Within the General Fund, \$350,000.00 is appropriated to the Planning Department for projects including the Mitigation Strategy Five (5) Year Update, Lealman Complete Streets, and the Restore Act Assessment of Vulnerability of the Impacts on Sea Level Rise and Infrastructure Resiliency Plan; \$740,060.00 to the Sheriff's Office for funds earmarked for the Sheriff's EMAR system and for completing grants projects for which the funds have previously been received; and \$82,020.00 to the Medical Examiner to complete several grant projects that are underway.

The Emergency Medical Services Fund (Safety and Emergency Services - EMS) is realigning \$324,530.00 necessary to acquire equipment for the Rubrik/Extensys computer backup systems for dispatch records, patient care records, and billing; to complete the acquisition of Urban Water Rescue Operations equipment; and for the delayed receipt of a Fire Department vehicle.

The Emergency Communications E-911 System Fund (Safety and Emergency Services - Regional 911) is realigning \$43,000.00 to replace five (5) monitors in the Regional 911 Call Center.

The Sewer Renewal and Replacement Fund (Utilities Department) is appropriating \$241,750.00 for the completion of vehicle acquisition due to delays in receiving the vehicles in FY18 by year end.

**Fiscal Impact:**

This amendment realigns FY19 appropriation from the Reserves for Contingencies in the funds below to increase the department and agency budgets as outlined above:
