Hello!

OMB has no objection to the Department of Housing and Community Development submitting a grant application to Forward Pinellas for the Complete Streets Program for Concept Planning and Design to make improvements to Whitney Road between US 19 and Bolesta Road.

This is a single-year reimbursement grant project that will likely impact FY22. The requested funding is \$50,000 with no expected match. The total project is estimated to cost \$100,000, total match of which will be provided by in-kind services of existing county resources.

The County Administrator does **not** need to sign the application for the County, Director approval will be sufficient. Please include this email when you send the application through Granicus. The review shall include the Director, and Assistant County Administrator along with any others as defined in Granicus/Legistar standard operating procedures.

If you have any questions, please do not hesitate to contact me. Thank you!

Hi Caroline and Alexis –

Can you answer the highlighted questions below?

Also, you have listed Andrew as the analyst for this department, will this be an operating project or a capital project?

Thanks!

Clearwater, FL 33756

**OPUS Project Title:**

**Duration:** Multi Year

**Proposed Abstract (Project Scope of Work):** The Planning Division in cooperation with Public Works Transportation Planning and the City of Largo are requesting permission to develop an application for a grant request for the Forward Pinellas Complete Streets Program for Concept Planning and Design to make improvements to Whitney Road between US 19 and Bolesta Road. The existing roadway is a two-lane, two-way rural section with discontinuous sidewalks and no dedicated cyclist facilities. This project will develop conceptual corridor enhancements to support on-going residential growth, bolster economic development, increase safety for all users, improve access to services for vulnerable individuals, enhance the public

realm, and provide more efficient connections between residences, schools, parks, public transportation, and businesses. The concepts developed in this effort will be further refined in the design process for implementation.

Projects such as these are vital to sustain existing and future development and will serve as a catalyst for positive change and private investment, ultimately increasing quality of life for all residents. Complete Streets are strongly aligned with our goals of connecting people to quality affordable housing, employment, education, and transit services. This project also aligns with Pinellas County Strategic Plan goals and objectives to:

- Enhance pedestrian and bicycle safety;
- Proactively attract and retain businesses with targeted jobs to the county and the region;
- Invest in communities that need the most; and
- Deliver first class services to the public and our customers.

**Benefit Summary (How will this benefit the County, Dept, etc?):** The Complete Streets Program provides opportunities for transformative land use changes by creating opportunities for walkable, bikeable and more livable communities. If selected for funding, the project aligns with the County's strategic plan goals to: enhance bicyclist and pedestrian safety; invest in communities that need that most; invest in infrastructure to meet current and future needs.

**Director Approval (Attach):**

**Is the proposal submitted for a different Department?:** No
