Comments

I am disappointed that the affordable housing money is being used for the two proposals with such a small percentage of housing for those making 80% and below AMI. The one proposal offers 59 units for those making 80% and below AMI. 59 mobile homes were removed to purchase the land! The second proposal offers only 18 units! This is not in line with the resolution. Other money could be used to build these two projects.

Comments

Affordable housing is important to me because I have 2 college graduate students that are living outside Pinellas County because they cannot afford a decent place to live in Pinellas county. Also, in previous years, the commission has promised to use 4.15% of the penny monies to secure affordable housing in our communities and I expect the commission to finish what they have agreed to do and use this 4.15% on affordable housing ONLY. Now with covid in the mix, even more families are struggling not only to find affordable housing but keeping the current housing they have.

Topic Penney for Pinellas - Affordable Housing

BCC Agenda Date 1-12-2021

Your Stand on the Issue Oppose

Comments Affordable housing has reached crisis status for almost 10% of Pinellas County families who are in danger of homelessness or already homeless. I want the 4.15% of Penny IV funds, pledged for affordable housing by County Commission resolution, to be spent only on units affordable by those at 80% AMI or less.
