Please disregard my last communication as i looked at the wrong data set for something else entirely It's an indisputable fact that all of the data demonstrates that COVID 19 is dying out in Florida , therefore there is no need for any state of emergency order
<https://business.fau.edu/covidtracker/data/pinellas-county/> Florida Covid-occupied hospital beds drops near 100 (106 as of today) Peak was 481 late july. this is a steadily declining drop of nearly 80% of covid hospitalizations since july Covid is dying out in Florida. Time to re-open schools IN PERSON. Re-open ALL businesses. There is no need for a state of emergency, and many are becoming bankrupt as a result of this unnecessary order
