Please END THE MASK MANDATE	I am unclear why the MASC ROBINANCE IS STILL IN PLACE. Hospitals are not overrun, nor have they ever been, Deaths, well, we had no more deaths in 2020 than in 2019. IT HAS BEEN a YEAR!!! This is not normal and is creating division, fear, anger and will bring many health implications in the months to come. See below the studies that have been done over the last 20 years. MASKS ARE INEFFECTIVE AND ACTUALLY CAUSE HARM! Stop making this political. 	My personal thoughts on the mask mandate are that the people who believe in masks, will likely still continue to wear them. Lifting the mandate will really not change most people's minds, but will help lessen the tensions and fear of the people of this county. The counties to the North & South of us, lifted their mandates. Texas has seen a precipitious drop in cases/deaths after lifting their mandate. You have r	10

	This is a new study just released. Please take the time to read it, your constituents deserve at least that. "Trusting" the science means that we grow and change with the science. State of Emergency	Thank you for your concern for our citizens of Pinellas County and willingness to serve us. I would like to express my hope that you will lift the state of emergency order for our county, which will finally eliminate the mask mandates. Per DOH health reports, as of April 4-891 out of 1,050 could-related deaths were in long term care facilities. 99% of people who develop covid illness recover due to successful therapeutics, such as Vermectin and HCO. Due to the number of waccines being received, herd immunity is certainly within reach. The other factor is the masks will not prohibit viruses from being passed, due to the extremely small size of the particle. If people believe they are helped by the mask, they can wear them. But to continue to enforce the wearing of a mask by healthy individuals is a breach of medical choice. Please reconsider your policy in this matter, especially considering the length of time this has been in place. So, therefore masks do not work. Thank you.	1421 Monte Carlo Drive	Clearwater	33764-2803	17708421921	yagorski@aol.com	2021-04-10 19:46:39

Mask Mandate - Criteria for Implementation and Discontinuation	Mr. Eggers, Oaniel Miller I'm an engineer living in Ozona; born and raised in Pinellas. There are currently mask rules in place that appear: 1. Arbitrarily Enforced, and 2. Of unknown effectiveness. This raises two questions. 1. What is the justification that Pinellas County is using for the burden placed on its residents by this mask mandate? 2. What are the criteria for lifting the mask mandate? 	I truly appreciate the difficult task you and the other commissioners have when it comes to deciding on policies relating to the Covid pandemic. In this time of unprecedented upheaval caused by the virus, I don't envy the difficult (and thankless) choices you are called upon to make. While I may have decided issues differently, I realize nonetheless that you are doing what you were elected to do.								
	I am not contacting you today to attempt to suggest a course of action for all activities in Pinellas County, Rather, I want to address a small subset of activity, namely church attendance. After almost a year of dealing with the implications and ramifications of the pandemic, I truly believe most thurches are conducting themselves in a responsible manner, and have not shown themselves to be a source of major problem. So I would simply ask you to consider the following. Would the County Commission please consider modifying the current mask ordinance to exempt churches from its requirements? The county could still make recommendations for what they would like to see churches do of course, but it would be a blessing to the local Christian community if the final decisions were allowed to be made by each individual congregation, based on their own situations and circumstances. This would not require the commission to decide immediately the ultimate issue of removing the ordinance altogether. But it would allow churches to make their own independent choices of how best to conduct their worship services, which I believe they are best equipped to do. Thank you for your consideration of this request.

Corona Virus	This is NOT the time to decrease the public health safety guidelines you have established for Pinellas County, Of Course, everyone is tired of the vinsy. Festrictions. However, it has been proven they work saving lives and hospitalizations. The infection rate in Florida continues to increase. April is still Spring Break for some increasing out of state population in our County. Also, now that we have MLB regular games being played in Dunedin, this will only increase the possibilities of virus spread. Canadian residents have already been quoted saying they have come to Pinellas County for the next two months to watch MLB. You requested or received a letter dated 2-18-21 from medical experts providing you with recommendations as to when restrictions can be reduced/changed. Why not follow these professional scientific recommendations, which can be reviewed and updated as conditions change? MASK MANDATE IN PINELLAS COUNTY	mandate. Yes, we know we can go without masks even with the mandate. I never wear one anyway. But my heart breask for the children! The reason we are willing to go to such effort to get through to you is because this county mask mandate needs to end before the Pinellas County School Board will end their mandate. We are able to go without masks but children as young as 5 years old in our county have been forced to mask 7 hours a day with only a quick break for lunch and PE all school year long. What a disgrace! High schooles don't even have mask breaks as their lunch is now at the end of their school day. How criminal! You may think that this has nothing to do with you but it does. In Pasco, their BCC ended the mask mandate and the Pasco Schools immediately followed suit. We are not going to quit until you end this mandate. We are not only doing this just for ourselves but for Pinellas county school children. How do you sleep at night knowing you have something to do with the torture of children wearing masks? Instead of directing anger at us, listen to us. Represent us. The only one you set no represent is Dr. Cho and the "mediacl community." Who the heck is Dr. Cho? What example are his credential? If he is from China, remember, they are a communist country. Obviously he is too. You have been letting Dr. Cho dictate public policy for nearly a year. We need you to represent our interests. We are petitioning you to end this mask mandate her. Jam a Pinellas County, FL resident of 35 years and up until now have never contacted any County Commissioner. Just read an article stating that you have no intention of voting to lift the County mask mandate. Our State GOVERNOR has issued a NO MASK MANDATE for our State yet you continue to try to enforce it here in Pinellas County, With the vaccine now being offered to everyone that wants it. 	I am writing today in support of maintaining face coverings in Pinellas for the time being. Covid cases are								
	surging yet again and we need to be cautious. Additionally, if the board changes course, the Pinellas								
	School Board will be under more pressure to lift their mandate. Having Covid increase in schools due to a								
	lack of mask wearing will be a detriment to our entire county.								
I	Thank you for your consideration.		1	1	1		1

	I am writing to request that you rescind the Pinellas County mask mandate.								
	The second second difference is a second sec								
	There are 3 points I'd like to bring up in today's message to you.								
	Lagran 1								
	People who are not doctors are normalizing signs of illness.								
	I know you've said it before to yourself or to a coworker in conversation: "Gosh, it's hard to breathe								
	sometimes with this thing on." People in all sorts of places of business are often told by their co-worker,								
	supervisor, friend, board members, etc that it is normal to feel short of breath sometimes. "Yeah me too,								
	I hate it these things sometimes." As it turns out, my son mentioned he was feeling short of breath a few								
	times before the night of his asthmatic bronchospams. Adults told him at school this is normal.								
	Thankfully his parents were the ones with him when he could not pass air and required medical attention								
	As a medical professional, when one of my patients tells me they are feeling short of breath, I usually								
	advise that they go to the emergency room immediately. To advise otherwise would put me at risk of								
	being negligent in providing appropriate medical advice. Please be sure my comments get to your								
	attorney. It is not normal to feel short of breath. Masks are causing this problem, and your mandate is								
	normalizing it. You (and most of your coworkers / friends / board members / teachers / etc) are not								
	qualified to provide medical advice.								
	2) Masks are causing physical and emotional harm.								
	I won't draw out the entire story for you again, as it was emailed to you last year, but my son's newly								
	developed asthmatic bronchospasms were, per his pediatrician, related to something new in his								
	environment. Thankfully his problems completely disappeared once he got medical exemption to wear a								
	face shield at school instead. Cloth face coverings are being used like medical devices, without parental								
	or physician involvement, but yet are not regulated like medical devices (there is no good data to support their efficacy or safety in the community setting). I know many other parents who have had similar issues								
	with newly developed asthma or worsening of existing asthma, headaches, overheating, strep throat,

1	My name is Edward Alcorne and I own the property at 293 Orange st in Ozona.								
	I have a problem that over multiple calls to different county departments I have yet to be getting any								
	answer.								
	My property is adjacent to the Ozona Preserve to the north.								
	On the property line I have a tall Cherry Laurel tree that has become partially up rooted and is leaning at								
1	about a 30 degree angle toward the preserve.								
	I called a tree removal company and have them set up to remove the tree on the 15th of this month.								
	Since the tree leans toward the preserve the tree company needs access into the								
	preserve for about four hours to take down the tree.								
	The gate for access is near where the tree is						1		
1	This area is nothing more than a vacant lot and really was just for access into the preserve.								
1	I have since been told to call different county office but no one can give me an answer to who really takes								
	care of the area .The number on the county sign is not longer in service. The parks department, even								
	though it says on their web site they are in charge of it are not able to grant permission to access. They								
	said to call county tree services who passed me along to some else.								
	If the tree falls it will destroy the county fence and be a huge mess . I am concerned that it will also						1		
	damage my house. It is also a safety hazard as I dont know when it will fall and am concerned to walk								
I	near it.I am only asking tor the gate to be opened for a fews hours so I can take care of the problem.		1						
1	I have a licensed tree service ready to do remove the tree before it comes down.								
1	I would your help in the matter if you could.						1		
1	The tree is a Cherry laural which is a nuisance tree and does not even need permitted to remove.								
	Thank you for help in this matter.

	As Commissioner's you are all currently in Violation of Federal Law regarding the mandating of Emergency Use Authorization devices. See the below information regarding EUA devices and the mandating of such.								
	YOU are the elected officials, and you have abdicated your duties to the UNELECTED public health officials, who you are allowing to UNLAWFULLY dictate mandates that violate the citizens LAWFUL rights. The ILLEGAL and UNCONSTITUTIONAL mask mandates that you have allowed to continue in Pinellas county must cease and desist IMMEDATELY! When the mask ordinance was originally made, Commissioner Eggers asked during the meeting how the								
	ordinance could be reschieded. Afterwey White stated "Yes, you could waiver notice and do some of the things you are doing here tonight" This is from the June Yote Recorded Video, time stamp 5:26:27. Here is the link to the video for your convenience: https://www.youtube.com/watch?v=pa40uTHizc. So Attorney White was either misinformed at that time or she is misinformed now.								
	The members of Pinellas Watch are making arrangements to play this portion of the video during the public comment at your next meeting on April 13th to remind you of what was said.								 -
	You have the power to end the mask ordinance this week. According to Attorney White, the Board does not have to advertise the mask ordinance.								<u> </u> -

	I see that our Commission is extending the county mask mandate 7 days at a time. I am writing to suggest this is not supported by our data and needs to be ended.	l							
	The deaths from Covid-19 in the county has fallen to 0 – 1 deaths per day. This is great news. The use of hospital/ICU beds in the county by Covid infected patients is incredibly low with the vast majority of beds available. The alleged purpose of many of our health rules was to keep from overloading our health care	I							
	system and data certainly seems to show we are there. Other counties have lifted mask mandates with no negative impact. There is no rational reason to believe Pinellas would not follow this path.	I							
	I am of course not asking for some sort of rule to prohibit mask wearing, just to allow individuals or businesses to make the decision based on their circumstances. As we are going now, we are losing the confidence of our residents who are ignoring the mask mandate more and more each week. Those now	I							
	ignoring the mandate are criminalized and the divisiveness of this policy is becoming destructive to our communities. I would recommend reducing this to guidance to wear a mask but allowing for individual choice, unless of course there is some other goal than avoiding overload of our health care capabilities. Is the goal now 0 deaths? Is the goal 0 cases? Either of these would be indefensible. Please change this	I							
	the goal now 0 cestra's is the goal o cases' either or messe would be incertisione. Please Arange this divisive policy. Foll it now. If you disagree that this mask mandate should be ended now, please respond with you rationale. I am willing to listen and possibly learn. But at this time, with all the data available, I don't see a mask mandate as justifiable at this time.	l

April 13th	We've started the communication and information campaign. As of April 13th, the mask mandate is over in Pinellas County. You can either formalize it, or not. We don't care. April 13th is when we have decided the mask ordinance no longer applies in Pinellas.			Tarpon Springs			happearchive@gmail.com	2021-04-06 14:04:19

the Virus. The Hospitals are Not Overwhelmed. Lift the Mask Mandate Now.	The Governor of Mississippi says it well. "The fact is that in our state, throughout this pandemic, our approach has been to not only protect lives but also protect livelihoods," Reeves said. "We have to get our economy rolling so that individuals can get back to work and I think that is critically important."								
	In Reeves' opinion, Mississippians can be trusted to make their own "good decisions" when it comes to the pandemic. And later, Reeves conceded that the state's goal has never been about ridding themselves of the virus.								
	"Our objective has never been to rid ourselves of the virus or make sure that no Mississippian actually gets the virus because we don't think that's a realistic goal," he said. "Our goal is to ensure that we protect the integrity of our healthcare system such that every single Mississippian that gets the virus that can get better with quality care receives that quality care."

	You imposed this mandate against our will, lying that it was "temporary". The hospitals are not and were never overwhelmed. Stop this mask mandate. It's been nearly a year now. The goal was never to eliminate the virus. The vulnerable in this county now have been vaccinated. Pinellas citizens can make decisions for our own health. Enough of this county government forcing health decisions on the public. Free Pinellas. Make masks a choice.

	that we are expected to have a case count of 30 or less for 4 continuous weeks before this mandate will								
	be lifted. We live in a county of almost 1 million people and that would require 0.003% or less of our								
	county's population test positive. We're also hearing through the grapevine that you may be considering								
	lifting the mandate but it will take approximately 6 weeks to do so. It sure didn't take you that long to put								
	a "temporary" order into effect.								
	Over the course of the past year we have also learned that the PCR test is not capable of specifically								
	detecting the COVID-19 virus and that the higher the cycle threshold used, the test is more sensitive								
	resulting in a number of false positives. A positive test result is also not indicative of the severity of the								
	case. We have observed that the majority of cases are minor in nature with a small number of cases								
	requiring hospitalization yet the media and our government, from local to federal level would have								
	citizens believe that a positive PCR test automatically means that the person will have severe symptoms,								
	e.g. worst case. Yet, the county and local mayors continue to encourage people to get tested regardless of								
	being asymptomatic.								
	At the beginning of this pandemic we also had concerns on hospital capacity to treat COVID-19 patients.								
	Based on the data published, we have not overwhelmed our local hospitals with COVID-19 patients and								
	are continuing to see an overall reduction in cases on a local as well as national level. Over the past								
	month, the COVID-19 occupied beds have averaged about 4.6% or approximately 247 patients, 0.0223%

To the Pinellas County Board of Commissioners, Thank you for your service to our county and state. You face many challenges! lurge you to lift the mask mandate. It does not align with the state no mask mandate. It ignores OSHA guidelines for proper mask usage. The science behind masking for covid-19 is dubious and unsure. Discarded masks are everywhere as litter. It's time to turn the corner on the mask mandate. Don't get left behind. Our amazing governor Ron DeSantis is on target and I would like to see Pinellas County in alignment with state guidelines. 	"temporary" mandate which until recently had no criteria to be lifted. We've now learned that we are								
	expected to have a case count of 30 or less for 4 continuous weeks before this mandate will be lifted. We								
	live in a county of almost 1 million people and that would require 0.003% or less of our county's population test positive. We're also hearing through the grapevine that you may be considering lifting the	.							
	mandate but it will take approximately 6 weeks to do so. It sure didn't take you that long to put a								
	"temporary" order into effect.								
1	Over the course of the past year we have also learned that the PCR test is not capable of specifically								
	detecting the COVID-19 virus and that the higher the cycle threshold used, the test is more sensitive								
	resulting in a number of false positives. A positive test result is also not indicative of the severity of the								
	case. We have observed that the majority of cases are minor in nature with a small number of cases requiring hospitalization yet the media and our government, from local to federal level would have								
	citizens believe that a positive PCR test automatically means that the person will have severe symptoms,								
	e.g. worst case. Yet, the county and local mayors continue to encourage people to get tested regardless o	f							
	being symptomatic.								
	At the beginning of this pandemic we also had concerns on hospital capacity to treat COVID-19 patients.								
	Based on the data published, we have not overwhelmed our local hospitals with COVID-19 patients and								
1	are continuing to see an overall reduction in cases on a local as well as national level. Over the past								
1	month, the COVID-19 occupied beds have averaged about 4.6% or approximately 247 patients, 0.0223% of our county population. Yet the way you, other politicians and the media portray it, it's no wonder the								
	general public is still running around masked up and scared of their fellow humans. You've driven the feat	r							
1	into these people that they're going to get fined or die if they go without a mask or that every single								
	human being is contagious 100% of the time.

	have to say. If this is indeed true then it is time to end the current state of emergency immediately and							
	vote for a new state of emergency that does not include a mask mandate.							
	I am hoping that this rumor is false seeing that at the last meeting it was stated that the mask mandate is							
	completely separate from the local state of emergency.							
	The CDC has released reporting that the wearing of a mask stops the spread of a virus by less than 2%. it							
	seems to me that there really is not much of a return on investment for this. It is time to end this. Let the							
	citizens decide for themselves. This is gone on way too long. We cannot continue to allow fear to dictate

Let it expire in April and write yourself a new SOE if you feel you need to have a state of emergency last for years until that power is stripped from you by legislation. Make masks choice like it should have been from the beginning. The day you implemented this mask mandate, more in this county were against it than for it and you forced it in anyway. You are the reason the school board followed suit, forcing masks on children as young as 4 years old for 7 long hours a day without mask breaks. This is sick and it disgusts me. Never forget the forced masking of children was your doing. If you had not implemented a mask mandate, these children would not have been forced into masks by the School Board. It's time to do the right thing and end this so that PCSB can finally stop forcing masks on children.

Every County member needs to resign	Your handling of the Coronavirus pandemic has proven that each one of you is unfit for office. Requiring mandatory masking when the best science and data shows that masking is at best useless and at worst detrimental to both individuals and the spread of disease is idiotic and irresponsible. Infringing on individual's rights to choose their own actions and care is bad enough, but frightening businesses to the extent that they do not acknowledge exemptions (buried in your lilegialmas, lilegal, and irresponsible decree) of SERIOUS medical conditions where masks can create SIGNIFICANT health issues is a real problem. Mask Mandate	I am urging you to end the mask mandate and allow individuals to choose whether or not to wear a mask. You have mandated it and basically those of us who have health problems comply even as it negatively impacts our health. Further, there is less benefit to get a covid vaccination since either way you will still have to wear a mask. so it's better to just continue to stay at home. Your mask mandate is also is training us to shop online. During this whole panderie! have only gone out for necessities or open air non-mask events, the rest of the time is st at my computer and order what I need online. I just purchased over 550, vesterday from Amazon Smile with zero tax and free shipping. I had purchased one of the same items online list year at Home Depot with pick-up at their store where I had to stand in line wearing a mask and pay tax It doesn't take a genius to figure that one out and even if the State Legislature collects their tax, you will still not get your penny. So slossielly, with this mask mandate you		6294 60th Ave North	St. Petersburg	33709	7275440470	dorinemckinnon@yahoo.com	2021-03-18 12:05:20

CDR MacQuire COVID Vaccination	I just wanted to contact you & let you know that after a disasterous initial rollout by CDR Macquire to vaccinate seniors the system now in place is VERT impressive. I was one of those seniors trying several times to try to place an appointment on the website to obtain a covid vaccine. I was pleased when they shut it down & announced they were going to contact seniors who had signed up an account with them & to get notified of alerts. I had done this right from the beginning even when they said you didn't need to. I had an inkling it might come in handy down the road. I am now fully vaccinated. I received my alerts, went on their website & chose my appointment time. I showed up when scheduled, traffic and parking were no problem at all. Waiting in line was minimal, everyone was helpful and friendly and contantly going up and down the line making sure you were in your right line for the right time. My QN Code was canned, my personal indo netwed before I entered, again when I received my wrist band. & Vaccine Card & once again before my shot & finally when I was released after my mandatory 15/20 minute wait. First visit, 30 minutes total, second visit 45 minutes! You hear all the complaints but whoever was in charge to set this up did it with a military like precision & should be publicly recognized. Pinellas County Ignores Conclusions on	When Pat Gerard made the ludicrous assertion in your Pinellas County commission meeting on March 9th	David Happe	850 E Lime St #2322	Tarpon Springs	34688		dave@happes.com	2021-03-10 06:14:44	
Population Density from Johns Hopkins	that Coronavirus could discern between population centers, I take it at face value that she wasn't								
	researched enough to know that her premise had been debunked definitively by Johns Hopkins months								
	before. It's understandable why she is not a subject matter expert here, since she and a majority of the								
	Pinellas County Commission voted around the same time as the study came out last summer to abandon								
	your responsibility to stay current on scientific developments in the pandemic. When you voted to turn								
	your responsibilties over to an unelected employee, it came with the presumption by the citizens that you								
	didn't have enough intellectual curiousity or capacity to track every detail of the pandemic. That's why								
	you put it in the hands of an employee, tasked with monitoring this.								
	Which is why it is curious as to why Gerard's faulty assertions were not immediately corrected real time								
	by the employee who should know better. So the question remains which is a worse fate for the								
	Pinellas County Commissioners who have put their political aspirations and fate of the Pinellas County								
	health response in this advisor? Is it better for you that he knew the truth and said nothing, or that he								
	didn't know the truth? You're faced with a real world Sophie's Choice as you evaluate the depth of the								
	hole you find yourselves in.								
	In a now not newsworthy research conclusion from July 2020, Johns Hopkins researchers concluded that								
	"Urban Density is Not Linked to Higher CoronaVirus Rates." (See JHU.EDU summary, attached). Gerard's								
	inane assertions that "the Dakotas" are faring better than Pinellas because they have less population in								
	aggregate than Pinellas could be the subject of it's own mocumentary. First, this is opposite of science.								
	Second, the population centers of the Dakotas are actually faring WORSE than Pinellas, so if we used the								
	Gerard litmus test, we'd come to the opposite conclusion. North and South Dakota are the two HIGHEST								
	infection rates per capita in the United States, much higher than Pinellas and much higher than Florida								
	overall. When we're smug, we at least should be smug and accurate. Pinellas and Florida et. all are in the								
		•							
	mid 50 percentile for Covid infections overall, while Gerard's North Dakota is the highest in the country.								
	So we pay Barry Burton \$300,000 per year to manage this for us. When asked, why didn't he LEAP to his								
1	feet to talk about the Johns Hopkins conclusion, and immediately put to rest the debunked assertion that		1						
1	population density was a metric we should use? Or Dr. Cho, our resident pandemic "expert" whose		1		1

MANDATES / OPEN UP 100%/ STOP the			1						
LIES Pinellas BCC!!	As a lifelong Pinellas resident, I'm disappointed in the actions of the BCC. It's unfortunate we are at this		1						
1	point in Pinellas. It's nearly a year now since COVID hit and the Pinellas BCC is still forcing masks and		1						
1	threatening businesses with fines. The majority of residents called in against forced mask mandates since		1		1				
1	day one. The majority were against our beaches being closed and against businesses being threatened		1						
1	with fines. The Pinellas BCC decided they know better than the people they represent and went against		1		1				l
	the will of the people. It was supposed to be "temporary." Now we know many months later that was a								
	lie. Pinellas county citizens have implored the BCC repeatedly since the start for their metrics on ending								
	the restrictions. Now we know that the metrics to end restrictions is 30 cases a week for at least a month								
	straight, an unattainable goal which means a semi- permanent forced mask mandate that stretches much								
	farther into the future.								
	interior into the locare.								
	"30 days" to stop the spread had potentially turned into years of this local government forcing their								
	restrictions on the people of Pinellas against their will. Enough is enough. In this the article, Governor DeSantis says he will be limiting local government power through legislation. It's long overdue.								
Ī	bestings says the will be limiting local government power through registation. It's long overdact.

It is long past time to lift your ridiculous countywide mask mandates. They are unnecessary and ineffective. We hear a lot about, "following the science." Well, here it is - and it is undenable. Frankly, your beach ban in April was embarrassingly moronic, but forcing young and healthy people to wear masks for nine months with almost zero effect makes the beach ban look like a stroke of genius. Your insanely mornic beach ban should have forever entiled you all from all levels of government, and forced you all to live the rest of your lives in shame. Keep in mind, you all were barely reelected (still impossible to believe) 50-49 - not exactly a vote of confidence in your leadership. If you have any thoughts of ever winning again, you had better shift from talking about following the science to actually following science. Pinellas Mask Mandates	Dear Comissioners. Now is the time to end these ridiculous restrictions and mask mandates in Pinellast This has been dragged out for far too long and the governor has already made it hard for you to enforce these rules. More states are dropping the mask mandates. Clearly, this is a game of political Theater and the masks are not working! The Cdc even has a study that showed masks are only 2% effective! Could you imagine if they said that about the vaccines? With 3 vaccines available, now is the time to drop these crazy mandates! This cant be prolonged indefinitely! Lets get Pinellas County back to normal. The people that want vaccines can get them, but it is beyond time to go back to normal! If this keeps getting dragged out, more ppl will just stop complying! Thank you for dropping these mandates. Lurge you to follow Sarasota in dropping them! Sincerely, Alyssa Edds	568 Shoreham Ct Ne	Saint Petersburg	33716	3163237371	aedds00@gmail.com	2021-03-09 14:29:05	
Masks	I would like for you to consider making masks not mandatory. Several states have discarded the mask mandate. Our Governor left it up to the countries. I have Asthma and wearing masks is very hard on me. I have purchased shields and a dozen masks. There are others like me. The people that want or need to wear them could of course. Your help would be very appreciated. Thank you in advance for your help.	1 Key Capri 712 East	Treasure Island	33706	7276986835	ladonnanichols@aol.com	2021-03-09 11:15:25	
COVID 19 VACCINE - NO AVAILABILITY FOR NORTH PINELLAS CITIZENS	Good Morning, County Commissioners and County Administrator, as well as Dr. Chou and the Pinellas County Dept of Health: Please explain to the Citizens of NORTH Pinellas County who follow the BCC Meeting this morning, Tuesday, 9 March 2021: There is NO Availability for scheduling of Appointments for receiving any of the now THREE (3) Vaccines at any location in the area of Pinellas County above Culf-to-Bay Boulevard. All known Registration sites were checked this morning and each and every one had NO AVAILABILITY for accepting appointments for North County neighborhoods. However, there are available spots in the S1. Petersburg area and the Largo area. Why not in Tarpoin Springs, Dunelin, Oldsmar, Palm Harbor, Safety Harbor, Crystal Beach, and the East Lake Road Corridor. Publish has now divided its scheduling to the type of Vaccine and changed its registration to make it even more difficult to get an appointment in these areas. Why are more groups being added (eachers, etc.) when it is known that there is just not a sufficient supply of Vaccine to administer across the northern arc of Pinellas County. Thank You for all that you have done over the past year in dealing with this Pandemic situation. We support all your efforts and continue to search for an appointment to get our shot at combating the CCVID-19 spread. END MASKSIIIII Mask Mandate	The state of FL is a non-mask mandated state. Please honor the rights and freedoms of people and get our county in-line with the governor/State and rid us of masks. There is no data or scientific proof that masks prevent could or any virus for that matter. Rather many sources have shown that virus particles are so small they can pass through every type of mask material on the market. "I'm so sick of political and communistic mandates being forced on us. All of which violate the constitution of the United States. I have personally chosen to combat your ideology which is why i'm addressing this email to you. Pinellas County needs to stop infringing on the rights of humanity by forcing us to suffocate ourselves with masks. Let people be free to choose for themselves what is right. 	The CDC has admitted face masks do little to prevent the spread of COVID-19 amid mounting pressure to lift mask mandates across the U.S. in a new study, the CDC found face masks had a negligible impact on coronavirus numbers that didn't exceed statistical margins of error. The study found that between March and December 2020, face mask orders reduced infection rates by 1.5 percent over the rolling periods of two months each. The masks were 0.5 percent effective in the first 20 days of the mandates and less than 2 percent effective after 100 days." https://www.oann.com/cdc-face-masks-dont-prevent-covid-19-study-finds-masks-have-had-negligible-impact-on-coronavirus-numbers/	10240 127 Ave	Largo	33773	7274325180	adenlymbarnes@gmail.com	2021-03-08 12:15:33

4/8/2021	727-488-2018		She would like to commend the Commissioners on the mask mandate and keeping it in place. It is so wise especially with the UK variant being so prevelant in the US and us having so many visitors. Thank you for staying strong under pressure	Barbara	Broadman	
4/6/2021	727-871-0251	Homebound Vaccine	She was trying to speak to someone about how long it would be until her homebound mother gets her vaccine. They signed up back on March 17.	Lisa	Shellenberger	I told her we had a liasion so I would see if I could get someone to look into it. They called her and now her mother it set for a vaccine.
4/6/2021	727-871-4582	Mask Ord	She was wondering how she can address the Commissioners.	Debbie	Wilson	sjo - spoke to her and emailed her the link for the meeting and how to participate
4/5/2021	727-751-2157	Mask Mandate	It is wonderful that today Pasco County dropped it mask mandate	Virginia	Frizzle	
3/29/2021	727-366-2311	Mask Mandate	She wanted to know who is in charge of the mask mandate signs and the specific penalties for people not wearing masks and what statistical information are the Commissioners utilizing and reviewing to determine when we are finally removing the use of masks from all public places	Mora	Sweeney	sjo called and left a voicemail directing her to the upcoming BCC mtg on 4/13 where there will be a discussion and directed her to the agenda webpage.
3/29/2021	727-484-2478	State Reps	He wanted to know his State Reps because he is having issues with his unemployment.	Michael	McComas calle	I looked up his reps and also directed him to our website for possible rent assistance.
3/23/2021	727-895-5441	Mask Signs	Travis from Panera called about needing new signs. I called him back and directed them through the website to get to the downloadable files	Travis		sjo called them back

3/16/2021	727-365-4523	Veternarians	She believes veternarians, vet checks and staff should be included in the "medical doctors" for vaccination. People have to wait in cars at vets and will stop coming and then you will have a rabies issue because people will not get their animals. She wants the Commissioners to call the Governor and tell him.	Maria	Lettlier	
3/15/2021	727-2540-9349	Masks	She wanted to speak to a commissioner. She believes mask mandate is silly and does not do anything. She believes it should be removed	Sharon	Toner	X from a Commissioner
