Background Information:

The Reimaging Education and Career Help Act was approved by the Florida Legislature and signed into law by Governor DeSantis in 2021. One of the major actions of the REACH Act was to improve coordination and the accountability of publicly funded workforce development programs and provide greater flexibility in allocating resources to maximize the funds directed to training and business services.

At their March 20, 2024 meeting, the CareerSource Pinellas Board of Directors (Board) approved transfer of unrestricted funds to Pinellas County to be used for workforce services for Pinellas County job seekers and employers. The funds were derived from funds remaining from the Capital Improvement Fund from the Science Center. The account was designated to track cash value for capital improvements to buildings as they became necessary. At the January 15, 2020, Board meeting, the Board approved the release of the remaining Capital Improvement Fund to unrestricted. With the pending consolidation of CareerSource Pinellas with CareerSource Tampa Bay, it is important that any unrestricted cash earned and attributable to Pinellas County remain available only for Pinellas County purposes. In addition, the Board noted that the recovery of funds from the litigation with Chubb would be unrestricted as well.

Fiscal Impact:

Revenue in the amount of \$1,000,000.00 will be transferred to Pinellas County. Funding for this transfer request is included in the current-year budget of the General Government Cost Center in the General Fund.
