into contact. I am asking that the Commission vote to keep the Pinellas County Ordinance 20-14 in place with no expiration date. I am asking that review of the Ordinance be done at such time as recommended by non-political sources, such as medical advisors, the CDC, FDA and the NHI

Topic

Rescinding the Pinellas County Ordinance Requiring
Masks in Public Places.

BCC Agenda Date

9-17-2020

Your Stand on the Issue

Oppose

Comments

Dear Commissioner, The Pinellas County mask ordinance requirement to wear masks inside public spaces in Pinellas County has helped reduce the spread of Covid-19 and should stay in place with no expiration date set. This county has the highest numbers of vulnerable people in the state of Florida. The requirement to wear masks inside public spaces in Pinellas County has helped reduce the infection rate and served to keep the people of this county safer from contracting Covid-19. Dr. Francis Collins, director of the National Institutes of Health stated that a “new study shows face coverings—even those that are far from perfect—really can and do save lives. In fact, IHME (Institute for Health Metrics and Evaluation) data also show that consistent mask-wearing—starting today—could save close to 70,000 lives in the months to come.” That’s a huge number. The masks reduce the viral load for both the wearer and those around them which can result in less positive cases and less serious covid19 symptoms if infected. Rescinding the mask ordinance too early may result in more people falsely believing the virus is under control and fading away. More people may feel comfortable not wearing masks which could result in citizens of Pinellas County being subjected to herd immunity as a "solution" and could bring about a second wave during the peak of flu season. Americans made great sacrifices during WW2 to protect our Country. Asking people to wear a mask in a public space is such a minimal sacrifice in comparison. Pinellas County Commissioners have a fiduciary duty to protect ALL the citizens of Pinellas County. Keeping the mask order in place is the best and easiest way to protect us. Please vote no to rescinding the Pinellas County Mask Ordinance.

Topic I support the Pinellas County mask policy

BCC Agenda Date 9-17-2020

Your Stand on the Issue Support

Comments

Commissioners, I strongly support continuing the current Pinellas County mask policy! This was the single most important step in reducing the number of coronavirus cases in Pinellas County. It gave people, like me and my wife, the freedom to go out into stores and restaurants safely. We started to resume an almost pre-virus lifestyle. We had fun. Saw friends. And yes, spent more money. Which, I believe, is good for the economy and Pinellas County. By removing the mask mandate you will effectively take away our freedom. We will have to stay in, stay away from stores and restaurants and basically go back to being stuck inside. We are older and more vulnerable to the more serious consequences of getting the virus. You have done what was needed to stem the spread of the virus in Pinellas County. Why would you not want to continue the downtrend in cases and the uptrend in business and spending? Are you not aware of what happened in San Francisco during the 1918 pandemic? They gave in to demands to rescind the mask mandate and weeks later had a stronger second wave of the Spanish flu and thousands more innocent people died! Is that what you are trying to achieve? Those who ignore the past are doomed to relive it! Those who get the virus and die from it will be victims of your decision. Maybe you just consider those who get the virus and die from it collateral damage. Other states have greatly reduced their virus casualties by continuing to have mask policies. Our children live in such a state. They feel safe enough, due to the mask policy, to attend weddings, go to resort areas that require masks, and do many other activities that they would not participate in if masks were not required. What's the big objection to wearing a mask to protect your fellow citizens? It's a civic duty that does not require a lot of money, is not that demanding, and most of all, can save lives. Is it really wise to even consider discontinuing the mask policy now that bars will soon be reopening? The combination of bars reopening and no mask policy could result in a serious increase of

cases and deaths by the beginning of October. Just in time for the flu season and the early arrival of snowbirds. Good luck!!! This is not the time to let down our guard or to take a giant step backwards! We've come a long way in Pinellas County thanks to your leadership and the mask policy. At the time of this writing Pinellas County was 6th in total cases, and 4th in total deaths among Florida Counties according to Worldometers.info. Not really an great position in the state in either category! Your decision will either move us up or down in the rankings. I hope you would want Pinellas County to continue to move down in both categories. It's a shame this has become a political issue. Life and death should not be tied to, or decided by, politics. Especially, when it comes to something as simple as wearing a mask to protect your neighbors. At times like this, politics needs to be put aside for the greater good. Do the greater good! Keep the masks policy. Lives will be saved. People will feel safe and be safe. As a result, the Pinellas County economy will continue to benefit. Thank you for your service to the citizens of Pinellas County. Stay safe. Respectfully, Vincent Caruso
