Recommended Action:

Approval of the award of bid to Miller Pipeline, LLC for Sanitary Sewer Rehabilitation Cured-in-Place Pipelining projects located in Madeira Beach, Gulfport, SE Lake Seminole and Lift Station 075.

Bid No. 178-0050-CP(RW); PID No. 001933C; in the amount of \$1,220,075.00 on the basis of being the lowest responsive, responsible bid received meeting specifications; all work is expected to be completed within 365 consecutive calendar days.

Strategic Plan:

Foster Continual Economic Growth and Vitality

4.4 Invest in infrastructure to meet current and future needs

Deliver First Class Services to the Public and Our Customers

5.2 Be responsible stewards of the public's resources

5.3 Ensure effective and efficient delivery of county services and support

Summary:

The purpose of the project is to rehabilitate aging gravity sewer pipes. Routine annual inspection of gravity sewer mains enables the Utilities Department to identify defects. This specific project will rehabilitate approximately 32,000 linear feet of 8" to 12" gravity sewer mains serving mostly residential customers in the areas identified at Madeira Beach, Gulfport, southeast Lake Seminole and Lift Station 075 as listed in the attached location maps.

Background Information:

The work associated with this bid includes cleaning, videoing, Cured in Place Pipelining (CIPP), and

rehabilitating sanitary sewer lines. One of the methods to rehabilitate pipes with certain defects, is the use of CIPP. This method does not require excavation, is considered a trenchless technology, and has a reduced impact on the areas where pipe rehabilitation is required.

Fiscal Impact:

Estimated expenditure not to exceed: \$1,200,075.00.

Funding is derived from the Utilities Sanitary Sewer Enterprise Fund.
