	The county may want to consider as local sites the Community Health Center on S. Huey Avenue and the Pinellas County Health Department on S. Disston Avenue in Tarpon Springs. Each are located near elderly							
	populations and African American populations. Each are located where Tarpon is most densely populated. These are factors that should be prioritized in vaccination distribution.							
	I had tried the Patient Portal several times. Either they didn't have appointments or they didn't have any at the North Pinellas site, The Centre in Palm Harbor.							
	I don't plan to go to a mass vaccination site and wait in a hot parking lot for hours. I don't know why the county would push this option, instead of providing local access.

Authority	Hope you're well!							
	Just wanted to make sure you were aware of 2 preemption bills under consideration by the FL legislature:							
	SB856 & 1128, that would strip the County Commission [and your counterparts around the state] of your							
	authority on any matter related to energy.							
	Not only could these bills make a 100% clean energy goal for the county impossible, they could also nullify the 100% commitments already made by St Pete, Dunedin, Safety Harbor & Largo! They would also							
	potentially undermine great goals & strategies that will be contained in the upcoming comprehensive Sustainability Plan that Hank Hodde & team are working on. But even more erregious, these are huge							
	power grabs on critical decisions that now reside with the county. We need to maintain local input &							
	oversight of these important decisions in OUR community.							
	SB 856/HB 839 would completely remove input from local officials regarding all energy decisions, by preempting to the state all regulation over the construction of "energy infrastructure". It retroactively							
	prevents all local governments from passing any law, ordinance, regulation, policy, or resolution that							
	prohibits, restricts, or requires the construction, expansion, upgrading, or repair of energy infrastructure. It would also eliminate franchise fees from utilities that local governments depend upon for a substantial							
	portion of their budgets at a time of shortfalls.							
	SB 1128/HB 919 would eliminate the rights of local governments to determine how buildings — whether they're homes or business offices — are powered. It would also prevent municipalities from moving away							
	from outdated building codes and towards modern, clean-energy building codes.							
	Both bills will be heard Tuesday morning, 3/9 @ 9:00 am. by the Senate Regulated Industries Committee that Senators Rouson and Hooper represent Pinellas on. I thought that you would want to know about

	We are at the 1 year mark of "15 days to flatten the curve" so our healthcare system is not overwhelmed. Well, the system is doing well. The warnings we have received warning of superspreading have not come to fruition. The costs of keeping the mask mandate are mounting to what will soon be insurmountable heights. Chronic sore throuts, chronic coughs, rashes, lung and bacterial infections and TMJ are at ew of the physical effects. The mental and psychological effects are even higher. People are battling and succumbing to depression and addiction. This mandate has also created serious divisions among our citizens. This mandate has exacerbated and perpetuated flex over logic and reason. It is time to rescind the mandate. You are not in charge of our health. If people are vulnerable or concerned, by all means, wear a mask. Healthy people should be forced to. Your board is not my doctor. This board is not my parent or my child. YOU are not entitled to make decisions regarding the health of me or my family. Other counties and recognized this and are leaving the choice where it should be, with the people. Pinellas county needs to do the same. I have serious concerns that so few people, who ostensibly work for me and my fellow residents have decided to force compliance until the new, current goal is reached. This goal, I far, is unattainable. I also far that is why the goal was set. It's a uncrealistic goal for numerous reasons, not limited to the fact that given our population, there will likely neeve be a day when there are flewer than 30 people that are sick with ANYTHINK, Another concerns the unreliability regarding the sametivity of the test tise. The COC admitted in January that there is a problem with false positive when the cycle count is too high, and further admitted that a great number of these tests were in fact, not "asymptomic" spread, but false positives. It is time, beyond time, to end this. It is time to remember that we are adults and are guaranteed the freedom to make our own choices. 	I am writing to urge you to do your part to make sure that mask-wearing is voluntary, not mandatory in our communities. Many jurisdictions are basing their face mask policies on guidance from the Centers for Disease Control and Prevention (CDC). The CDC has flip-flopped its position on face coverings several times since March but is now recommending that everyone wear a mask in public. This recommendation is not supported by strong empirical evidence. Though there is science to support mask-wearing, there's also a preponderance of science showing that masks can cause considerable harm and are ineffective in preventing the spread of cononavirus. There is also no science supporting the use of masks by healthy individuals. So emergency orders that are being issued to help protect public health are actually huring individuals. So emergency orders that are being issued to help protect public health are actually huring individuals for an advect and the being — and violating their basic human rights, constitutional rights and religious rights. Evidence that masks reduce the transmission of viral respiratory infections within community settings is equivocal a bate. A recent meta-analysis (bit.)/2/Virabpitabil that included nardy a dozen randomized, controlled trials and 10 observational studies found that there was no clear clinical or laboratory- contifrence dividence that masks requeres infection. Leven the U.S. Surgene General has noted that masks "are not effective in preventing the general public from catching the coronavirus." (bit.ly/310gdmS) in terms of harm, studies show that wearing a face covering reduces blood and tissue surgenation — which can be deadly — while increasing carbon dioxide levels. The use of masks can also increase the risk of infection and the spread of viral illness (particularly cloth masks), hinder detoxification that occurs through exhaltaction, inpair the immune system, and cause a walke range of other physical and psychological issues. 	Please help to open Florida back up by removing the mask mandate and the 6 foot social distancing requirement. Mask are not healthy and in fact when wearing them we are breathing back into our lungs as much as 15 percent of toxic carbon dioxide which leads to oxygen depredation. Many of your voters are elderly and deserve to breather the healthy salt infused Florida air. Other states have opened their eyes to the dangers of these mandates and have opened up completely. Please follow suit and do the same. Florida needs your help. Rene ⁶ . I implore you to be a hero today! Sincerely, Kathryn V Kramer

Mask Mandate Expiration	Statewide mask mandate (r request that Pinellas County consider the immediate expiration of the current countywide mask mandate for many reasons some ('we listed below: 1. There should be Bio-Hazard waste facilities setup at every store, shop and retaurant if the virus is infectious, so that the infectious mask can be discarded and propert disposed of. Without proper disposal the virus is just carried from place on the infectious masks. 2. You can find mask littered all over Pinellas County. You find them in parking lots, at the gas pump, even at the local boat ramp, destroying our beautiful waterways. That seems like a PANDEMIC of infectious masks, is our sallie now infected? Have there been any studies on this? 3. The science does not support the mask mandate. Frankly it is ally to assume that 'light be virus entering a restaurant, but won't get it when 1st down. The masks are doing more harm to people's lives then the virus. People are reusing these things, hereathing in the exhaled air for many hours causing other health issues. 4. There are no standards for the mask mandate. People wear different masks, made by different companys, made from different materials. Has any testing been performed to test the effectiveness of these different mask? People wear were mark under their nose, under their chin, and this to ka s long as they have 1 on. Please consider the immediate termination of the mask mandate in effect in Pinellas County.	Randy Tarmer	3167 Willow Ave	Largo	33771	7274528103	rt160001@ncr.com	2021-03-03 11:40:13	
Health Mandates	Good morning, I request that you revealuate your policy on mandating businesses to require masks. As the population has either had covid and built antibodies or received the vaccine, I believe it is fruitless to require healthy people to wear masks. First of all, masks do NOT restrict virus passage, so therefore are ineffective. Next, the wearing of masks is not thereficial to oxygen delivery, and will lead to high blod pressure, poor lung perfusion and reduced oxygen to the brain. This is especially critical for children, who are at the lowest risk of even contracting this corona virus. Please reconsider and set us free from this insanity which will never end if brave people do not take action. Thank you for your time.		1421 Monte Carlo Drive	Clearwater	33764	7708421921	yagorski@aol.com	2021-03-03 11:36:21

Covid	Intank you! Dear Commissioner Eggers: It is past time for Pinelias County to end the Covid mandate. Many counties and states have already done so. There is now available three vaccines and many treatments and therapies for the disease. The effects of masking, distancing and the many other actions taken by businesses and government — such as temperature taking, signage demanding sanitizing, hand washing and plain silliness like clean and "dirty" pens and plexiglass barriers – are insidious, driving people apart. It is destructive to the social order and is damaging to cur vick, social, economic, educational and personal pursuits and interactions. I am a senior citizen and it is my job to take care of myself. I have lost a year to Covid and cannot afford to lose another. Netther can the children whose childhoods are being wayed and they are the future. 3/9/2021 Meeting Agenda Item #5 State of Emergency	In the summer of 2020, in a hearing before a judge in Pinellas County, an attorney representing the county defined the Pinellas County State of Emergency as "temporary."	David Happe	850 E Lime St	Tarpon Springs	34688		dave@happes.com	2021-03-03 06:40:53	
	"The temporary mandate to wear face coverings in public, in limited circumstances, is similar to other health measures designed to protect the public's health, safety, and welfare," Pinellas' response states.								
	Nine months later, the judge might be surprised that what Pinellas County defined as "temporary" in effort to sway a legal argument has turned into a perpetual weekly renewal with no definitive end game.								
	Shortly thereafter, on a split vote, the Pinellas County Commissioners voted to abdicate their main responsibilities by placing the power to renew the State of Emergency into the hands of an unelected and								
	unaccountable bureaucrat. The net result of that poor decision was that the commissioners would not								
	receive direct briefings on a weekly basis while forcing the residents of the county to live under unusual								
	mandates afforded by the Commission's own mandates enacted by the State of Emergency. Simultaneously, the commissioners also voted to minimize citizen input, stifling communication at exactly								
	Simultaneously, the commissioners also voted to minimize citizen input, sitting communication at exactly the time when the citizen voices should be sought and considered, not censored.								
	Commissioners Karen Seel, Janet Long, Pat Gerard and a former commissioner voted against the people,								
	and for the censorship and abdication of duty. Commissioners Charlie Justice, Kathleen Peters and (now)								
	Chairman David Eggers voted to continue to listen to their constituents and to continue to receive briefings and maintain decision making regarding the State of Emergency.								
	In your upcoming March 9th Meeting, the State of Emergency is on your agenda. You should follow the								
	lead of more than half of the other counties in Florida by letting the State of Emergency expire, separating								
	the SOE from the Gerard commission mask mandate, reinstating a new SOE that is freestanding absent a mask mandate, and reclaiming your authority to be the decision making body we hired with regard to the

	I own several restaurants on Clearwater Beach and was wondering if y'all had any plan or have discussed								
	on ending the Covid restrictions like Sarasota just did. It is very, very , very hard to make customers								
	comply when #1 - the beach is jam packed - even more so bc of the start of spring break, #2 - the								
	governor keeps reporting to the nation that Florida is open and come visit as there are no restrictions.								
	#3 - customers know they can't get fined. #4 most people are over this.								
	I don't think is is fair that the business's in surrounding counties are being fined when customers can not								
	be fined - impossible to control in large restaurants & bars, especially beach bars. My managers will have								
	all the customers seated and then a song comes on and 25 people stand up - all we do all shift long is tell								
	people " sit down - mask up". And why can you only get Covid if your standing up???								
	The numbers continue to go down, even after Super Bowl - and obviously people are over this and want								
	to come down here and enjoy themselves. Its been over a year, we have all been educated about Covid								
	and how to protect ourselves. Folks that are concerned about Covid should stay home and not visit w us.								
	The rest of us should not suffer after a year.								
	I know you all have a tough job and there are optics and of course politics to look at but I and the rest of

	the plan is to have less than 30 cases of Covid for several weeks. Don't your colleagues know that's like								
	saying less than 30 headaches in the same time period. (I'm sure they know what they are doing so they								
	can keep all their sheep in masks.) It looks as if they don't want this to ever end. I'm sorry you stand alone			1	1
