Summary:

The Downtown Palm Harbor Design Guidelines were prepared by Planning Division staff to provide guidance to property owners and other applicants seeking approval for proposed development projects on land parcels located within the new Downtown Palm Harbor Form Based Code (DPH FBC) District. The guidelines identify certain architectural forms, features, and details that are compatible with the historical character of the contributing buildings in the Downtown Palm Harbor Historic District and Buildings of Historical Merit listed in the DPH FBC. Also, the guidelines provide examples of architectural forms and features that are consistent with the regulations and requirements outlined in the DPH FBC.

The Pinellas County Historic Preservation Board reviewed the Downtown Palm Harbor Design Guidelines at their meeting on July 14, 2021, and recommended that the Board of County Commissioners adopt the design guidelines document attached herein for use in the administration of the DPH FBC and the Downtown Palm Harbor Historic District.

Background Information:

The nine (9) contributing historic buildings designated in the Downtown Palm Harbor Historic District will not be subjected to or effected by the adoption of these design guidelines. However, it is the intent that these guidelines will be applicable for new construction in the historic district that is distinctly separate and apart from the nine contributing historic buildings.

Companion items to this Resolution include Agenda Item #21-1401A, an Ordinance amending the Pinellas County Land Development Code to include the Downtown Palm Harbor Form Based Code as Article XII of the Pinellas County Land Development Code; and Agenda Item #21-1403A, a Resolution amending the Zoning Atlas from several different zoning district categories to the new Downtown Palm Harbor Form Based Code District.
